PRES. WILSON APPEALS FOR LIBERTY LOAN

WASHINGTON, Oct. 15.—The administration appealed to America in a presidential proclamation published today to make the second Liberty loan even greater success than the first, which was oversubscribed more than 50 per cent. The president's proclamation sets aside Wednesday, Oct. 24, as Liberty day and asks that patriotic celebrations be held everywhere throughout the country in the interests of the loan. A half holiday is to be granted to all employees of the federal government in all parts of the country except those whose services cannot be dispensed with, to participate in the celebrations.

"Let the result be so impressive and emphatic," the president urges, "that it will echo throughout the empire of our enemy as an index of what America intends to do to bring this war to a victorious conclusion."

The wage earners of the country are urged in an appeal issued by Secretary of Labor Wilson to do their part in making the loan a success. Subscriptions continue to lag. Latest official figures showing a total to date of \$225,554,900. This is only about 8 per cent of the \$5,000,000,000 hoped for.

An appeal to the "wage-earners of the United States" to invest in the bonds was issued last night by Secretary Wilson of the department of labor. He said:

"The workers have more at stake in this conflict than any other, because the common people can come into their own. The great privilege is not given to all of our countrymen, but to those who are in the trenches, but there are other ways in which we can serve and assist those who are privileged to carry our flag on the battlefields of Europe.

"The impulse of sacrifice for the common good is sending a youth of our country into the trenches in the name of liberty, humanity and democracy. To those of us who must remain at home, the duty is to do the best we can to support the men who are going forth to do battle in the field must be equipped and sustained. Funds for the purchase of food, clothing, shelter, and other supplies for the fighting forces of the nation, for the purpose of securing the necessities of life, must be secured. The workers can help by contributing their mite."

President Wilson's Proclamation

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

"The second Liberty loan gives the people of the United States another opportunity to lend their hands to their government to sustain their country at war. The might of the United States is being mobilized and at once in the defense of outraged American rights and of the cause of liberty. Billions of dollars are required to arm, feed and clothe the brave men who are going forth to fight our country's battles and to assist the nations with whom we are making common cause against a common foe. To subscribe to the Liberty loan is to perform a service of patriotism."

"Now, therefore, I, Woodrow Wilson, president of the United States of America, do appoint Wednesday, the 24th day

BLOOD BUILDER

Still retains its supremacy. People still take Hox's Sarsaparilla because it is an old family friend, has proved its merit to three generations in purified blood, expelled humors, restored appetite, relieved rheumatism, banished liver feelings.

It long ago became recognized as the standard blood purifier and general tonic, it originated in a Boston physician's successful prescription and comprises medicinal roots, herbs, barks and berries such as are often prescribed for ailments of the blood, stomach, liver and kidneys. WHY NOT TURN YOUR HOUSE INTO A HOME?

Now that the cool autumn weather is here it suggests many things to the housewife. To turn her home into a new dinner set or to give her a new living room; to replace old furniture with new; to give a new decorative note to the rooms; pots and pans and other household articles. Now is the time to buy. Challons has a large stock of these things. Challons has a large stock of these things. Challons has a large stock of these things.

Terrific Explosion Kills Two at Du Pont Powder Works at Gibbstown, N. Y.

Nitro-Starch Dry House Wrecked—Two Men Blown to Pieces, Third Missing and Fourth Seriously Injured—Force Felt for Miles Around—Skyscraper in Philadelphia, Twenty Miles Distant, Rocked

PHILADELPHIA, Oct. 15.—An explosion today in the nitro-starch dry house at the Du Pont Powder works at Gibbstown, N. Y., resulted in the instant death of two workmen. A third man is missing and probably is dead. The bodies were blown to pieces. Another man was seriously injured. The destroyed building was a small one-story structure isolated from the rest of the plant, and the force consisted of the four men mentioned.

There was no other damage. The Du Pont Co. says there is nothing suspicious about the explosion.

Because of the terrific force of the explosion most alarming reports as to its extent were in circulation. In Philadelphia, 20 miles distant, it was felt, and surrounding towns in New Jersey reported shattered windows and other ill effects of the impact.

Ever since the war began the powder and munitions factories around Philadelphia have been a source of apprehension to the public and the people have heard or felt from the "down the Delaware" section where millions of pounds of explosives are being turned out for the armies.

The force of the explosion was so great that windows were shattered in buildings within a radius of five miles or more. Skyscrapers in Philadelphia, nearly 20 miles distant, were rocked.

Gibbstown is an isolated town 15 miles below Camden, on the Delaware river. It is the scene of intense activity where the Du Ponts manufacture great quantities of war explosives.

Woodbury, N. J., 10 miles north of Gibbstown, reported that the explosion was the worst ever felt there, and the town has felt many from the powder section of lower New Jersey and Philadelphia. Hundreds of men employed in the works live at Woodbury and a few telephone messages from workmen who were unhurt were received.

Store Clerks Urged to Buy

BOSTON, Oct. 15.—A mass meeting of employees of department stores, in a continuous session, urged today that the workers should buy the Liberty bonds.

Bond Campaign Lacks "Pep"

Pep is still lacking in the local Liberty bond campaign.

This is the decision of the executive committee today when the campaign is entering upon its last lap with less than a fifth of the city's minimum quota raised.

It was expected that the million mark would be reached last Saturday but the final tabulation showed the contrary. \$985,650 was the nearest approach to the desideratum.

Where the blame lies it is hard to say. Perhaps the city as a whole is in a sort of apathy—content in the belief that the issue will be met somehow. But the stern fact remains that it isn't being met and that Lowell is lagging behind.

A little encouragement came this noon when it was learned that two foreigners in the Saco-Lowell plant had subscribed \$500 apiece for the loan. Other foreigners are responding in a similar manner. The overseers in charge of the campaigns in the various mills all report that the foreign element is responding enthusiastically but that the Americans are holding back. They have to be prodded to realize the need of their country.

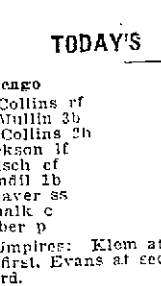

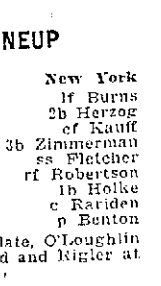

In the Root mill and the U. S. Cart-ridge shop the campaigns are swinging along in good style and results will undoubtedly be forthcoming shortly. And "shortly" it must be because the campaign ends October 27.

A meeting of the general Liberty bond campaign committee, which includes the heads of the various banks and industries, will be held at the board of the Chamber of Commerce tomorrow and an attempt will be made to inject a little pep into the campaign.

Mass. Mills Subscribers \$150,000

It was announced this afternoon and it was in every sense of the word a joyous announcement, that the Massachusetts Cotton Mills had taken \$150,000 worth of Liberty bonds. The purchase was made at the Union National bank.

POLO GROUNDS, New York, Oct. 15.

The Chicago White Sox are today knocking at the gates of Verdun, while the New York Giants throw in their last reserves to hold the key to the world's series. A defeat today for the Giants and the American leaguers win the season's baseball honors, while a victory for the champions of the National league would give them an equal chance with the Sox in the final contest tomorrow.

Manager McGraw wheeled his two left handers into line, Schupp and Benton and waited until the last moment before making his decision which one would open fire on the Sox. Both pitchers were ready. Urban Faber looked the likely pitching selection of Manager Rowland.

A balmy morning turned showery toward game time. A smoky sou'wester came in unexpectedly and the early crowd—a dismal one for a series contest, covered their heads and shoulders with newspapers and waited. The playing field was fast, mats and tarpaulins having only been removed a little while before noon.

Cheers and Jeers

The Chicago fans behind the visitors' bench welcomed the Sox as they walked on the field with rounds of applause which was punctuated by jeers from the Giants' supporters.

Announcement was made that Umpire Klein would give the decisions on balls and strikes; O'Loughlin at first; Evans at second and Nigler at third.

There was plenty of action to the Giants' fielding practice, the infielders making several brilliant stops and the relay work of Fletcher and Herzog bringing applause from the home partisans.

The Sox showed speed in fielding workouts. Red Faber and Claude Williams warmed up for the Sox, while Benton worked out for New York.

The main grandstand was packed when the game started, though there were a few vacant seats in the center. The stands were filled with the field bleachers. The band played the Star Spangled Banner and the crowd arose.

The Batteries

The batteries were announced as Benton and Rariden for New York; Faber and Schalk for Chicago.

First inning

The umpire conferred with the managers at the plate before the game to discuss rules for field disengagement. Judge Hylan, democratic candidate for mayor, threw out the ball. John Collins up; Strike one. Benton and took Collins' hopper and threw him out. McMillin up; ball one. McMullin sent up a weak line to Rariden. Eddie Collins up; foul. Strike one. Collins singled. The stands broke. Jackson up; foul sharply over second. Herzog took Jackson's

FIGHTING IN FLANDERS GERMANS GAIN IN EAST

Heavy artillery actions are again in progress on the Flanders front. London official report today speaks of a strong bombardment of the new British positions on the main Passchendaele-Ghent ridge, south of Broodseinde. In the light of previous experience this may be viewed as indicating German counter battery work against the intensive British artillery fire in progress preparatory to another push.

The British artillery now has superior positions from which to work, as there must by this time have been ample opportunity for the heavy guns to be put in position on the dominating high ground taken in the recent advances. It thus seems probable that Field Marshal Haig will not delay his next stroke beyond the time when these guns have had an opportunity to break up such concrete construction as the Germans have been able to construct in what they describe as their "defensive zone" which week by week is being forced further eastward.

Whether, however, is a decidedly important element in this consideration.

committees met together it is expected that something will be brought about.

It is planned to establish a reserve list of Lowell people who will signify themselves as willing to assist in the war work in whatever branch they are needed. They will be enrolled under what is known as the United States Public Safety reserve, a national body under the jurisdiction of the department of labor.

Mr. Hockmeyer says that from now on he will devote practically all his time to this work and he feels that with the co-operation of Lowell people the venture cannot fail.

The headquarters are still open for British and Canadian recruits. Mrs. Butler Ames is conducting a hat sale for the benefit of the Red Cross. She says that the hats were donated by a prominent New York milliner and that the proceeds will go entirely to the Red Cross.

MORTALITY VERY HIGH HERE

From now on the Federal Bureau of Census will issue a weekly report of the mortality in the various large cities of the country, the first issue having already been received at the office of the board of health.

In this report, which is dated Oct. 6, Lowell has the largest percentage of mortality out of 42 cities. The percentage was based on deaths under one year and Lowell's per cent. is 46, while next in line comes Fall River with a percentage of 43. Other cities and their per cent are as follows: Buffalo, N. Y., 30.7; Richmond, Va., 26.8; Cambridge, 26.7; Philadelphia, 18; Worcester, 17; New York, 16.6 and Boston, 14.6.

Lowell's average in mortality from 1912 to 1916 was the highest in the country, it being 32.5, while that of Cambridge was 23 and Boston, 21.3. The report states that as weekly figures always fluctuate widely caution must be used in their interpretation.

GIVE CUT RATES FOR VERMONT NO SLACKER SOLDIERS' INSURANCE IN ENLISTMENTS

WASHINGTON, Oct. 15.—Samples of the insurance policy which the government will write for its soldiers and sailors were made public last night by the war risk insurance bureau of the treasury department. Plans for placing the policies into effect immediately will be outlined here next Tuesday at a conference of treasury officials with representatives of the navy and army and enlisted men at the 32 cantonments.

Details of the policy disclose that men and women between the ages of 16 and 65 in all branches of the army, navy, marine corps, coast guard, naval reserve, national naval volunteers, nurses, and all other branches of the United States service serving with the army and navy. Announcement was made also that "rates at ages higher or lower will be given upon request."

Premiums computed on a monthly basis, vary between 63 cents per \$1000 at age 15 to \$3.25 per \$1000 at age 65. Between 21 and 31 years, the rate is 25 cents; 32 and 33, 25 cents; 34 and 35, 25 cents; 36 and 37, 25 cents; 38 and 39, 25 cents; 40 and 41, 25 cents; 42 and 43, 25 cents; 44 and 45, 25 cents; 46 and 47, 25 cents; 48 and 49, 25 cents; 50 and 51, 25 cents; 52 and 53, 25 cents; 54 and 55, 25 cents; 56 and 57, 25 cents; 58 and 59, 25 cents; 60 and 61, 25 cents; 62 and 63, 25 cents; 64 and 65, 25 cents.

Provision is made for family allowances, for medical expenses, for compensation in case of death or injury without cost and for the additional protection of insurance at very small cost.

In cases of partial disability, the amount of compensation is determined by a schedule to be based upon the extent of the impairment of earning capacity. Total disability payments are to be increased above the figures named in the policy, where the insured has dependents.

Where the injury or disease is caused by the willful misconduct of the man, the policy rates, "compensation will not be paid."

The policies will be issued in multiple of \$500. The policy, however, to be less than \$1000.

In Cairo men employed in the native tailoring shops iron clothes with their feet. A solid block of wood rests on the top of the iron and the man places one foot, guiding the iron by means of a long handle.

Children Like To Take It

Thousands of children have worms and their parents don't know what the trouble is.

Symptoms of worms are: Deranged stomach, swollen upper lip, sore throat, offensive breath, hard and full belly with occasional gripings and pains about the navel, pale face of children, thin, green, heavy and cold, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red points sticking out on tongue, starting during sleep, slow fever.

Always keep Dr. Truett's Bixir on hand for such cases. It is promptly effective and the nice thing about it is that children like to take it.

Mrs. H. W. Roberts, of 50 Asylum Street, Flint, Michigan, wrote us: "I have used the Bixir and as far as I know my little girl is cured of worms."

"Bixir is fine and I think it was your medicine that helped her."

Dr. Truett's Bixir, the Family Laxative and Worm Expeller, has been used more than 60 years and more and more people are using it all the time to expel worms, cure the stomach and bowels, and bring about the action of the bowels.

GERMANY'S PERFDY TO ITALY

In fighting a foe it is just as well to get a perfect picture of what kind of foe he is.

The trickery of Germany is pretty well known to the American people by now. But there are still some who wonder why Italy withdrew from the triple alliance and fought the Toulons, instead of lining up with them.

The fact is, Italian statesmen knew long ago the two Kaisers were constantly abusing the terms of the alliance and making Italy pay the freight. Recently there has come to light a glaring instance.

Italy declared war on Austria in May, 1915. She did not declare war on Germany until August, 1916. Germany ostensibly took no warfare part against Italy. But early in June, 1915, Italian mine-sweepers near an Italian naval base in the Adriatic found a barrier of 12 mines. They cleared those away. A few days later they found a similar barrier in the same place. These could only have been placed by a submarine, so the Italians decided to set a watch for it.

Finally in March, 1916, an Italian mine sank the hostile submarine in comparatively shallow waters and the Italians decided to fish her up and have a look at her.

They found she was the U. C. 12, built at the Weser yards by the German firm of Ditts-Siemens-Schuckert. Its log revealed some interesting facts.

Said the commander: "After trial trip on the Weser, was towed through Kiel canal May, 1915. At Kiel landed mines to be used in Italian waters. After trials, sent in three pieces by rail to Pola, arriving June 21, 1915. Put together, I exchanged German for Austrian flag."

The log also records that the ship was employed in laying mines in Italian waters, carried rifles to an African port for the rebels against Italy, and cruised near Durazzo, seeking Italian ships. The crew all were German.

Germany at peace with us, plots to have Mexico and Japan make war upon us. Germany at peace with Italy, sends German submarines to lay mines in Italian harbors.

And still there are some pro-Germans in this country who wonder why the allies are determined to put an end to Prussianism.

FEEDING OUR ALLIES

The chances are that many Americans are puzzled every time Food Controller Hoover issues a statement urging us to cut out all waste. People are apt to think with the bountiful crops this year we should have an abundance.

But—one of the vital needs of the time is, that America should help to provision France and England. Even in normal times England does not raise enough food to feed herself. And these are far from normal times. And a large part of the food growing country of France has been temporarily taken away or reduced to a scene of irreparable ruin.

France and England need food and we should furnish it. We can, if we will use our supplies here at home with reasonable prudence.

Why is it our imperative duty to help feed our allies? Because our allies are holding the lines in Franco and Flanders while we make ready to take up the fight for civilization and for liberty. Only by their work, can we have the necessary time to prepare. Every battle they fight is a battle for America.

We are advancing part of the money they need to supply their armies. We must now give them food to feed both the armies and the folk back home.

The Germans and the Austrians are rapidly approaching empty stomachs. We simply can't afford to let the English and French have any starvation problems on their hands while they are doing such glorious execution on the enemy. If they keep on, there will be nothing left for the United States to do when the spring arrives.

TRANSPORTATION TO AYER

The transportation by trolley between North Chelmsford and Camp Devens is said to be so utterly bad that the Public Service Commission should give it some attention. When men enter the cars through the windows, pile on the fenders, hang from the lower steps, front and rear, and even climb upon the roofs of the cars, it is time that something were done to protect passengers and provide more cars. The Lowell and Fitchburg company is responsible for these conditions and apparently makes no attempt to meet the emergency by increasing the number of cars. It is surprising that no serious accidents have happened as a result of overloading the cars; but some of the passengers have been nearly squeezed to death. While the schedule time between Lowell and Ayer is an hour and ten minutes, it is frequently extended at least an hour, especially on Sundays and Saturdays as a result of overcrowding. This is not surprising when several minutes are necessary to extricate a passenger who wants to get off a crowded car. It is time something were done to remedy this disgraceful state of affairs.

SEC. LANSING'S DISCLOSURES

Secretary Lansing is doing good work in exposing some of the secret plottings who were the tools of Germany in carrying on secret outrages calculated to help Germany and injure England. His disclosures prove that men who were lauded to the sky as patriots were lending their influence and counsel to promote sabotage and worse outrages in the United States. The American people have still to learn the depths of infamy to which German intrigue descended in plotting for the domination of the world. Fortunately the vigilance of the department of justice at Washington penetrated their designs and as a result these were frustrated. In the minds of the German rulers, however, it was all settled that the United States should be paralyzed by secret cabals before the people became aware of Germany's intention. She has not made good her schemes either on this side of the Atlantic or on the other.

RESTRICTIONS ON PROPERTY

Dealers in real estate will be interested in a recent decision of the supreme court of this state which annuls an act of the legislature removing restrictions on property where the environment seemed to make them undesirable or impracticable. A piece of property in the Duck Bay was sold under restrictions that forbade its use for stables, apartment houses, manufacturing or foundry purposes. The legislature in 1915 passed an act for the equitable removal of restrictions. The land court then granted a clear title to the property in question and the matter, having been carried to the higher court, elicited the decision that such an act would be a violation of articles 1 and 10 of the bill of rights. Thus restrictions stand in law except under the right of eminent domain.

THE LUSITANIA

It now turns out that German agents had placed no less than nine explosive bombs on board the Lusitania, before she left New York harbor and it's a question whether the notice from the German embassy warning intending passengers not to sail on the vessel, referred to the danger or to that which actually befell her. The bombs were timed to explode and sink the ship somewhere near the Irish coast. Some of them may have exploded and helped to send the vessel to the bottom.

This is another revelation of German treachery carried out under the direction of Count Bernstorff.

THE OPEN SHOP

Interest centres in the demand of the Building Trades union of Boston that the Fore River Shipbuilding Corporation at Squantum shall adopt the closed shop in the construction of its new \$9,000,000 naval plant. There has been considerable squabbling over the matter and now a delegation has gone to Secretary Daniels in reference to it. No government body can legally adopt the closed shop principle. The Fore River company is willing to comply with union wage and hour rules but insists upon the open shop.

NO REFLECTION ON LOWELL

Let it be understood that the precautions taken by Mayor O'Donnell for the protection of the soldiers coming to our city does not in any way reflect upon the morals of our city. Lowell is as clean in this respect as any city in the country and the appointment of a vice squad is simply to prevent the "camp followers" from loitering here. The war department is insistent upon radical measures and the adoption of the precautions suggested is no reflection upon our city or its good name.

If the soldiers have to wait for the knit sweaters a great many of them will feel the chill winds of March without the coveted garments. But why does not the government supply machine made sweaters in the meantime?

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of sarsaparilla, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely vegetable compound and with olive oil; you will know the effect by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

SEEN AND HEARD

Much more work might be done in this world if it weren't so easy to lie down and take a nap after dinner, or go to the moving pictures.

Some men continue to acquire wealth because there are others who are looking eagerly around for a perfectly safe investment that will pay twelve or fifteen per cent.

Some Cape Cod Names
Young Nicola was a little under the weather while the D'Ascencos were summering in Provincetown and Nicola, the papa, was hard put to select a physician for him. The nearest was Dr. Combs. A little farther on was Dr. Pitts. He finally selected Dr. Combs, hoping the first name wasn't Plaster. Let us in passing add an ad. for the town photographer, W. Still—Philadelphia Ledger.

Mistakes Officer For a Porter
Resplendent and trim in his uniform, Lieut. Commander J. S. Willis of the navy stopped for a moment in front of the St. Francis hotel in San Francisco. Willis is traffic expert for the navy there, having occupied the

same position in civil life for the chamber of commerce before the war. His mind, dwelling on "rates" and "classifications" was brought up with a sudden jerk when a clear voice, saturated with authority, sounded close to his ear:

"Order me a taxi."
Willis turned and saw a vision in white, a dainty miss of 20 or so, and she looked him over coolly.
With just a glimmer of a smile about her lips she said: "Certainly, madame," and promptly filled the order.

That and nothing more. Without even thanking Willis, the radiant lassie went her way.

A Private Hermit.
The profession of hermit is profitable. Little Henry Atkins left his parents' home at Thurman park, Everett, two weeks ago and disappeared in Malden square Sunday afternoon with a bicycle. He had no bicycle when he left home.
He was trying to sell it. It was a nice bicycle, but he was not at all a little hermit. The nickel on the handlebars shone in the sun, but Henry's boots did not. His hair was unkempt, his clothes ragged. The queer

contrasts attracted Deputy Inspector John H. Aylward of the Malden police. "Where did you get that bicycle?" "Beware," said Henry. "I'm a hermit."

The inspector spent an hour in questioning him, learned his name and his parents' address, and even the location of the hermitage, but failed to discover how Henry came by the bicycle. He took Henry home, the boy declaring that he had no fault to find with his parents or their house, but expressing a preference for hermiting.

"Where's your nice new suit you went away in?" his mother asked. "In the hermitage," said Henry. "He led the officer to a clump of trees behind the house, near the Cross cemetery, brushing aside a heap of grass he disclosed a wonderful flat on the ground. The officer lifted the door and Henry disappeared into a hole underneath. First he brought out his new suit and a beautiful coat that he had used on rainy days and nights. He dived into the hole again and brought out a board. On it were pinned the words "Keep Out," and underneath was a skull and crossbones. He explained that when he was home he hoisted the Jolly Roger. For he was a practical hermit.

The hole was too small to hold the officer, but it Henry had slept for 14 nights. Sunday night he slept in a nice warm bed at his regular home.

He is Still Teaching.
The question of just how fascinating a music teacher can become to a young girl of 17 was threshed out in Yorkville court, New York, before Judge Kretz and may be threshed out somewhere else later if the participants find each other.

The innocent 17-year-old cause is Miss Emma Garofala, daughter of Mrs. Filippa Garofala, of No. 411 Fifth street. With her sister she has been taking music lessons from Gaetano Martino. The third involved party, mix-up is Mario Costa, 21 years old, a tailor, of No. 42 Broome street. Now that they've made their bows up with the curtain.

Exhibit A—
I know that Mrs. Filippa Garofala sends her daughters to take lessons from you, a thing which I do not permit. If you do not want to have your face smashed, do not look at this family put even in the case of the court.

Mr. Martino explained that since this letter left him small latitude when to look while giving lessons to the girls he thought the court might be able to witness his vision legally, or at least to give an opinion on the question of reasonable doubt. Consequently he had Costa hailed to court, charging him with writing it.

Costa denied the letter, but admitted he loved the girls and was gloried in it. Miss Garofala also said that Costa loved her, but exhibited little glowing. Costa, who said he also tried to make her quit taking music lessons.

On this and other pertinent facts Magistrate Kretz placed Costa on the opposite of music under \$500 bail, while Mr. Martino is still looking the Garofala girls square in the face as he sends them to run over one more time that five-legged exercise in G flat.

Autumn Leaves.
The autumn leaves are brilliant now. With falling yellow, brown, and red. The sugar groves in splendor show a shade of story overhead. And Myrtle, gentle, sweet, and shy. With Harry's help—a want long

Has found a way to press the leaves—she puts them underneath her belt. But we shall see the glory fade. The leaves, all shriveled, dry, and brown.

Will drop their hold upon the trees. And, rustling softly, flutter down. Will that and Myrtle's happiness?

With that under all its leaves. Because there's no more chance to press.

U. M. C. WILL BUY FLAG TO DENOTE NUMBER OF MEMBERS IN U. S. SERVICE

The Young Men's Catholic Institute will soon purchase a service flag to denote the number of its members who are in the national service. The flag will be flown from the roof of the institute's building in Stockpile street.

This device was reached at a meeting held yesterday morning at which a number of other important business matters were transacted. Vice President McCarthy was in the chair and favorable reports were heard from the financial and recording secretaries. It was voted to hold memorial day exercises one time next month in honor of the departed members of the organization. A committee was also appointed to draw up a roll of honor to the members of the society who are in the country's service at present and to post in a conspicuous place in the building.

STUDENTS OF PHILLIPS EXETER TO RAISE \$1000 FOR Y. M. C. A. FUND

PHILLIPS, N. H., Oct. 15.—Students of Phillips Exeter academy pledged themselves to a service flag last night, to refrain from indulging in many luxuries in order to raise \$1000 toward the Young Men's Christian association for world-wide American soldiers. Land by Christmas when it will be sent to Robert E. Newton, a former member of the faculty who is now in the country's service at present and to post in a conspicuous place in the building.

Phyllis C. Bradford of Chelsea, a member of the board, received \$25,000 for the service flag as a reward for his service when he enlisted in the army.

BIG DECREASE IN AUTO ACCIDENTS

BOSTON, Oct. 15.—There has been a decrease of 14 per cent in automobile accidents in Massachusetts this year, in spite of the fact that the number of cars registered is 32 per cent greater than last year. During the first eight months of the year, the state highway commission reports, there were 5032 accidents, as compared with 5819 in the corresponding period of 1916. The number resulting fatally, however, was greatly in excess of last year, the figures being 83 for 1917 and 68 for 1916. There have been fewer accidents in congested city districts and more in rural sections.

FIREMAN FOUND DEAD ON RAILROAD TRACKS NEAR SCHOOL STREET

Frank Bouvier of Marlboro, a fireman in the employ of the Boston & Maine railroad, was found dead on the railroad tracks near School street about 6 o'clock Saturday night. When discovered it was thought that there might be a spark of life left and the ambulance was summoned, but an examination showed that life was extinct and he was removed to the funeral parlors of Undertakers James F. O'Donnell & Sons.

How the man met his death is unknown, but it is thought that while working on one of the engines he fell across one of the rails and the wheels of the train passed over him. The body was practically cut in two and the head was badly injured, so it is believed that death was instantaneous. Mr. Bouvier was the son of Alexander and the late Purchie Chastout Bouvier and had resided with his father in Marlboro. He leaves two brothers, Joseph and Edward Bouvier; four sisters, Mrs. John Hogan of Clinton and the Misses Alexandrine, Alice and Leonie Bouvier. He was 15 years old.

27 LUMBER JACKS BOUND FROM YARMOUTH, N. S. FOR JACKMAN, ME., DETAINED

ST. JOHN, N. B., Oct. 15.—Twenty-seven lumber jacks bound from Yarmouth, N. S., for Jackman, Me., are detained in this city, Canadian immigration Agent J. W. Lantalan declines to allow them to leave the country, as virtually all of them are fit for military duty. They will return to Nova Scotia tomorrow.

The men were engaged in Yarmouth by a Maine company with the consent of the United States government. The men have worked in Maine in previous years.

WELLESLEY COLLEGE TO OFFER NINE COURSES IN WAR RELIEF WORK

WELLESLEY, Oct. 15.—Wellesley college has decided to offer nine emergency courses in war relief work during the present college year. They will include instruction in home nursing, first aid, wireless telegraphy, history of the war, home economics, gardening and conservation of produce, statistics and filing and surveying and map making.

GIRL SHOE SHINERS UNDER BAN

BOSTON, Oct. 15.—Mayor Curley considers that danger lurks in the substitution of girls for boys in shoe shining establishments as has been done in several such places in this city since the country entered the war. In a communication made public today which he will submit to the next meeting of the city council, the mayor says that the presence of such an occupation for young girls is hardly open to argument, and it seems unnecessary to enlarge upon the possible dangers, from the standpoint of public morals, of allowing them to be so employed. He has prepared the draft of an ordinance prohibiting the employment as bootblacks of females less than 21 years of age.

COMMERCIAL LETTER WRITING
WORCESTER, Oct. 15.—The fine art of commercial letter writing was explained by experts at the better business correspondence convention which began a two day session here today. Many business firms and advertising agencies in New England sent delegates.

Skin trouble costs many a man his job

No matter how efficient a man may be, if he has an ugly skin-eruption, there are positions in which he cannot be tolerated. He may know that it is not in the least contagious, but other people are afraid, they avoid him, and he must make way for a man with a clear, healthy skin. Why run this risk, when

HEAVY GUARD FOR STRIKE OF HORSESHOERS SLAYER OF THREE UNION AVERTED

SPRINGFIELD, Oct. 15.—Double guards were placed early yesterday morning in the room in Mersey hospital where Fred Gallorani, wanted for three murders, including the killing of his wife, Saturday, when he was surrounded by a posse in Feeding Hills, lies in a serious condition from a bullet wound self-inflicted at the time of his capture.

This precaution followed the indication that the man was trying to make an escape, which might give him a chance to make away with himself and the finding of a slipper on the hospital stairway. It was fairly well established yesterday that the slipper belonged to a patient who left Saturday, but there was considerable uneasiness at the fact that an attempt be made to rescue him. It was thought at first some prowler had the slipper when frightened away.

Powder marks on the face of Gallorani's wife, revealed at the autopsy, clearly developed that she was shot by her husband and not the victim of an stray bullet from the posse. According to the police, Gallorani also admits that he killed his wife and did the shooting in the Union street house, Springfield, Thursday, which resulted in the death of his sister-in-law, Della Rose Gallorani, and her father, Clement Martin.

Martin's wife, who was also shot Thursday morning by Gallorani, is rapidly improving in Hampden hospital and will undoubtedly recover.

According to the police, in his confession Gallorani said that he was in the shooting Thursday and that the clothes on the body of Mrs. Gallorani, as well as blankets for bedding in the woods, were taken by him from a barn on the Kearsarge farm Thursday—this without the knowledge of the wife's parents, Mr. and Mrs. Frank Relselgne.

The funeral of Mrs. Gallorani will be held at Byron's undertaking rooms this city, Tuesday morning. She was 24 years old.

COUNTY COMMISSIONERS

The three county commissioners paid a visit to Lowell this morning for the purpose of conducting a regular meeting at the court house, but there was nothing doing. The commissioners arrived at the court house at 10 o'clock and waited until after 11 o'clock, but their only visitor was a newspaperman. The commission then adjourned to Cambridge without transacting any business.

BILLERICA HUSTLING TO DO ITS BIT ON THE LIBERTY LOAN SUBSCRIPTION

In order for Billerica to do its share in the Liberty loan subscription a minimum of \$110,000 must be subscribed, and accordingly the committee in charge of the campaign in the town is sparing no effort or time to bring its work to a successful end. Subscriptions are not coming in as fast as they might, and the committee feels that unless an extra effort is made on the part of residents at the close of the campaign Billerica may be left in a rather poor position. All residents of the town are earnestly requested to do their "bit" in reaching at least the minimum of \$110,000 in subscriptions.

BRITISH-AMERICAN SOCIAL CLUB

A well attended and thoroughly enjoyable social was held under the auspices of the British-American Social club Saturday night at the home of Mr. and Mrs. George Whalley, 15 Cambridge place. William Danvers, who is about to leave for Canada in the British army, was agreeably surprised upon being presented a purse of money. Mr. Walters made the presentation with a suitable speech and Mr. Danvers thanked the members for their good wishes, after which it was voted that all members present should contribute to the evening's program. The vote of thanks was given to the host and hostess for their kindness and the meeting broke up at a late hour with a finale of "Auld Lang Syne" and "The Star Spangled Banner."

FINNISH DIET HAS BEEN CALLED TO MEET ON NOVEMBER 1

PETROGRAD, Oct. 15.—The Finnish diet has been called to meet on November 1.

The Finnish diet was dissolved by the provisional Russian government several weeks ago for its extreme stand on the question of autonomy for the province. New elections were held and completed on Oct. 10, the united Rongroise and the social democrats receiving 60,000 of the 70,000 votes cast.

LOWELL WOMEN'S BATTALION FACES BATTERY OF CAMERAS AT ARMORY

Miss Emma Leclair, organizer of America's First Women's "Battalion of Death," and in the background two women soldiers of the Russian Battalion which inspired Miss Leclair's act.

The Lowell Women's Military Battalion went to the firing line Saturday afternoon for the first time. Yes, indeed, the Spindle City Amazons faced a battery in Westford street—a battery of cameras manned by energetic manipulators, who kept the girls on the defensive for an hour or so. And there was no "camouflage" about the battle—everything was in the open.

Who won the battle is hard to say. The young men who photographed the hundred or so young ladies, went away smiling as though victory had perched upon their machines, and the girls themselves were jubilant over their first military experience.

The scene of the battle was outside the state armory in Westford street. Ideal weather helped to lighten the work of the photographers to some extent—if such activity can be given the degrading name of work—but the girls themselves were indisposed to meet the foe at first and for a while it looked as though they would remain in their trenches. Eventually, however, their indomitable leader, Miss Emma Leclair, went "over the top" and got her "men" to have their pictures "taken." In order to create a real military atmosphere the coats of several male soldiers who happened to be about

were pressed—or wrinkled—into service and donned by several of the more forward young ladies. When all was ready the command was given that they assume the position of saluting a superior officer. They did so and then the cameras clicked in unison. Half a dozen different "positions" were taken before the company was dismissed.

Miss Leclair, the commander, was snapped individually in khaki uniform a dozen times. Finally, the photographers were satisfied and another day's fighting was over.

LOWELL CONTRACTOR PLANS TO BUILD 75 HOUSES IN WEST CENTRAVILLE

Jacques Bolsovert, a contractor of West Centraville, who recently purchased a large tract of land in West Sixth street, took the first steps this morning toward building 75 houses in West Centraville by calling at city hall for three building permits.

According to plans Mr. Bolsovert will start work immediately on the erection of a two-tenement house at 178 West Sixth street at a cost of \$3800; an eight-room house at 12 Dunker Hill avenue at a cost of \$1600, and a two-tenement house at a Dunker Hill avenue at a cost of \$3200.

MORTALITY HIGH

Continued

For instance, in this week's report Nashville, Tenn., is credited with no deaths, while next week its percentage may be very high.

In the report is also included the fact that Lowell's high average is due to the fact that the city is a mill center and that a great number of deaths among young children is due to the strain on mothers, who are employed in the mills, as well as the inattention given the babies who are left at home, sometimes in the care of children, and also to the housing conditions. The report is being issued in an endeavor to stir up the members of communities to do their utmost in decreasing infant mortality in their respective districts.

Petrie Making Good

Sergeant David Petrie, who in the early part of last week was given a special assignment by Mayor O'Donnell in the form of cleaning Lowell of his drunks and also to keep a vigilant eye on the visiting soldiers, is evidently making good. His first report to the mayor is to be taken as a criterion. The sergeant reported that no single arrest for drunkenness was made between Thursday afternoon at 12:45 o'clock until 5 o'clock Saturday evening. This is considered a record.

Appros of Sergt. Petrie's new job

P. A. O'Donnell, chairman of the social evil committee of the state public safety committee, has sent a letter of congratulations to Mayor O'Donnell for his interest in trying to keep Lowell on the may as a clean, moral city. Mr. O'Donnell states that his attention was called to a clipping in a newspaper referring to the appointment of Sergeant Petrie and he says he will call the governor's attention to the mayor's efforts to keep Lowell a clean, healthy city and to protect the soldiers. Incidentally Mr. O'Donnell states that the mayor is the right man in the right place and he hopes he will be re-elected for another term.

Visiting Soldiers

The public safety committee through Mayor O'Donnell, chairman, reports that Saturday 2757 men in uniform visited Lowell, while on Sunday the number of visitors in uniform dropped to 925.

Master On the Job

Milk Inspector Melvin Master, who has been away from city hall since the outbreak of the war, returned to his post this morning. Mr. Master was a lieutenant in Company K, Sixth infantry, when the Sixth was mustered in. Recently he was given an honorable discharge owing to the fact that he has a wife and five children. During his absence from city hall his position was filled by Principal Dennett of the Morey school.

Dennett Transferred

Mayor O'Donnell was notified by letter this morning by the military officials at Ayer to the effect that Private Dennett, of this city, a member of the Indian club, had been unable to come to Lowell last Friday to take part in a football game in which the Indian club figured because of the fact that he has been transferred to Tenafly, N. J. Gleason, the other member of the team, who was at Ayer was allowed to come to Lowell for the game.

Gathering In Money

The corps of clerks in the office of the city treasurer have been a busy lot for the past few weeks. At first a large batch of bills for poll, personal and real estate taxes were written and mailed and now the employees of the department are reaping the harvest, for the bills are being paid on a very large scale. Yesterday \$117,000 was paid in and this morning there was another big rush at the office and it is expected that the amount collected will be close to that of Saturday. In order to give the taxpayers an opportunity to pay their taxes, the office of the treasurer will be open every day, Sundays excepted, from 9 until 4, until Nov. 1.

Associate Hall, Milner-Doyle's, tonight.

LARGE AUDIENCE AT PATRIOTIC SERVICE AT THE CALVARY BAPTIST CHURCH

The patriotic service at the Calvary Baptist church last evening drew an enthusiastic audience which taxed the seating capacity of the church. The arrangements were in the hands of the Christian Endeavor society of the church and willing helpers worked up the interest and worked out the plans. The meeting was planned in honor of the fourteen who had gone over from the church and school to the army and navy. A letter had been written from the Endeavor society to each of the men announcing the meeting, planning, expressing interest in the welfare of each of the fourteen and requesting a letter to be read at the meeting. The meeting plans quite before the original ideas and various features were added. The meeting last evening, letters were read from one "Somewhere in France," two at the Navy Training station, Newport, R. I., and others from camps in Westfield, Mass., and Louisville, Ky., and the reading of these letters proved most interesting, inspiring and inspiring. Following the letters the audience sang heartily "Keep the Home Fires Burning." As "The Star Spangled Banner" was sung, a large American flag was unfurled, and successively the British flag, was broken" as "Rule, Britannia" was sung, and the French flag as "The Marseillaise" rang out. A beautiful honor roll bearing the names of the sacrificed was unveiled, which rolls to be framed and placed in the vestibule of the church. Following this, the Lyons' class of the school presented the service of the United States bearing 14 stars. Directly following the meeting this flag was placed outside the church alongside the Stars and Stripes, which has been in position for some time past. A pleasant surprise came in the way of the presentation from Hugh A. McCoy, a former member of the church, who presented a flag with poles to the Calvary church troop of Boy Scouts.

Interest had reached a high pitch when Mayor Edward J. O'Donnell, of Newton, was introduced as the speaker of the evening. His subject was "Friendship in Arms and at Sea," and he brought an inspiring message of interest and appreciation was frequently expressed and at the conclusion of his address the audience broke into prolonged applause. A good sized delegation of Boy Scouts, with several Scout masters, was present and they stood and gave their salute and pledge to the flag. The fourteen whose names are on the honor roll follow: V. Henry Aldrich, George Budd, Paul C. Clark, Edward J. Dills, Roy W. Fisher, Raymond Hanson, Rousseaup Hayes, Charles A. Hutchins, William C. Kirk, William C. Maclean, Dan C. Peters, Lee A. Scott, Charles E. Soule, Leon VanEtten.

LOWELL BOY SPENT WEEK-END ON PERILOUS FROM TRAIN-ING SHIP

James Beatty, son of Mrs. Helen V. Beatty of Lawrence street, spent a week-end in Lowell on a trip from the military training ship "Ranger," upon which he has been stationed since last spring as a student seaman.

Mr. Beatty has gained in weight since his departure from Lowell and he says that he has had a fine time. The "Ranger" made a trip to the West

Indies during the summer and the students on board had plenty of opportunity to gain a practical view of life on the ship. The ship was expected to make a cruise this fall to "southern waters," but because of war conditions the venture has been called off. The ship is at present stationed at the Charlestown navy yard. Mr. Beatty is the only Lowell boy who is taking the course in nautical training at present.

Millard Addison Gray of Orleans, Vt., left Lowell at 11:05 this morning for the navy recruiting headquarters in Boston where he was formally enlisted as a fireman, 3rd class. He will be assigned to Commonwealth pier. Mr. Gray was enlisted through the local navy recruiting station.

SELLING TO SOLDIERS

Continued

but there was a lull in business Saturday night, for here and there were police officers in uniform and others in plain clothes.

Two men, however, were gathered in Saturday night, each being charged with drunkenness and selling liquor to soldiers. The two men were William Haywood and Henry G. Wilson. They were arrested when assigned before Judge Enright in police court this morning, entered a plea of not guilty to complaints charging him with drunkenness and selling liquor to a soldier. Sergeant Petrie, who was on duty Saturday night in Jackson street, near the corner of Thordike street, saw the man staggering drunk and upon reaching a point near the freight house handed a bottle of whiskey to a soldier. The soldier was passing a dollar bill to Haywood, with Haywood and the soldier holding the bill, when one of the officers grabbed the men and the bill went to town. The soldier turned the bottle of whiskey over to Officer Moore and the torn bill was returned to the soldier. The latter said he offered down a side street and was about to drink from one of the bottles when a soldier grabbed him.

The court, however, did not believe Haywood's story and finding him guilty, continued the case until tomorrow morning. The matter was reported to the federal authorities in Boston and in the event of his being wanted by them he will be sent to Boston for trial.

Was Well Armed

Abraham Ali and Wahabec Harmouch were charged with a statutory offense, alleged to have been committed on Sept. 27th. The arrest was made by Sgt. Ryan and Special Officer Moore. Sgt. Ryan testified that when he and Officer Moore entered the house where the couple was found there was a loaded revolver and dagger under the pillow, which Ali was lying. The court was also informed that one week before the couple had been brought before the court and each had been sentenced to six months in jail for a similar offense. The court found the pair guilty and imposed a sentence of six months in jail for the woman and six months in jail for the man. Another appeal was entered and each was held under \$500 for the superior court.

Other Offenders

Elvira Almedia, who was 17 years of age last Thursday, entered a plea of guilty to a complaint charging her with being a lewd person. She was given a suspended sentence to the women's reformatory at Sherborn.

Adelard Jalbert was found guilty of being present at a game yesterday. Patrolman O'Neill said that he saw the defendant and about a dozen others in Common street and managed to catch Jalbert. The defendant was found guilty and a fine of \$5 was imposed.

In the case of George Top and Elizabeth Chafe, charged with illegal consultation with a court, at the request of the government, continued the case until next Monday.

Frank Lavertue of Lawrence was this morning sentenced to 30 days in jail, 30 days for assault and battery and 30 days for violating the automobile law by going away without giving his name and residence after injuring a person. Several weeks ago while Lavertue was operating a machine in the vicinity of Belle Grove, he ran into and injured Fred Desrosiers. Counsel for Lavertue entered an appeal.

It was the seventh time within a year that Patrick J. Royce appeared before the court. At the present time he is on probation both from the superior and local courts, but at request the case was continued until Thursday. John McNeil was given a sentence of two months in jail.

INFANTILE PARALYSIS

Dr. D. Generalis yesterday reported a case of infantile paralysis to the board of health, and later in the day the diagnosis was confirmed by Dr. C. E. Simpson of the state board of health. The case is at 130 Dummer street and the child affected is Jahari Panagiotopoulos, four months old, daughter of Athos and Alexandra Panagiotopoulos.

According to the report made by Dr. Generalis, the child has been ill for two months, the paralysis being in the left arm. There is another child in the family, aged two years, who is also a boarder, who with the father are employed in the boot mills, make their home with the Panagiotopoulos family. The house has been quarantined.

the interests of the Liberty loan, will be held under the auspices of the retail trade board of the Boston chamber of commerce on Thursday afternoon. The loan will be explained and the employees will be urged to push the sale of the bonds in their dealings with customers over the counter.

Final Drive in New York

NEW YORK, Oct. 15.—The final drive to sell the maximum allotment of \$2,500,000 worth of Liberty bonds in the New York federal district, began today, while the district is far short of the amount hoped for in the first two weeks of the campaign. The committee still expressed confidence that the huge sum will be raised before Oct. 27, to accomplish its part of the \$50,000,000 a day in the remaining 12 business days of the campaign.

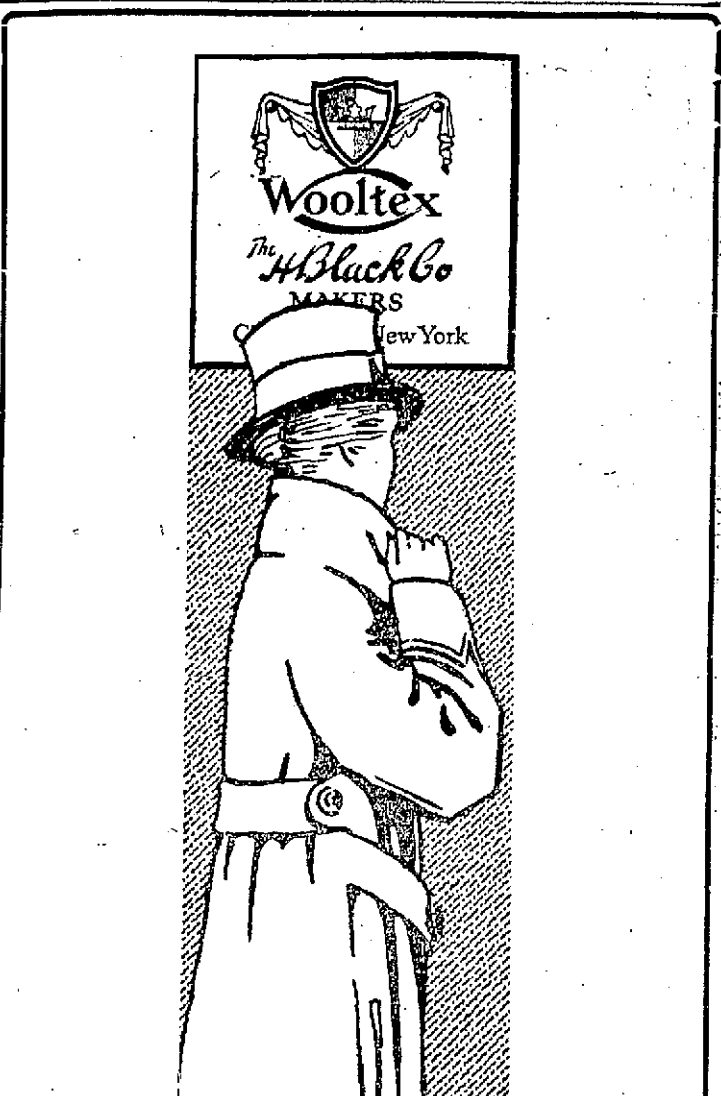

The 20,000 workers, many of them volunteers, commenced this morning a systematic canvass of the district.

Soldiers Buy Bonds

BOSTON, Oct. 15.—Four hundred soldiers, standing in Boston harbor, took \$5000 worth of Liberty loan bonds in a four-hour canvass today. Peter Shea of Boston, sergeant of a coast artillery company, headed the list of five companies at the rate of the former National Guard organization of Rhode Island.

Damp rainy weather often brings out points about a suit which some women overlook when buying.

A roughing-up or pucker or ripple at the seams or hems—these unsightly things happen when the fabric is not pre-shrunk.

Fabrics in Wooltex coats and suits are always pre-shrunk. They stay smooth and soft and unpuckered in spite of the weather.

Plans complete for a detailed canvass of every portion of the city. Latest official tabulations showed the district had made only \$6,531 subscriptions for a total of \$43,745,000, or 7 per cent. of the maximum quota.

The detailed report by states, as tabulated at 9 o'clock today was:

	October 13	Total
Maine	\$345,000	\$345,000
New Hampshire	224,000	2,494,000
Vermont	162,000	1,034,000
Massachusetts	4,376,000	46,598,000
Rhode Island	2,106,000	10,188,000
Connecticut	377,000	9,665,000
Total	\$9,291,000	\$68,381,000

To subscribe \$1,250,000

PHILADELPHIA, Oct. 15.—Announcement by John Wammaker that he and his son, Rodman Wammaker, would each subscribe \$1,250,000 to the second Liberty loan gave impetus to the women's campaign in behalf of the loan, which was formally inaugurated in the Philadelphia district today. More than 8000 club women have pledged themselves to work for the loan and have set for their goal \$135,000,000, or nearly one-third of the amount subscribed by this district as its quota of the loan.

New England Subscriptions

BOSTON, Oct. 15.—A total of \$2,291,000 for the short banking day Saturday in the New England district brought the grand total of subscriptions for the second Liberty loan up to \$43,745,000. In making public the figures today the general committee announced that Massachusetts with still far in the lead with almost two-thirds of its quota of the loan.

Does It Cost to Deliver?

FROM THE BOSTON AMERICAN, OCT. 14:

A charge of five cents on each delivery amounting to less than fifty cents will be made by grocers throughout Greater Boston beginning November 1. This was decided at a meeting of the Boston Retail Grocers' Association to secure economy. All dealers in the association are asked to adopt the plan.

FROM A LOWELL SUNDAY PAPER, OCT. 14:

The Grocers and Butchers' Association has under consideration the project to levy an ADDITIONAL charge for goods that are delivered.

FROM THE LETTER OF THE U. S. GOV. FOOD ADMINISTRATION TO US:

"Your change in methods is in accord with the ideas of the Commercial Economy Board and Council of National Defense and of the Food Administration, to help bring down high cost of living, and in following this policy you are co-operating with these organizations."

FROM THE SATURDAY EVENING POST OF SEPT. 25:

LETTER FROM WAR ZONE

Another letter has reached this city from "somewhere in France," but this time it does not come from Company A. Robert Walsh, son of Mr. and Mrs. Edward Walsh of 1 Madison place, enlisted in the regular army from Lowell about four months ago and was assigned eventually to Co. E of the 23rd Infantry, U.S.A. This regiment comes from New York for the most part.

Toledo, Ohio.—"I am a widow and go out nursing, and suffered from a female trouble that caused a great deal of soreness across my back, and through my abdomen. Sometimes it would be very painful after a hard day's work. I read about Lydia E. Pinkham's Vegetable Compound and tried it and it has helped me wonderfully, so the soreness is all gone now. I believe Lydia E. Pinkham's Vegetable Compound is just the remedy for female troubles." — Mrs. ELIZABETH JOHN, R. E. D. No. 4, Toledo, Ohio.

THE ECONOMICAL USE OF FUEL

WASHINGTON, Oct. 15.—"The householder must realize that when he throws a shovelful of anthracite coal into his furnace its value is equivalent to a half a pound of sugar, or half a loaf of bread, or half a pint of milk."

That is the manner in which Van H. Manning, director of the bureau of mines, department of the interior, endeavored to impress the state assistants of the fuel administration with the necessity for the economical use of fuel. The state deputies had been called together in Washington by Dr. L. A. Garfield, the fuel administrator, for a family council concerning the urgent work to be taken up in each state.

FRENCH-AMERICAN VOTERS ENCORE MIGNAULT AND CHARBONNEAU

Dr. Rodrigue Mignault and Lawyer Henri V. Charbonneau were endorsed as candidates for mayor and school committee, respectively, at a meeting of voters held in C.M.A.C. hall yesterday afternoon. The spacious assembly hall was filled to its capacity, and the meeting proved a most harmonious one. Among other business transacted was a change in the by-laws by which a president, a secretary, a treasurer and four directors were elected instead of 15 directors representing all the wards of the city.

In the early part of the afternoon checklists were sent to the voters, and all those whose names appeared on the lists as registered voters were admitted into the hall. The meeting was called to order shortly after 7:30 o'clock by President Joseph Payette, and reports of the various officers were read and accepted. The number of directors was reduced from 15 to 7, and it was voted to hold the election of officers on the third Sunday in October instead of the second Sunday in September. Any important question will be submitted to a general meeting, which may be called by 25 registered voters. It was also voted that any member of the committee who desires to become a candidate for any public office shall submit his resignation to the other members of the committee, who will accept it.

The election of officers then took place with the following result: Joseph Payette, president; Arthur Lavoie, secretary; Charles Lounet, treasurer; Albert Hogue, Arsene Brin, Auguste Gullbault and Alfred Deschamps, a candidate for mayor at the coming city primaries was then discussed, and Dr. Rodrigue Mignault was the unanimous choice of the assembly. The doctor's address was the gathering and informed his listeners that he will conduct an energetic campaign, and he asked the cooperation of all present and their efforts to carry the campaign to a successful end. Lawyer Henri V. Charbonneau was then unanimously endorsed as a candidate for the school board at the coming election. The present school committee, Wolfred Caluso, Jr. committee, and the present school board would not be a candidate for a third term. Mr. Charbonneau also spoke briefly, thanking the voters for their endorsement and his power to win the nomination and election. The meeting then adjourned to the call of the chair.

EAT WHAT YOU WANT WHEN YOU WANT IT

People who consistently deny themselves some particularly dish appealing especially to their palate, because indulgence has always meant subsequent suffering, are making a big mistake. A trial of Dr. Caldwell's Syrup Pepsin will show them that it is a fact, however, that most people can, without fear of distressing consequences, indulge the appetite within reason if the food is active and regular.

Heavy dinners and late suppers can be enjoyed with impunity if, before retiring, one will take a spoonful of Dr. Caldwell's Syrup Pepsin, a mild combination of simple laxative herbs with pepsin that digests the food, for fifty cents a bottle. Gentle in action and positive in effect, it regulates the bowels in an easy, natural way, without gripping or any other discomfort, and is the ideal family laxative. Get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and keep it in the house. Use it occasionally and you will find you can eat almost anything you like without fear of consequences. A trial bottle can be obtained free of charge by writing to Dr. W. B. Caldwell, 436 Washington St., Monticello, Illinois.

BIG DEMAND FOR FIGHT TICKETS

The advance demand for reservations for the Billy Miske-Kid Norfolk battle at the Boston Arena Tuesday night indicates a record-breaking crowd. Fight fans are strongest for heavyweight fighters, particularly when they have a lot of class. As both of the contestants in this battle are of the sensational kind, the club looks for the greatest crowd that has jammed the arena.

Boston fans look to Miske to check the short but wonderful career of the negro fighter. Billy is a tough customer with the kick of a mule in either hand and the speed of a lightweight. He just loves to fight at top speed and if he can induce the colored boy to mix it, there will be some hurricane exchanges.

The one big, bright mark in Norfolk's record is his defeat of Sam McVey. Sam was a very tough customer. He beat Sam Lanford when the latter was at the height of his career. According to the stories from Panama, Norfolk handed out one fine lacing to McVey. Then Leo Flynn brought him to New York. Up around Rochester, Norfolk is a wonderful attraction. He was the head-line attraction in five shows in seven weeks and won every one of his fights, including a kayo of Tom Cowley. Norfolk is very fast and clever. He weighs about 150 pounds and is built like an ox.

Miske is a natural fighter. He has licked every heavyweight of prominence that has climbed into the same ring with him. Jack Dillon, battling

Levinson and Carl Morris were taken by Miske. Last week he met Morris, who tried the same rough-house tactics that caused so much criticism when he boxed Fulton. Miske gave him some of his own game and Carl didn't take kindly to it. He got a fine drubbing by Miske, who hit him when and where he pleased. Miske will be favorite over the negro. It ought to be a very fast, hardy battle.

NEBES READY TO MEET WEYMOUTH RACER

Albert Nebes, the local roller skater, accepts the challenge of Fred Connors of Weymouth, who hurled a dart at the local boy through the columns of the Courier-Citizen, the other day. Connors said he raced Nebes last summer, the agreement being for a series of three races. Nebes won one, Connors won one, and the third race was not staged, according to Connors. If Nebes is willing to race Connors for the championship of the east and a substantial purse, Connors says he will be on deck, and if Nebes is not willing, Connors will claim the eastern championship anyway. Mr. Nebes will not skater in answer to the challenge of Mr. Connors. I wish to say that I am now willing to race him but will not skater for the title of the eastern championship unless Mr. Connors agrees to skater the same distance and for the same amount of side wages as when I won the eastern championship from Willie Blackburn of New York two years ago. I do not care to do that, then I will give him a chance to show what he can do in a race with me, but unless he agrees to the above there will be nothing doing in the championship line. I had to skate Blackburn a five-mile and a 20-mile, the 20 to be split up into two 10-mile races. Also I had to put up \$200 as a side wage, and I think it is just as fair to ask Mr. Connors to do the same. If he does not like this proposition, then I'll skate him a series of a straight three, five, ten miles in any rink, any time. Al Nebes, Champion Roller Skater of the East.

BASKETBALL ASSOCIATION
Basketball enthusiasts are promised some good sport this fall and winter. The local basketball association has been formed with Cecil E. Dodge, president; Henry J. Sullivan, secretary and Jeremiah H. Murphy, treasurer. As indicated by its title, the organization will promote basketball and will have a team made up of local and out-of-town stars. The first game, according to present plans, will be played Oct. 31, at Associate Hall.

SHOOTING SEASON
BOSTON, Oct. 15.—The Massachusetts hunting season begins next month.

Sportsmen who love the upland woods and covers, the thrill and skill of bagging the thundering partridge, the feathered chain-lightning of the woodcock in flight, the quail, or the best-running pheasant, will have to wait until Nov. 1, this year, before they may legally tote their grease-pollished old shotguns out into the fields and feel that familiar trigger on their shoulder as the pull of the trigger on some thrilling hunt of feathers.

AGED FARMER ENDS LIFE
JUMPFORD, Mass., Oct. 15.—Nathaniel Jackson, a famed aged and crippled farmer near Rollaway Centre yesterday afternoon by lying down in a fire had built in the woods and shooting himself in the head with a shot gun.

Smoke from the fire attracted the attention of two wood cutters in camp nearby, and they found the body. Chief of Police J. A. Leland and Medical Examiner W. T. Howe were immediately summoned and died it was ascertained. Jackson had passed most of his life in Jumford. He leaves his wife and five children.

"THE MASTER CODE" WITH KINGSLEY BENEDICT

LOCAL PASTOR PREACHES STRONG WAR SERMON

"Efficient Patriotism" was Rev. A. R. Hussey's sermon, subject at the Unitarian church Sunday morning and it proved a strong war sermon. It was an appeal to cut extravagance, to do kind things for the soldiers from Ayer, to buy Liberty bonds and to make Lowell "dry" so long as the war shall last. He said in part: "This country has witnessed an outflowing of remarkable patriotic fervor during the past few months, and wholly unexpected things have been accomplished without blare of trumpet or bombast. But there are many still who, while professing patriotism outwardly, are not patriots in heart or in daily life. One cannot be a good citizen unless his habits of thought, his daily conduct, his ideals, even his investments, are free from spot or blemish. In other words, patriotism must be efficient. Many, indeed, have consecrated themselves to their country and stand ready to give their all to advance the cause of human freedom. Yet there are also many who are unwilling to do their full duty, to whom the war is still a side issue. Their wealth, their culture, their opportunities have not yet been reached by the compelling hand. Underneath a superficially earnest patriotism they are living to self as much as in past years. Among such there is little to show that luxury is decreasing. With business good, the old evil spirit of selfish materialism has much to feed upon. To such the war is not yet a reality. The tragedy of war is more than balanced by the chances for multiplying creature-comforts that go with it. While many are merely careless and indifferent, others are accumulating fortunes by forcing up the prices of food and fuel, content that the poor shall suffer so long as their own gains are assured. Such are gathering wings at any time, in this crisis abominable in the sight of God. In what practical way can we make our patriotism efficient? By meeting the universal need in reasonable ways. We can live more simply. What Mr. Hoover and his food commission ask of us is what our conscience ought to demand. Such a thing is not a matter of course that we cut down our food consumption and do away with superfluities, not only in what we eat, but in what we drink and smoke, and in what we put on. Simplifying your pleasures, free yourself from the suggestion of frivolity. Conserve your possessions. Don't live as you have always lived, seeking every indulgence, but cultivate that simplicity which is the apostle's 'is, toward Christ.' Again, buy a Liberty bond. For years we have taken much and given little, but now the time has come when for the priceless boon of liberty we must pay, pay! Through the part of this payment must be made without prospect of monetary return. But in the case of the bonds we, the people, are offered a chance to lend our money, at interest, to our

ANNOUNCEMENTS

A FREE PUBLIC LECTURE ON CHRISTIAN SCIENCE BY JOHN RANDALL DUNN, C. S.

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., in

Colonial Hall, Palmer St., Tuesday Evening, Oct. 16, at 8 O'Clock

You and your friends are cordially invited to be present.

a surgeon stationed at the Manor War hospital, Epsom, Surrey, Eng., as first lieutenant, M.O.R.C., United States army, writes home as follows:

"The hospital has 1200. This building was once the residence of Lord Baltimore, colonizer of Maryland. The soldiers here are very content that they are winning, although it is not yet over. The Germans are prisoners. They take but no longer a civilized people, and must be fought as Wayne fought the Indians. This is no war against a nation, it is a war against a man who knew a man who was a German. There should be no talk of peace until they are destroyed or repent, if it out troops go on with the same repentance is possible."

WAR TO BE DECIDED BY NATION'S SPIRIT

BOSTON, Oct. 15.—"Victory is ultimately won, not by bravery on the field but by the spirit of the nation behind it," said Dean Rousmaniere last evening in his sermon on "The Spirit of the Nation" at the Cathedral Church of St. Paul.

Continuing he said: "This is not belittling the bravery of our troops, but the bravery of the troops depends on the spirit we show. The spirit of this nation was read by the French people who thronged the streets of France to greet our boys, who bore for the first time the American flag in a conflict on European soil. The spirit of America is written in every field of that banner.

YOUNG MEN'S SUITS \$15

The Merrimack Clothing Company, across from City Hall, has on sale this week Young Men's New Trench Suits, belts all around at \$15. If you had \$20 in mind for a fall suit it will pay you to visit the Merrimack and see how easy it is to save \$5 by getting one of these beautiful Young Men's Suits.

"Our spirit speaks through the flag, not as a strip of hunting or as a history of the country. Our flag speaks to us plainly of the spirit of that band of patriots who poured their blood on the field that we might enjoy liberty, freedom and justice; that is why our banners are enshrined at our altars.

"Our flag represented to the allies the courage of this peace-loving, war-hating nation, which realized full well the terror and destruction in the wake of war, yet faced determinedly its duty in its crisis.

"It depends on you how our men act at the front; they will be courageous if they can feel your courage in a message of good cheer. Today amid the awful darkness of war our men see the light of victory in the ideals of America, ideals that stand for the eternal principles of liberty, justice and freedom to all.

"The German emperor says that God is on his side. It is not a question which side God is with; our question is, 'Are we on the side of God?' So far as we can see we believe that these principles are the way of God, and we are fighting to uphold it. It is our humble endeavor to keep our eyes open to the eternal will, and walk in obedience to it.

"That is the spirit of this nation, that prompts the message we send to our boys: 'Be ye courageous, keep faith with the Unseen, and cherish a humble reverence and dependence upon God.'

FAREWELL BANQUET TO FOREMAN CARL LOVEJOY AT THE WAVELEY HOTEL

An enjoyable banquet was held at the Waverley hotel Saturday night, the occasion being the gathering of former employees of the assembling department of the Newton Manufacturing company to bid farewell to former foreman Carl Lovejoy. The toastmaster of the evening was George Powers.

An excellent menu was discussed after which Toastmaster Powers made a timely address on the reason for the gathering and introduced Mr. Lovejoy, who responded.

An informal musical program was then given, with the following taking part in songs: J. Goggin, P. Cummings, J. Duboc, T. Brennan, J. Neeson and J. Greene, and in recitations, G. Keadir, R. McGill, N. Breton, A. Collette and A. Anderson, and in violin solos, Peter Marchant. The accompanist of the evening was Robert Alexander, and to the strain of "Auld Lang Syne" the party broke up.

PALMER STREET—LEFT AISLE

TRADING WITH ENEMY ACT PUT INTO FORCE

WASHINGTON, Oct. 15.—Broad war powers conferred upon the president by the trading with the enemy act were put into operation under an executive order issued last night delegating the authority under the law to various government departments and to a newly created war trade board.

This trade board is composed of the members of the administrative board, which it will replace, with the addition of a representative of the treasury department.

It will continue to license exports and will exercise a similar control over imports as soon as the president proclaims, under authority of the trading with the enemy act, the articles to be so restricted.

Trading or commercial dealings of any nature with any enemy company or agent in this country or abroad is forbidden, except under license of the war trade board, which also is authorized to license enemy or "ally of enemy" companies doing business in the United States, excepting insurance companies, whose supervision is entrusted to the treasury.

Censorship Board Created

Censorship of mails, cables, radio and telegraph messages passing out of the United States is placed in the hands of a censorship board, consisting of representatives of the war, navy and post-office departments, the war trade board and of George Creel, chairman of the committee on public information.

To the treasury is assigned the regulation of transactions in foreign exchange and exportation of gold or silver coin under license, and enforcement of the law's provision against transmission of the enemy of information by any means other than regular mails.

The treasury also is authorized to license insurance or reinsurance companies of the enemy or ally of the enemy doing business within the United States. Regulation of the use of enemy-owned or controlled patents for the war and of the granting or publication of patents containing information valuable to the enemy, given to the federal trade commission.

Foreign Language Newspapers

The postmaster general is entrusted with the supervision over and licensing of foreign language newspapers. In anticipation of this authority, Postmaster General Burleson has been receiving applications for licenses, and will begin issuing them before Tuesday, Oct. 16, the date the provision of the law becomes effective.

All such papers, except those granted licenses, are required under penalty to file with their local postmasters before Oct. 16, a statement of the names of all matters relating to the United States government or the governments of any other nations at war. The same section of the law makes it unlawful to circulate in any manner matter made unavailable by the espionage act.

The president's order defines the powers of the secretary of the treasury to act as trustee for all enemy property within the United States, or to issue licenses exempting enemy companies from his supervision. An appointment for this position will be made soon.

The New War Trade Board

The secretary of state is empowered to license the transportation of enemies to or from the United States through the existing passport means.

The secretary of commerce will retain his present authority to review the decisions of customs collectors refusing clearance to vessels carrying cargoes to violation of the trading with the enemy act.

The new war trade board is to consist of Vance C. McCormick, chairman, with the secretary of state, Dr. Alton B. Taylor, representing the secretary of agriculture; Thomas D. Jones, representing the secretary of commerce; Benveniste White, representing the shipping board, and a representative of the secretary of the treasury, yet to be named. All but the treasury representatives are members of the experts' administrative board, whose work hereafter will be done by the bureau of exports of the war trade board.

Advisory Council Formed

The name of the present exports council is changed to war trade council, with the secretary of the treasury and Chairman Hurley of the shipping board added to its membership. The secretaries of state, agriculture and commerce and the food administrator. This body will act in advisory capacity to the president and the war trade board.

The president's order vests in the war trade board power to license trade "directly or indirectly with, to or from, or for, or on account of, or on behalf of, or for the benefit of any person, or knowledge or reasonable cause to believe that such other person is an enemy or ally of enemy, or is conducting or taking part in such part in such part, or for the benefit of, or on behalf of, or for the benefit of, an enemy or ally of enemy."

Only with consent of the board may agents of enemy companies do business in the United States after Nov. 5. Enemy companies also may not change the terms of their contracts with the government without special license.

Regulation of Financial Matters

Sec. McAdoo is vested by the president with—and is expected to use—authority to the federal reserve board, "the executive administration or any investigation, regulation or prohibition of any transaction in foreign exchange, export or re-export of gold or silver coin, or bullion or currency, transfers of value in any form, or the carrying of any transaction to or from the United States, or transfers of evidence of indebtedness, or of the ownership of property, or the carrying of any transaction to or from the United States, or the residence of one or more foreign countries, by any person within the United States."

The reserve board already exercises virtual control over gold and silver exports.

The vested authority of the secretary of the treasury to prevent transmission of information to an enemy, either to or from the United States, will be exercised by the secret service, which is authorized to permit this transmission when he wishes.

Left to McAdoo's Discretion

"I further authorize the secretary of the treasury," says the order, "to grant a license under such terms and conditions as are not inconsistent with law or to withhold or refuse the same to any 'enemy' or 'ally of enemy' insurance or reinsurance company doing business within the United States through an agency or branch office or otherwise, which shall have application within 30 days of Oct. 16, 1917, the date the act was approved."

The censorship board is entrusted with the censorship of communications by mail, cable, radio or other means of transmission passing between the United States and any foreign country from time to time specified by the president, or carried by any vessel, or other

MASS. CIVIL SERVICE EXAMINATIONS

A competitive civil service examination for visitors in the service of the state board of charity will be held on Oct. 22, 1917.

The classification of visitors in the service of the state board of charity is as follows:

Class I. Visitors for children and children under self-supporting age.

Class II-A. Visitors for older boys.

Class II-B. Visitors for older girls.

Class IV. Visitors who shall have special knowledge of settlement laws to treat needy families and adults.

Class I. Applicants for this class should be persons of the principles of investigation as they apply to habits, children under self-supporting age, youths and adults, and they should have some knowledge of case work, and supervision of babies and children under self-supporting age. Their duties will be largely supervisory. They must have some knowledge of the laws pertaining to minors and their application, as well as a knowledge of child life through the age of 12 years from the physiological, psychological, and moral points of view; also practical experience in case work dealing with children up to 12 years of age, including babies.

Class II. It is desirable that applicants for this class who may be called upon to work with babies should have had experience as nurses.

Class III-A. Only men are eligible to apply for this division. The requirements are a knowledge of the laws pertaining to minors; a knowledge of child life in the period of adolescence from the various points of view above mentioned; also practical experience in case work dealing with boys from the age of 12 to 21.

Class III-B. Only women are eligible to apply for this division. The requirements are the same as in Class III-A, except that the practical experience in case work must be with girls from the age of 12 to 21.

Class IV. Applicants should have special knowledge of the settlement laws of Massachusetts, knowledge of case work with needy families and adults, and a knowledge of investigation.

Classes I, II, and IV are open to both men and women.

Applicants are to elect for examination some one of the classes outlined above and will be required to have a knowledge of the chief public and private agencies dealing with the group regarding which they elect to be examined.

The salary for men begins at \$1200; for women at \$800.

The examination will include the following subjects: a sworn statement of education, training and experience; the writing of a letter or report; arithmetic; verbal orders, handwriting and accuracy tests; and special questions chiefly in the form of cases aimed to test out the applicant's judgment, knowledge of law and procedure, and ability to handle efficiently the phases of the work connected with the class for which she elects to take the examination.

Successful applicants may be subjected to a physical examination.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

Persons desiring to take this examination may secure application blanks by applying, in person or by letter, at the office of the Massachusetts civil service commission, Rooms 101-102, State House, Boston, Mass.

Applications may be filed at any time, but in order that a person may be entitled to appear at this examination the application blank must be filed in the office of the Massachusetts civil service commission on or before Oct. 15, 1917.

The United States civil service commission announces that in view of the difficulty in meeting the needs of the service for stenographers and typewriters, and typewriters, and until further notice, subjects of countries allied with the United States will be admitted to these examinations, provided they have been resident in the United States for a period of at least three years preceding the date of examination. Such persons may not be certified for appointment, however, so long as there are United States citizens on the eligible lists.

Stenographer and typewriter examinations for the departmental service at Washington, D. C., are held through

out the United States on each Tuesday. Information in application form may be obtained from the civil service commission, Washington, D. C., and from the secretary of the United States civil service board, postoffice, Boston, Mass.

WAKEFIELD RIFLE RANGE

WAKEFIELD, Oct. 15.—Navy recruits and members of the naval volunteers engaged in practice at the Wakefield rifle range have laid the foundation for a building which is to serve as winter quarters. They will do all the construction work.

H. L. Lightcup of Greensburg, Penn., who was unable to find sufficient help during the day to do his threshing, obtained a force from the shops and did the work by electric light.

Children Just Love Cocoanut Oil Shampoos

Nothing is quite so good for their hair and scalp as its white, creamy cleansing lather to keep it in perfect condition—fine, soft, glossy, free from dandruff, dirt and dust. Don't neglect your child's hair—shampoo it frequently with

May's Cocoanut Oil Shampoo

The only kind that will not dry out the natural oils of the hair, no matter how often you use it. Care devoted to the children's hair means beautiful, thick, healthy hair when older.

Lemons Do Whiten! Try This on Face, Neck, Arms, Hands

The lemon juice massage indulged in once or twice each day means a life time and trouble, girls, but what of the splendid results? A skin bleached beautifully white, a complexion with the bloom of a peach, a softening of those lines of care; in fact, a skin eloquent of nature's purity and hands white, soft and full of charm.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin; to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with cream when used this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of cream, and you have a whole quart of the most beautiful cream lotion at about the cost of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When massaged daily the face, neck, arms and hands it bleaches, naturally helps to whiten, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of cream white at very little cost, and the grocer has the lemons.

GIVE CUT RATES FOR VERMONT NO SLACKER SOLDIERS' INSURANCE IN ENLISTMENTS

WASHINGTON, Oct. 15.—Samples of the insurance policy which the government will write for its soldiers and sailors were made public last night by the war risk insurance bureau of the treasury department. Plans for placing the policies into effect immediately will be outlined here next Tuesday at a conference of treasury officials with representatives of the navy and army and enlisted men at the 32 cantonments.

Details of the policy disclose that risks will be written upon the lives of men and women between the ages of 18 and 65 in all branches of the army, navy, marine corps, coast guard, naval reserve, National Naval Volunteers, nurses, and any other branches of the United States service serving with the army and navy. Announcement was made also that "rates at ages higher or lower will be given upon request."

Premiums computed on a monthly basis, vary between 63 cents per \$1000 at age 18 to \$3.36 per \$1000 at age 65. Between 21 and 31 years, the following monthly premiums will be charged per \$1000 insurance (the limit being \$10,000):

Twenty-one to 23, inclusive, 65 cents; 24 and 25, 65 cents; 26, 67 cents; 27, 68 cents; 28 and 29, 69 cents; 30, 70 cents.

During periods of total disability, the insurance will be paid, not in one lump sum, but monthly for 20 years, should the disability continue for that period. Should death occur before 20 years, the remainder of the policy will be paid at once to the beneficiary.

Provision is made for family allowances for re-education of wounded and cripples for compensation in case of death or injury without cost and for the additional protection of insurance at very small cost.

In cases of partial disability, the amount of compensation is determined by a schedule to be based upon the extent of the impairment of earning capacity. It may be increased above the figures named in the policy, where the insured has dependents.

Where the injury or disease is caused by the willful misconduct of the man, the policy reads, "compensation will not be paid."

The policies will be issued in multiple copies of \$5000 a policy, however, to be less than \$1000.

Children Like To Take It

Thousands of children have worms and their parents don't know what the trouble is. Symptoms of worms are: Deranged stomach, swollen upper lip, sore throat, offensive breath, hard and full belly with occasional gripings and pains about the navel, pale face of leaden tint, eyes, head, and mouth itching, grinding of the teeth, little red points sticking out on nose, starting during sleep, slow fever. Always keep Dr. Tru's Elixir on hand for such cases. It is promptly effective and the nice thing about it is that children like to take it.

Mrs. H. W. Roberts of 302 Asylum Street, Flint, Michigan, wrote: "I have used the Elixir and as far as I know my little girl is cured of worms." She wrote in again later saying, "Baby is fine and I think it was your medicine that helped her."

Dr. Tru's Elixir, the Family Laxative and Worm Expeller, has been on the market more than 60 years and more and more people are using it all the time to expel worms, or to tone up the system and restore natural action of the bow.

The bearers were David Reardon of Bradford, Joseph Burns of Everett, John Reynolds, John King, Patrick Boland and John Flemming of Lowell. After the mass the body was taken to the funeral home where it was placed in a casket and accompanied by an automobile cortege. Burial was in the family lot in St. Patrick's cemetery, this city. Rev. Thomas Reynolds read the committal prayers at the grave. There was a profusion of floral offerings and the funeral was largely attended. Undertakers C. H. Molloy's Sons of this city were in charge.

McEVEY.—The funeral of Edward T. McEvey took place this morning from his late home, 100 West street, at 9:30 and was largely attended by sorrowing friends and relatives. The cortege proceeded to the Sacred Heart church where a high mass was sung at 10 o'clock. Rev. Timothy Sullivan of South Boston, a nephew of the deceased, Rev. John P. McEvey, officiating.

ANDERSON.—Thomas Anderson, aged 55 years, died today at the Tewksbury State Infirmary. The body was taken to the chapel of James P. O'Donnell and Sons.

GERMANY'S PERFDY TO ITALY

In fighting a foe it is just as well to get a perfect picture of what kind of foe he is.

The trickery of Germany is pretty well known to the American people by now. But there are still some who wonder why Italy withdrew from the triple alliance and fought the Teutons, instead of lining up with them.

The fact is, Italian statesmen knew long ago the two Kaisers were constantly abusing the terms of the alliance and making Italy pay the freight. Recently there has come to light a glaring instance.

Italy declared war on Austria in May, 1915. She did not declare war on Germany until August, 1916. Germany ostensibly took no warlike part against Italy. But early in June, 1916, Italian mine-sweepers near an Italian naval base in the Adriatic found a barrier of 12 mines. They cleared these away. A few days later they found a similar barrier in the same place. These could only have been placed by a submarine, so the Italians decided to set a watch for it.

Finally in March, 1916, an Italian mine sank the hostile submarine in comparatively shallow waters and the Italians decided to fish her up and have a look at her.

They found she was the U. C. 12, built at the Weser yards by the German firm of Ditts-Siemens-Schuckert. Its log revealed some interesting facts.

Said the commander: "After trial trip on the Weser, was towed through Kiel canal May, 1915. At Kiel landed mines to be used in Italian waters. After trials, sent in three pieces by rail to Pola, arriving June 24, 1915. Put together, I exchanged German for Austrian flag."

The log also records that the ship was employed in laying mines in Italian waters, carried rifles to an African port for the rebels against Italy, and cruised near Durazzo, seeking Italian ships. The crew all were German.

Germany at peace with us, plots to have Mexico and Japan make war upon us. Germany at peace with Italy, sends German submarines to lay mines in Italian harbors.

And still there are some pro-Germans in this country who wonder why the allies are determined to put an end to Prussianism.

FEEDING OUR ALLIES

The chances are that many Americans are puzzled every time Food Controller Hoover issues a statement urging us to cut out all waste. People are apt to think with the bountiful crops this year we should have an abundance.

But—one of the vital needs of the time is, that America should help to provision France and England. Even in normal times England does not raise enough food to feed herself. And these are far from normal times. And a large part of the food growing country of France has been temporarily taken away or reduced to a scene of irreparable ruin.

France and England need food and we should furnish it. We can, if we will use our supplies here at home with reasonable prudence.

Why is it our imperative duty to help feed our allies? Because our allies are holding the lines in France and Flanders while we make ready to take up the fight for civilization and for liberty. Only by their work, can we have the necessary time to prepare. Every battle they fight is a battle for America.

We are advancing part of the money they need to supply their armies. We must now give them food to feed both the armies and the folk back home.

The Germans and the Austrians are rapidly approaching empty stomachs. We simply can't afford to let the English and French have any starvation problems on their hands while they are doing such glorious execution on the enemy. If they keep on, there will be nothing left for the United States to do when the spring arrives.

TRANSPORTATION TO AYER

The transportation by trolley between North Chelmsford and Camp Devens is said to be so utterly bad that the Public Service Commission should give it some attention. When men enter the cars through the windows, pile on the fenders, hang from the lower steps, front and rear, and even climb upon the roofs of the cars, it is time that something were done to protect passengers and provide more cars. The Lowell and Fitchburg company is responsible for these conditions and apparently makes no attempt to meet the emergency by increasing the number of cars. It is surprising that no serious accidents have happened as a result of overcrowding the cars; but some of the passengers have been nearly squeezed to death. While the schedule time between Lowell and Ayer is an hour and ten minutes, it is frequently extended at least an hour, especially on Sundays and Saturdays as a result of overcrowding. This is not surprising when several minutes are necessary to extricate a passenger who wants to get off a crowded car. It is time something were done to remedy this disgraceful state of affairs.

SEC. LANSING'S DISCLOSURES

Secretary Lansing is doing good work in exposing some of the secret plottings who were the tools of Germany in carrying on secret outrages calculated to help Germany and injure England. His disclosures prove that men who were lauded to the sky as patriots were lending their influence and counsel to promote sabotage and worse outrages in the United States. The American people have still to learn the depths of infamy to which German intrigue descended in plotting for the domination of the world. Fortunately the vigilance of the department of justice at Washington penetrated their designs and as a result these were frustrated. In the minds of the German rulers, however, it was all settled that the United States should be paralyzed by secret cabals before the people became aware of Germany's intention. She has not made good her schemes either on this side of the Atlantic or on the other.

RESTRICTIONS ON PROPERTY

Dealers in real estate will be interested in a recent decision of the supreme court of this state which annuls an act of the legislature removing restrictions on property where the environment seemed to make them undesirable or impracticable. A piece of property in the Back Bay was sold under restrictions that forbade its use for stables, apartment houses, manufacturing or foundry purposes. The legislature in 1915 passed an act for the equitable removal of restrictions. The land court then granted a clear title to the property in question and the matter, having been carried to the higher court, elicited the decision that such an act would be a violation of articles I and 10 of the bill of rights. Thus restrictions stand in law except under the right of eminent domain.

THE LUSITANIA

It now turns out that German agents had placed no less than nine explosive bombs on board the Lusitania, before she left New York harbor and it's a question whether the notice from the German embassy warning intending passengers not to sail on the vessel, referred to this danger or to that which actually befell her. The bombs were timed to explode and sink the ship somewhere near the Irish coast. Some of them may have exploded and helped to send the vessel to the bottom.

This is another revelation of German treachery carried out under the direction of Count Bernstorff.

THE OPEN SHOP

Interest centres in the demand of the Building Trades union of Boston that the Fore River Shipbuilding Corporation at Squantum shall adopt the closed shop in the construction of its new \$9,000,000 naval plant. There has been considerable squabbling over the matter and now a delegation has gone to Secretary Daniels in reference to it. No government body can legally adopt the closed shop principle. The Fore River company is willing to comply with union wage and hour rules but insists upon the open shop.

NO REFLECTION ON LOWELL

Let it be understood that the precautions taken by Mayor O'Donnell for the protection of the soldiers coming to our city does not in any way reflect upon the morals of our city. Lowell is as clean in this respect as any city in the country and the appointment of a vice squad is simply to prevent the "camp followers" from loitering here. The war department is insistent upon radical measures and the adoption of the precautions suggested is no reflection upon our city or its good name.

If the soldiers have to wait for the knit sweaters a great many of them will feel the chill winds of March without the coveted garments. But why does not the government supply machine made sweaters in the meantime?

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects. All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

Much more work might be done in this world if it weren't so easy to lie down and take a nap after dinner, or go to the moving pictures.

Some Cape Cod Names
Young Nicola was a little under the weather while the D'Ascenzos were summering in Provincetown and Nicola, the papa, was hard put to select a physician for him. The nearest was Dr. Fitts. Mistakes Officer For a Porter
Resplendent and trim in his uniform, Lieut. Commander J. S. Willis of the navy stopped for a moment in front of the St. Francis hotel in San Francisco. Willis is traffic expert for the navy there, having occupied the

same position in civil life for the chamber of commerce before the war. His mind, dwelling on "rates" and "classifications" was brought up with a sudden jolt when a clear voice, saturated with authority, sounded close to his ear.

"Order me a taxi."
Willis turned and saw a vision in white, a dainty miss of 20 or so, and she looked him over coolly. With just a glimmer of a smile about his lips Willis said: "Certainly, madame," and promptly filled the order.

"That and nothing more. Without even thanking Willis, the radiant lassie went her way."

A Private Hermit.

The profession of hermit is profitable. Little Henry Arkins left his parents' home at Thurman park, Everett, two weeks ago and reappeared in Malden square Sunday afternoon with a bicycle. He had no bicycle when he left home.

He was trying to sell it. It was a nice bicycle, but he was not at all a nice little fellow. The nickel on the handlebars shone in the sun, but Henry's boots did not. His hair was unkempt, his clothes ragged. The queer

contrasts attracted Deputy Inspector John H. Aylward of the Malden police. "Where did you get that bicycle?" the officer demanded.

"Rewards," said Henry. "I'm a hermit." He to the police station he went. The inspector when an hour in questioning him, learned his name and his parents' address, and even the location of his hermitage. But failed to discover how Henry came by the bicycle. He took Henry home, the boy admitting that he had no fault to find with his parents or his home, but expressing a preference for hermiting.

"Be to the police station he went. The inspector when an hour in questioning him, learned his name and his parents' address, and even the location of his hermitage. But failed to discover how Henry came by the bicycle. He took Henry home, the boy admitting that he had no fault to find with his parents or his home, but expressing a preference for hermiting."

He Is Still Teaching.

The question of just how fascinating a music teacher can become to a young girl of 17 was threshed out in the courtroom of New York, before Magistrate Krotel and may he be thrashed out somewhere else later if the participants find each other.

The innocent 17-year-old girl is Miss Emina Garofala, a daughter of Mrs. Filippa Garofala, of No. 411 Fifth street. Her sister she has been taking music lessons from Giuseppe Mannino. The third ingredient of the mix-up is Mario Costa, 21 years old, a student of the same school.

Now that they've all made their bows up with the curtain.

Exhibit A—
"I know that Mrs. Filippa Garofala sends her daughters to take lessons from you, a thing which I do not permit. If you do not want to have your face slashed, do not look at this family, nor even in the face."

Mr. Mannino explained that since this letter left the court, he had been to look while giving lessons to the girls he thought the court might be able to see his violation, legally, or at least to give an injunction against the enforced restriction. Consequently the had Costa failed to court charging that he was writing at Costa denied the letter, but admitted he loved Emina and said he gloried in it. Miss Garofala also said that Costa loved her, but exhibited little glowing. Costa, she said, had also tried to make her quit taking music lessons.

On this and other pertinent facts Magistrate Krotel placed the young couple of music under \$500 bail, while Mr. Mannino is still looking for Garofala girls square in the face as he asks them please to run over once again that five-fingered exercise in G flat.

Autumn Leaves.
The autumn leaves are brilliant now. With fading yellow, brown, and red. The sugar groves in splendor show a blaze of glory overhead. And myrtle, sweet and shy, With Harry's help—a want long felt—Has found a way to press the leaves. She puts them underneath her belt. But we shall see the glory fade. The leaves, all shriveled, dry, and brown. Will drop their hold upon the trees. And, rustling softly, flutter down. Will that end myrtle's happiness? And myrtle, all shivered, and shy, Because there's no more chance to press.

Y.M.C.A. WILL TRY PLAN TO DENOTE NUMBER OF MEMBERS IN U. S. SERVICE

The Young Men's Catholic Institute will purchase a service flag to denote the number of its members who are in the national service. The flag will be flown from the roof of the society's building in Stockpole street. This decision was reached at a meeting held yesterday morning at which a number of other important business matters were transacted. Vice President McCarthy was in the chair and favorable reports were heard from the financial and recording secretaries. It was voted to hold memorial day exercises on the next month in honor of the departed members of the organization. A committee was also appointed to draw up a roll of honor of the members of the society who are in the country's service at present and to post in a conspicuous place in the building.

STUDENTS OF PHILIPS-EXETER TO RAISE \$100 FOR Y.M.C.A. FUND

EXETER, N. H., Oct. 15.—Students of Phillips-Exeter academy pledged themselves at a meeting last night to refrain from indulging in many luxuries in order to raise \$4000 toward the Young Men's Catholic association for the war. Among American soldiers, they will try to get the money, in hand by Christmas, when it will be sent to Robert H. Newton, a former member of the faculty who is now engaged in Y.M.C.A. work in France, and to Andrew L. Cobb, a graduate, who is doing similar work in Mesopotamia.

Frederic C. Rockford of Chicago, a graduate of Camp Grant, received \$50,000 from his father as a reward for his patriotism when he enlisted in the army.

BIG DECREASE IN AUTO ACCIDENTS

BOSTON, Oct. 15.—There has been a decrease of 14 per cent in automobile accidents in Massachusetts this year, in spite of the fact that the number of cars registered is 32 per cent greater than last year. During the first eight months of the year, the state highway commission reports, there were 6032 accidents, as compared with 5549 in the corresponding period of 1916. The number resulting fatally, however, was greatly in excess of last year, the figures being 89 for 1917 and 58 for 1916. There have been fewer accidents in congested city districts and more in rural sections.

FIREMAN FOUND DEAD ON RAILROAD TRACKS NEAR SCHOOL STREET

Frank Boulvier of Marlboro, a fireman in the employ of the Boston & Maine railroad, was found dead on the railroad tracks near School street about 9 o'clock Saturday night. When discovered it was thought that there might be a spark of life left and the ambulance was summoned, but an examination showed that life was extinct and he was removed to the funeral parlors of Undertakers James P. O'Donnell & Sons.

How the man met his death is unknown, but it is thought that while working on one of the engines he fell across one of the rails and the wheels of the train passed over him.

The body was practically cut in two and the head was badly injured, so it is believed that death was instantaneous. Boulvier was the son of Alexander and the late Purdie Chas. Boulvier and had resided with his father in Marlboro. He leaves two brothers, Joseph and Edward Boulvier; four sisters, Mrs. John Hogan of Clinton and the Misses Alexandrine, Alice and Leonie Boulvier. He was 18 years old.

27 LUMBER JACKS BOUND FROM YARMOUTH, N. S. FOR JACKMAN, ME., DETAINED

ST. JOHN, N. B., Oct. 15.—Twenty-seven lumber jacks bound from Yarmouth, N. S., for Jackman, Me., are detained in this city, Canadian Immigration Agent J. W. Lantham declining to allow them to leave the country, as virtually all of them are fit for military duty. They will return to Nova Scotia tomorrow.

The men were engaged in Yarmouth by a Maine company with the consent of the United States government. The men have worked in Maine in previous years.

WELLESLEY, Oct. 15.—Wellesley college has decided to offer nine emergency courses in war relief work during the present college year. They will include instruction in home nursing, first aid, wireless telegraphy, history of the war, home economics, gardening and conservation of produce, statistics and filing and surveying and map making.

GIRL SHOE SHINERS UNDER BAN
BOSTON, Oct. 15.—Mayor Curley considers that danger lurks in the substitution of girls for boys in shoe shining establishments as has been done in several such places in this city since the country entered the war. In a communication made public today which he will submit to the next meeting of the city council, the mayor says that "the immorality of such an occupation for young girls is hardly open to argument, and it seems unnecessary to enlarge upon the possible dangers, from the standpoint of public morals, of allowing them to be so employed." He has prepared the draft of an ordinance prohibiting the employment as bootblacks of females less than 21 years of age.

COMMERCIAL LETTER WRITING

HEAVY GUARD FOR STRIKE OF HORSESHOERS SLAYER OF THREE UNION AVERTED

SPRINGFIELD, Oct. 15.—Double guards were placed early yesterday morning in the room in Mercy hospital where Fred Gallorani, wanted for three murders, including the killing of his wife, Saturday, when he was surrounded by a posse in Feeding Hills, lies in a serious condition from a bullet wound self-inflicted at the time of his capture.

This precaution followed the indication that the man was trying to fake unconsciousness, which might give him a chance to make away with himself and the finding of a slipper on the hospital stairway. It was fairly well established later yesterday that the slipper belonged to a patient who left Saturday, but there was considerable uneasiness at the time lost an attempt to make to rescue him. It was thought at first some prowler had the slipper when frightened away.

Powder marks on the face of Gallorani's wife, revealed at the autopsy, clearly developed that she was shot by her husband and not the victim of any stray bullet from the posse. According to the police, Gallorani also admitted that he killed his wife and did the shooting in the Union street house, Springfield, Thursday, which resulted in the death of his sister-in-law, Della Rose Gallorani, and her father, Clement Marlino.

Martin's wife, who was also shot Thursday morning by Gallorani, is rapidly improving in Hampden hospital and will undoubtedly recover. According to the police, in his confession Gallorani says he alone did the shooting Thursday and that the clothes on the body of Mrs. Gallorani, as well as blankets for bedding in the woods, were taken by him from a room on the Reinegar farm Thursday—this without the knowledge of the wife's parents, Mr. and Mrs. Frank Reinegar.

The funeral of Mrs. Gallorani will be held at Byron's undertaking rooms this city, Tuesday morning. She was 24 years old.

COUNTY COMMISSIONERS

The three county commissioners paid a visit to Lowell this morning for the purpose of conducting a regular meeting at the court house, but there was nothing doing. The commissioners arrived at the court house at 10 o'clock and waited until after 11 o'clock, but their only visitor was a newspaperman. The commission then adjourned to Cambridge without transacting any business.

BILLERICA HUSTLING TO DO ITS BIT ON THE LIBERTY LOAN SUBSCRIPTION

In order for Billerica to do its share in the Liberty loan subscription, a minimum of \$110,000 must be subscribed, and accordingly the committee in charge of the campaign in the town is spurring no effort or time to bring its work to a successful end. Subscriptions are not coming in as fast as they should, and the committee fears that unless an extra effort is made on the part of residents at the close of the campaign Billerica may find itself in a rear row. All residents of the town are earnestly requested to do their "bit" in reaching at least the minimum of \$110,000 in subscriptions.

BRITISH-AMERICAN SOCIAL CLUB

A well attended and thoroughly enjoyable social was held under the auspices of the British-American Social club Saturday night at the home of Mr. and Mrs. George Whalley, 15 Cambridge place. William Dawson, who is about to leave for Canada in the British army, was agreeably surprised upon being presented a purse of money. Mr. Walters made the presentation with a suitable speech, and Mr. Dawson thanked the members for their good wishes, after which it was voted that all members present should contribute to the evening's program. A number of thanks were given to the host and hostess for their kindness and the meeting broke up at a late hour with a finale of "Auld Lang Syne" and "The Star Spangled Banner."

FINNISH DIET HAS BEEN CALLED TO MEET ON NOVEMBER 1

PETROGRAD, Oct. 15.—The Finnish diet has been called to meet on November 1.

The Finnish diet was dissolved by the provisional Russian government several weeks ago for its extreme stand on the question of autonomy for the province. New elections were held and completed on Oct. 4, the united Bourgeoisie and the social democrats receiving 60,000 of the 70,000 votes cast.

\$4 to \$7.50

BOSTON, Oct. 15.—A strike of journeymen horseshoers' union 35, scheduled for this morning, to enforce their demands for a weekly wage of \$26, was averted by the persuasive powers of its wage committee at a special meeting of the union yesterday, at which it was finally voted to accept a \$2 a week increase offered by the Master Horseshoers' association, which brings the wages of the members to \$24 a week.

The men had already balloted in favor of striking. The wage committee, however, held several conferences with representatives of the Employers' association, finally inducing them to accept the compromise offer for the present.

The meeting was held in Wells Memorial building yesterday, following the report of the vote, which was counted that a deadlock had been reached with the employers, who refused to recede from their compromise offer on the ground that they could not afford to meet the full demands on account of the present high prices for steel and iron used in the industry.

The local voted to request the mayor of Boston and mayor of Cambridge and the Public Works commission of Boston to advance the wages of members employed in their respective jurisdictions to meet the new scale of \$24 a week. A committee was appointed to wait upon the executives of the Metropolitan Coal company, with the object of inducing that concern to organize horseshoers employed in their shops.

ROOKIES BEAT UP A CORPORAL AT AYER

CAMP DEVENS, Ayer, Oct. 15.—A furious battle between Frank Keenan, a former prize fighter of Bridgeport, Nicholas Costello of Waterbury, private in H company of the 304th infantry regiment, and the corporal of the interior guard of the regiment, C. E. Gros, former bond salesman of Waterbury, occurred Saturday night and was the first serious breach of camp discipline.

Keenan and Costello face long terms of imprisonment at hard labor at the military prison at Fort Leavenworth and dishonorable discharge at the end of the term if convicted of the violation of articles of war with which they are charged. They will be tried by a general court martial board at which Maj.-Gen. Harry F. Hodges may preside. The two men are in the guard house of the 162nd infantry brigade.

Sunday Crowd Breaks Record. A greater crowd than anybody ever thought could squeeze into this town gathered for the opening of the new road, which was broken down the schedule of the street railway, which could not operate the cars, with the flood of motors touring along the Fitchburg road. The best the street cars could do during the hours while the crush continued was to run a few yards at a time, back and forth between Depot square and the main entrance gate.

Automobile traffic proved the need of another road. It was blocked completely by time after time, not a wheel for nearly half a mile moving until a little pressure was relieved from one end or the other of the road. Probably 250,000 persons were here yesterday.

The Liberty loan jumped to \$123,250 yesterday, contributions of Saturday. Lt.-Col. Massee left last night for Washington to obtain and bring back with him the war department's detailed plan with regard to such questions as soldiers' insurance, allotment pay for dependents and compulsory savings.

The rejections signed on Friday, which were issued yesterday, total 157 men disqualified for physical imperfections. They include 118 Massachusetts men, 51 from New York, 14 from Connecticut, two from Rhode Island and two from New Hampshire.

Deaths in the Hospital

Walter J. Hensley of Danbury, a member of company I of the 304th infantry, who arrived at the cantonment in poor physical condition, died at the base hospital from pneumonia. Clifford French of Thomaston, Ct., died at the base hospital last night.

John F. Grady, a 11-year-old orphan, who came to camp from Danbury with his uncle, Charles T. Grady, a selected man, is the youngest rookie in camp. His uncle is in a serious condition at the base hospital, suffering from a ruptured appendix, and his recovery is regarded as problematical.

Members of the 30th infantry, 8th battalion, depot brigade, discovered the body of a man in the woods playing on a bugle. He wore a soldier's complete uniform, although of diminutive size and stunted correctly. They brought him to Capt. Robert J. Cashland, company commander, who fed him and then took him to the brigade adjutant, Maj. Allen D. Pope. He in turn notified Brig.-Gen. William Wetzel who called the boy before him. After the talk young Grady said: "Where's the general?" "That's him," said Maj. Pope. "Oh, Oh—Oh, Oh," said John. They now read his name at the end of the roll every day, but his instruction is in the Ayer schools and not with his soldier comrades.

David La Plant, residing at 162 Smith street, was struck down and injured by an automobile in Merrimack square about 7:15 o'clock last night. He was taken to St. John's hospital, where it was found the bones in the left leg were broken. The automobile which struck La Plant was owned by a man residing in Bradford, Mass.

Private James Higgs of the MacLean Killies of America is on a furlough at his home, 371 Lakeview avenue. He came from Montreal and will return Wednesday evening. Private Higgs was not expected home until the latter part of this week and his arrival on Sunday was a pleasant surprise to his wife and children. He joined the MacLean Killies June 10, and war work, judging from appearance, agrees with him immensely.

As a result of less than a week's campaigning for funds to buy smoking comforts for America's fighting men about to board transports for "over there," Lowell contributed \$50.45 to the work. The campaign began last Tuesday evening at Kell's theatre, when Mayor O'Donnell made the initial appeal, and ended Saturday evening with Miss Helen Osgood as the collector. Saturday evening brought in \$101.24. The money was forwarded today to the Army Girls' National fund among the soldiers. Lowell's showing is considered very good.

TWO DEFENDANTS FOUND NOT GUILTY OF SELLING LIQUOR TO SOLDIERS

Henry W. Snow, of Milford, N. H., and Ernest Bolduc, of Worcester, who appeared in court last Monday, settling the charge with illegality selling liquor to soldiers on Saturday, October 5, appeared before the federal court in Boston, and were found not guilty and discharged.

SOCIAL AND FRATERNAL

A regular meeting of the Friends of Irish Freedom was held in Hibernian hall last evening with a large attendance of members. Routine business, remarks by several of the members and a pleasant entertainment made the evening a profitable and enjoyable one. Among those who entertained were Miss Maureen Quinn, Miss Mahoney, Mr. Delmore, Miss Dever and Miss Russell.

The regular meeting of the Mathew Temperance Institute was held yesterday afternoon, Pres. John J. Townsend occupying the chair. Eight ap-

plications for membership were received and one new member was admitted. Financial Secretary Arthur M. Flaherty submitted a report on Wednesday night's banquet, showing that the event had been a success financially as well as socially.

In view of the fact that the game tournaments held last winter with other societies in Lowell and the surrounding towns proved of such interest to the members and helped to encourage a spirit of friendly rivalry among the societies taking part, the Mathews have decided to get an early start this year, thereby enabling themselves to add new societies to their list of opponents. The following mem-

bers have been appointed to make the necessary arrangements: Arthur M. Flaherty, Fred T. Brown, John E. O'Neill, John Sargent, Thomas J. Tighe, Thos. J. Durkin and John J. Townsend.

The members intend to run a series of ladies' nights in the near future, and the following committee will be in charge: J. Joseph Finnegan, Thos. Clark, Walter Quinn, John E. O'Neill and Thomas J. Tighe.

Industry council will discuss at its next meeting, the proposition to invest \$1000 in Liberty bonds. On Thursday evening, October 5, Grand Regent Fred A. Goodwin and Supreme Vice Regent Franklin Rubright of

Chicago, Ill., will address a union meeting of Lowell Council No. 8.

The regular meeting of Division 11, O. A. H., was held yesterday. There was a large attendance and President John F. McInerney was in the chair. Two new members were initiated and one application was referred to the investigating committee. John J. Kenney reported that he had attended the county board meeting at South Framingham on Sept. 30. It was recommended that the names of drafted men and all members serving under the Stars and Stripes be kept on the books, and also that the names be forwarded to the county secretary to be kept on the roll of honor. It was

voted that a committee of three be appointed to act in conjunction with a similar committee from the other divisions in regard to a class initiation in the near future. The dance committee reported that it would have a final report at the next meeting. Patrick Hayes spoke under the good and welfare of the order. In regard to increasing membership,

Damp rainy weather often brings out points about a suit which some women overlook when buying.

A roughing-up or pucker or ripple at the seams or hems—these unsightly things happen when the fabric is not pre-shrunk.

Fabrics in Woolltex coats and suits are always pre-shrunk. They stay smooth and soft and unpuckered in spite of the weather.

LETTER FROM WAR ZONE
NURSE HAD POOR HEALTH

Another letter has reached this city from "somewhere in France," but this time it does not come from Company M. Robert Walsh, son of Mr. and Mrs. Edward Walsh of 1 Madison place, enlisted in the regular army from Lowell about four months ago and was assigned eventually to Co. E of the 3rd Infantry, U.S.A. This regiment comes from New York for the most part.

ROBERT WALSH

located the letter does not state. The writer says that the first lieutenant of the company opens and endures all the letters which the men write. Robert Walsh is one of three brothers, all of whom are serving in the forces of the allies. Benjamin Walsh is with the English forces in the trenches of France. He has been there for three years. William, who served in the Boer war for three years, enlisted in the Canadian forces two months ago and he, too, expects to go "over there" in a short while. He is at present stationed in Canada.

FRENCH-AMERICAN VOTERS ENDOUSE MIGNAULT AND CHARBONNEAU

Dr. Rodrigue Mignault and Lawyer Henri V. Charbonneau were endorsed as candidates for mayor and school committee, respectively, at a meeting of voters held in C.A.A.C. hall yesterday afternoon. The apocryphal assembly hall was filled to its capacity, and the meeting proved a most harmonious one. Among other business transacted was a change in the by-laws by which a president, a secretary, a treasurer and four directors were elected instead of 15 directors representing all the wards of the city.

The election of officers then took place with the following result: Joseph Payette, president; August Lavoie, secretary; Charles Laperle, treasurer; Albert Hogue, Arsen Brin, Auguste Guilbault and Alfred Beauchene. The question of endorsing a candidate for mayor at the coming city primary was then discussed, and Dr. Rodrigue Mignault was the unanimous choice of the assembly. The doctor addressed the gathering and informed his listeners that he will conduct an energetic campaign, and he asked the co-operation of all present and their friends to carry the campaign to a successful end. Lawrygo Lavoie, secretary, was then unanimously endorsed as a candidate for the school board after it was learned that the present school committee, Volfrid P. Gaisse, Jr. would not be a candidate for a third term. Mr. Charbonneau also spoke briefly, thanking the voters for their endorsement and assured them that he would do all in his power to win the nomination and to carry out the call of the chair.

Sometimes it would be very painful after a hard day's work. I read about Lydia E. Pinkham's Vegetable Compound and tried it and it has helped me wonderfully, so the soreness is all gone now. I believe Lydia E. Pinkham's Vegetable Compound is just the remedy for female troubles." — Mrs. ELIZABETH JOHN, R. F. D. No. 4, Toledo, Ohio.

THE ECONOMICAL USE OF FUEL

WASHINGTON, Oct. 15.—"The householder must realize that when he throws a shovelful of anthracite coal into his furnace its value is equivalent to a half a pound of sugar, or half a loaf of bread, or half a pint of milk." That is the manner in which the bureau of mines, department of the interior, endeavored to impress the state assistants of the fuel administration with the necessity for the economical use of fuel. The state deputies had been called together in Washington by Dr. H. A. Garfield, the fuel administrator, for a family council concerning the urgent work to be taken up in each state.

ENTENTE ALLIES HAVE INCREASED SHIPPING

LONDON, Oct. 15.—The entente allies have increased their shipping according to the Times, through the efforts of the Entente Shipping Conference, and the Lamport & Holt line of the controlling interest in the Argentine Navigation Co., which has a capital of \$10,000,000, and owns more than 300 vessels. Three of the leading French lines and one Italian shipping company, participated in the transaction.

CHINA AND JAPAN SIGN AGREEMENT

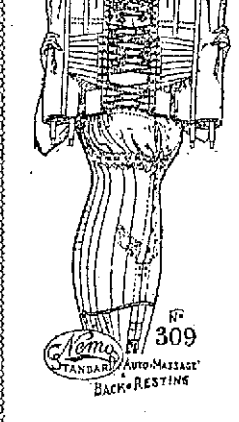

PEKING, Oct. 15.—China and Japan have signed an agreement concerning the lease of the Kiro-Chang-Chun railway in Manchuria. Japan will loan China 5,000,000 yen five per cent. for a railway to be held as security for the property during the term of the loan. The Kiro-Chang-Chun railway will be under the management of the South Manchuria Railway Co.

PRESS PRAISED FOR WORK IN WAR

BOSTON, Oct. 15.—"Our Patriotic Press" was the subject of a sermon last evening at the First Methodist Church, Temple street, by Rev. William M. Gilbert. "The press of this country," he said, "should receive the unanimous endorsement of the public for its unselfish and loyal patriotism shown in the liberty bond publicity and in its voluntary censorship based on honor."

"A critic must be ready to applaud as well as knock, and this time I desire to applaud. Mothers by the thousands have smiled through their tears and sent their boys to the front with a heroic 'God bless you!' Sons and fathers have volunteered for 'democracy's sake.' But I have heard no one praise the press of America for its 'bill'."

Cincinnati Man Discovers Drug That Loosens Corns So They Lift Out.

Local druggists are having a tremendous call for freezone, the drug which is said to shovel a corn, root and all, without any pain. A few drops applied directly upon a tender, itching corn relieves the soreness at once, and shortly the entire corn, root and all, lifts right out with the fingers.

This new drug is being dispensed at small cost in quarter ounce bottles, which is sufficient to take off every hard or soft corn from one's feet. It is a sticky substance which dries at once, and does not inflame or even irritate the surrounding tissue or skin. There is no excuse for anyone inflicting death by infection or lockjaw from cutting their corns now.

A needless alarm from box 217 at 9:57 o'clock yesterday morning, was for a chimney fire in a house on John street. No damage.

EAT WHAT YOU WANT WHEN YOU WANT IT

People who consistently deny their appetite some particular dish appealing especially to their palate, may avoid subsequent suffering, will think this a strong statement. It is a fact, however, that most people can, without fear of digestive consequences, indulge the appetite within reason if the bowels are active and regular. Heavy dinners and late suppers can be enjoyed with impunity if, before retiring, one will take a spoonful of Dr. Caldwell's Syrup Pepsin, a mild combination of simple laxative herbs with pepsin that druggists sell for fifty cents a bottle. Gentle in action and positive in effect, it regulates the bowels in an easy, natural way, without griping or other discomfort, and is the ideal family laxative. Get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and keep it in the house. Use it occasionally and you will find you can eat almost anything you like without fear of consequences. A trial bottle can be obtained free of charge by writing to Dr. W. B. Caldwell, 410 Washington St., Monticello, Illinois.

KNIGHTS OF COLUMBUS
BOWLING LEAGUE

The opening of the Knights of Columbus bowling league will take place one week from tonight, instead of to-night as previously arranged. The committee in charge of the tournament is headed by Edward J. Slattery, Jr., and he and his assistants have been working hard in order to make the coming contest a big success.

The makeup of the teams is as follows:

Team 1—Capt. R. O'Brien, Moloney, Morris, Guthrie, Donahue, J. Slattery, Costello, D. Martin.

Team 2—Capt. P. Connean, J. Queenan, Connors, C. Rodgers, Vaughn, Green, Dr. Walker, W. Connolly.

Team 3—Capt. Savage, Briggs, Nevin, A. Rogers, Walsh, McHugh, Baxter, Stapleton.

Team 4—Capt. Donohoe, Callahan, Dr. Roughan, Brennan, Kelley, Sullivan, D. O'Brien, Gargan.

Team 5—Capt. Cox, J. Molloy, L. Queenan, Smith, P. Noonan, A. Molloy, Groves.

Team 6—Capt. Slattery, O'Neill, McNulty, O'Malley, Moloney, and Linnahan, J. Rourke, P. McLaughlin.

Team 7—Capt. Murphy, M. Connean, Handley, Dr. Gaffney, Fitzgerald, Molloy, F. Kelly, J. Slattery.

Team 8—Capt. O'Dea, J. Noonan, Hart, Dr. Collins, Harley, Hennessy, J. White, J. O'Brien.

FORMAL OPENING OF BOWLING SEASON IN LOWELL TOMORROW EVENING

The formal opening of bowling in this city will take place tomorrow night when the first games in the City Bowling league will be played. This is the big league of the city, the one in which all the stellar lights of the duck pins participate, and this season there will be ten teams in the league, namely:

Jewel alleys, White Way alleys, Kimballs, Merrimack alleys, Crescent alleys, Highland alleys, Spindle alleys, Quinns, Quinns Co. The Kimballs will represent Kittredge's alleys, and the Quinns Co. will represent Boyd's alleys. Officers of the league: J. Slattery, president; Fred M. Moore, treasurer.

The teams will bowl for the city championship title, also substantial prizes. For the higher number of points scored, watch for teams valued at \$50 will be given by Mr. Kimball. Team cash prizes will be awarded as follows: Second highest number of points, \$20; third highest, \$10; fourth highest, \$5; fifth highest, \$2; sixth highest, \$1; high three-string total, \$7; second three-string total, \$4; high single, \$7; second high single, \$4. BIG DEMAND FOR FIGHT TICKETS

The advance demand for reservations for the Billy Miske-Kid Norfolk battle at the Boston Arena Tuesday night indicates a record-breaking crowd. Fight fans are strongest for heavyweight fighters, particularly when they have a lot of class. As both of the contestants in this battle are of the sensational kind, the club looks for the greatest crowd that has jammed the arena.

Boston fans look to Miske to check the short but wonderful career of the negro fighter, Billy is a tough customer with the back of a man on either hand and the speed of a lightweight. He just loves to fight at top speed and if he can induce the colored boy to mix it, there will be some hurricane exchanges.

The one big, bright mark in Norfolk's record is his defeat of Sam McVey. Sam was a very tough customer. He beat Sam Lantieri, who later was at the height of his career. According to the stories from Panama, Norfolk handed out one blow to McVey. Then Leo Flynn brought him to New York. Up around Leicester, Norfolk was a wonderful attraction. He was the head-line attraction in five shows in seven weeks and won every one of his fights, including a kayo over a fellow fighter. Norfolk is very fast and clever. He weighs about 190 pounds and is built like an ox.

Miske is a natural fighter. He has licked every heavyweight of note since he has climbed into the same ring with him. Jack Dillon, Battling

NEBES READY TO MEET WEYMOUTH RACER

Albert Nebes, the local roller skater, accepts the challenge of Fred Connors of Weymouth, who hurled a defy at the local hero through the columns of the Courier-Citizen, the other day. Connors said he raced Nebes last summer, the agreement being for a series of three tests. Nebes won one, Connors won one, and the third race was not staged, according to Connors. If it was in the race, Connors for the championship of the east and a substantial purse, Connors says he will be on deck, and if Nebes is not willing, Connors will claim the eastern championship anyway. Mr. Nebes writes:

In answer to the challenge of Mr. Connors, I wish to say that I am now willing to race him but will not skate for the title of the eastern championship unless Mr. Connors agrees to skate me the same distance and for the same amount of side wages as when I won the eastern championship from Willie Blackburn of New York two years ago. If he does not care to do that, then I will give him a chance to show what he can do in a race with me, but unless he agrees to the above terms, we will not skate in the championship line. I had to skate Blackburn a five-mile and a 20-mile, the 20 to be split up into two 10-mile races, also I had to put up \$200 as a side wage, and I think it is just as fair to ask Mr. Connors to do the same. If he does not like this proposition, then I'll skate him a series of a straight three, five, ten miles in any rink, any time, and I think it is a fair proposition. Champion Roller Skater of the East.

BASKETBALL ASSOCIATION

Basketball enthusiasts are promised some good sport this fall and winter. The Lowell Basketball Association has been formed with Cecil P. Dodge, president; Henry J. Sullivan, secretary; and Jeremiah P. Murphy, treasurer. As indicated by the name, the organization will promote basketball, and will have a team made up of local and out-of-town stars. The first game, according to present plans, will be played Oct. 31, at Associate hall.

SHOOTING SEASON

BOSTON, Oct. 15.—The Massachusetts hunting season begins next month.

Sportsmen who love the upland woods and covers, the thrill and skill of bagging the thundering partridge, the feathered chain-lightning of the woodcock in flight, the quail, or the brush-running pheasant, will have to wait until Nov. 1, this year before they may legally tote their greasy-pollished old shotguns out into the fields and feel that familiar tug against their shoulder as they pull the trigger on some hard-bitten bunch of fowls.

AGED FARMER ENDS LIFE

RUMFORD, Me., Oct. 15.—Napoleon Jackson, a farmer aged 80, committed suicide near Rumford Centre yesterday afternoon by lying down in a fire he had built in the woods and shooting himself in the head with a shotgun.

Smoke from the fire attracted the attention of two wood cutters in camp nearby, and they found the body.

Chief of Police J. A. Dennis and Medical Examiner W. T. Rowe were immediately summoned and decided it was suicide. Jackson had passed most of his life in Rumford. He leaves his wife and five children.

LOCAL PASTOR PREACHES STRONG WAR SERMON

“Efficient Patriotism” was Rev. A. R. Huxsey's sermon, subject at the Unitarian church Sunday morning, and it proved a strong war sermon. It was an appeal to cut extravagance, to do kind things for the soldiers from Ayer, to buy Liberty bonds and to make Lowell “dry” so long as the war shall last. He said in part:

This country has witnessed an outpouring of remarkable patriotic fervor during the past few months, and wholly unexpected things have been accomplished without blare of trumpets or bombard. But there are many still who, while professing patriotism outwardly, are not patriots in heart or in daily life. One cannot be a citizen unless his habits of thought, his daily conduct, his ideals, even his investments, are free from spot or blemish. In other words, patriotism must be efficient.

Many, indeed, have consecrated themselves to their country and stand ready to give their all to advance the cause of human freedom. Yet there are also many who are unwilling to do their full duty to whom the war is still a side issue. Their wealth,

Their culture, their opportunities have not yet been reached by the compelling hand. Underneath a superficially earnest patriotism they are living to self as much as in past years. Among such there is little to show that luxury is decreasing. With business good, the old evil spirit of selfish materialism has much to feed upon. To such the war is not yet a reality. The tragedy of war is more than balanced by the chances for multiplying creature-comforts that go with it. While many are merely careless and indifferent, others are accumulating fortunes by forcing up the prices of food and fuel, content that the poor shall suffer so long as their own gains are assured. Such profiteering, wrong as it is, is in the case of the profiteer, which as the apostle says “is toward the right of God.”

In what practical way can we make our patriotism efficient? By meeting the universal need in reasonable ways. We can live more simply. What Mr. Hoover and his food commission ask of us is what our conscience ought long ago to have made plain. We ought to accept it as a matter of course that we cut down our food consumption and do away with superfluities, not only in what we eat, but in what we drink and smoke, and in what we put on. Simplifying your pleasures, free yourself from the possession of frivolity. Conserve your possessions. Don't live as you have always lived, seeking every indulgence, but cultivate that simplicity which as the apostle says “is toward the right of God.”

Again, buy a Liberty bond. For years we have taken much and given little, but now the time has come when for the priceless bond of liberty we must pay, pay, pay! Through taxes, part of this payment must be made without prospect of monetary return. But in the case of the bonds we, the people, are offered a chance to lend our money, at interest, to our

a surgeon stationed at the Manor War hospital, Epsom, Surrey, Eng., as first lieutenant, M.O.R.C., United States Army, writes home as follows:

“The hospital has 1200. This building was once the residence of Lord Baltimore, colonel of Maryland. The soldiers here are very confident that they are winning, although, of course, it is not yet over. The Canadians are prisoners. They take but few prisoners.

“And, by the way, the story of the Hun crucifying a Canadian sergeant is correct. I know a man who was there and saw it. And that is why the Canadians take few prisoners.

“If our troops go on with the same spirit; if we can get airships enough to raid the zone of the interior, as the Germans have done in London; if they are treated to the sight of dismembered little boys and girls, and of women and children running through the streets in their night clothes, as some of my friends in London have become familiar with them—then the Germans will wilt. The Germans are no longer a civilized people, and must be fought as Weyrhaeuser fought the Indians. This is no war against a noble foe; it is war against cunning savages. There should be no talk of peace until they are destroyed or, repeat, if

WAR TO BE DECIDED BY NATION'S SPIRIT

BOSTON, Oct. 15.—"Victory is ultimately won, not by bravery on the field but by the spirit of the nation behind it," said Dean Rousmaniere last evening in his sermon on "The Spirit of the Nation" at the Cathedral Church of St. Paul.

Continuing he said: "This is not belittling the bravery of our troops, but the bravery of the troops depends on the spirit we show. The spirit of this nation was read by the French people who thronged the streets of France to greet our boys, who bore for the first time the American flag in a conflict on European soil. The spirit of America is written in every field of that banner.

"Our spirit speaks through the flag, not as a strip of bunting or as a history of the country. Our flags speak to us plainly of the spirit of the nation on the field that we might enjoy liberty, freedom and justice; that is why our banners are enshrined at our altars.

"Our flag represented to the allies the courage of this peace-loving, war-hating nation, which realized full well the terror and destruction in the wake of war, yet faced determinedly its duty in a crisis.

"It depends on you how our men act at the front; they will be courageous if they can feel your courage in a message of good cheer. Today amid the awful darkness of war our men see the light of victory in the ideals of America, ideals that stand for the eternal principles of liberty, justice and freedom to all.

"The German emperor says that God is on his side. It is not a question which side God is with; our question is, 'Are we on the side of God?' So far as we can see we believe that these principles are the word of God, and we are fighting to uphold it. It is our humble endeavor to keep our eyes open to the eternal will, and walk in obedience to it.

"That is the spirit of this nation, that prompts the message we send to our boys: Be ye courageous, keep faith with the Unseen, and cherish a humble reverence and dependence upon God."

FAREWELL BANQUET TO FORMER MAN CARL LOVEJOY AT THE WAVERLY HOTEL

An enjoyable banquet was held at the Waverly hotel Saturday night, the occasion being the gathering of former employees of the assembling department of the Newton Manufacturing company to bid farewell to former Foreman Carl Lovejoy. The toastmaster of the evening was George Powers.

An excellent menu was discussed after which Toastmaster Powers made a timely address on the reason for the gathering and introduced Mr. Lovejoy, who responded.

An informal musical program was then given, with the following taking part in songs: J. Goggin, P. Cummings, J. Dubec, T. Brennan, J. Neeson and R. Greene, and in recitations, G. Keadar, R. McGill, N. Breton, A. Couture and A. Anderson, and in violin solos, Peter Marchion. The accompanist of the evening was Robert Alexander, and to the strain of "And Long Live" the party broke up.

TRADING WITH ENEMY ACT PUT INTO FORCE

WASHINGTON, Oct. 15.—Broad war powers conferred upon the president by the trading with the enemy act were put into operation under an executive order issued last night delegating the authority under the law to various government departments and to a newly created war trade board.

This trade board is composed of the members of the experts administrative board which is replaced, with the addition of a representative of the treasury department.

It will continue to license exports and will exercise a similar control over imports as soon as the president proclaims, under authority of the trading with the enemy act, the articles to be so restricted.

Trading or commercial dealings of any nature with any enemy country or agent in this country or abroad is forbidden, except under license of the war trade board, which also is authorized to license enemy or "ally of enemy" companies doing business in the United States, except in the case of companies whose supervision is entrusted to the treasury.

Censorship of mails, cables, radio and telegraph messages passing out of the United States is placed in the hands of a censorship board, consisting of representatives of the war, navy and post-office departments, the war trade board and of George Creel, chairman of the committee on public information.

To the treasury is assigned the regulation of transactions in foreign exchange and exportation of gold or silver coin under license, and enforcement of the law's provision against transmission to the enemy of information by any means other than regular mails.

The treasury also is authorized to license insurance or reinsurance companies of the enemy or ally of the enemy doing business within the United States.

Regulation of the use of enemy-owned or controlled patents for the war and of the granting or publication of patents containing information valuable to the enemy, is given to the federal trade commission.

Foreign Language Newspapers

The postmaster general is entrusted with supervision over and licensing of foreign language newspapers. In anticipation of this authority, Postmaster General Burleson has been receiving applications for licenses, and will begin issuing them before Tuesday, Oct. 16, the date the provision of the law becomes effective.

All papers, except those granted licenses, are required under penalty to file with their local postmasters before publication true translations of all matter relating to the United States government or the governments of any other nations at war. The same section of the law makes it unlawful to circulate in any form matter made unavailable by the espionage act.

The president's order defines the powers of the alien property custodian to act as trustee for all enemy property within the United States, or to issue licenses exempting enemy companies from his supervision. An appointment for this position will be made soon.

The New War Trade Board

The secretary of state is empowered to license the transportation of commodities to or from the United States through the existing passport means.

The secretary of commerce will retain his present authority to review the decisions of customs collectors refusing clearances to vessels carrying cargoes to violation of the trading with the enemy act.

The new war trade board is to consist of Vance C. McCormick, chairman, representing the secretary of state; Dr. Albert B. Taylor, representing the secretary of agriculture; Thomas D. Jones, representing the secretary of commerce; Beaver White, representing the food administrator; Frank C. Johnson, representing the shipping board, and a representative of the secretary of the treasury, yet to be named. All but the treasury representative are members of the experts administrative board, whose work hereafter will be done by the bureau of exports of the war trade board.

Advisory Council Formed

The name of the present exports council is changed to war trade council, and the secretary of the treasury and Chairman Hurley of the shipping board added to its membership, the secretaries of state, agriculture and commerce and the food administrator. This body will act in advisory capacity to the president and the war trade board.

The president's order vests in the war trade board power to license trade "directly or indirectly with, to or from, for, or on account of, or on behalf of, for the benefit of any person, or knowledge or reasonable cause to believe that such other person is an enemy or ally of enemy, or is conducting, directly or indirectly, or on account of, or on behalf of, or for the benefit of, an enemy or ally of enemy."

With consent of the board may agents of enemy companies do business in the United States after Nov. 5. Enemy companies also may not change the names they used at the beginning of the war without special license.

Regulation of Financial Matters

See, McAdoo is vested by the president with—and is expected to turn over to the federal reserve board—the executive administration of any investigation, regulation or prohibition of any transaction in foreign exchange, export or re-exportation of gold or silver coin, or bullion or currency, transfers of funds in any form (other than credit) relating solely to transactions to be executed wholly within the United States and transfers of evidence of indebtedness or of the ownership of property between the United States or any foreign country, or between the residents of one or more foreign countries, by any person within the United States.

The reserve board already exercises virtual control over gold and silver exports.

The vested authority of the secretary of the treasury to prevent transmission of information to an enemy, either to or from the United States, will be exercised by the secret service. The secretary may permit this transmission when he wishes.

Left to McAdoo's Discretion

"I further authorize the secretary of the treasury," says the president in his order, "to grant a license under such terms and conditions as are not inconsistent with law or to withhold or refuse the same to any 'enemy' or 'ally of enemy' insurance or reinsurance company doing business within the United States through an agency or branch office or otherwise, which shall have application within 30 days of Oct. 16, 1917" (the date the act was approved).

The censorship board is entrusted with the "supervision of communication by mail, cable, radio or other means of transmission passing between the United States and any foreign country from time to time specified by the president, or carried by any vessel, or other

means of transporting, touching at any place or territory of the United States and bound to or from any foreign country."

Control of Enemy Property

"Among the most important and far-reaching of the provisions of the enemy act," says an official statement explaining the law, "are those dealing with the taking over by this government of the custody and control of enemy property within the United States."

The property included by these provisions is that which is located in the United States and belongs to any person or corporation that is an enemy or ally of enemy within the definitions of the act referred to above, except those licensed to continue to do business in the United States.

Class IV. Visitors who shall have special knowledge of settling laws to treat needy families and adults.

Class I. Applicants for this class of investigation as they apply to habits, youths and adults, and they should have some knowledge of case work.

Class II. Applicants for this class of investigation, although they will be examined particularly on the placing out and supervision of babies and children under self-supporting age, they should have some knowledge of investigation, although they will be examined particularly on the placing out and supervision of babies and children under self-supporting age. They should have some knowledge of the application, as well as a knowledge of child life through the age of 12 years from the physiological, psychological, and moral points of view; also practical experience in case work dealing with children up to 12 years of age, including babies. It is desirable that applicants in Class II, who may be called upon to work with babies should have had experience as nurses.

Class III-A. Only men are eligible to apply for this division. The requirements are that applicants should have a knowledge of the settlement laws of Massachusetts, knowledge of case work with needy families and adults, and a knowledge of investigation.

Class III-B. Only women are eligible to apply for this division. The requirements are that applicants should have a knowledge of the settlement laws of Massachusetts, knowledge of case work with needy families and adults, and a knowledge of investigation.

Classes I, II, and IV. are open to both men and women.

Applicants are to elect for examination some one of the following: the writing of a letter or report; arithmetic; verbal orders, handwriting and accuracy tests; also special questions chiefly in the form of cases aimed to test out the applicant's judgment, knowledge of law and procedure, and ability to handle efficiently the details of the work connected with the class for which she elects to take the examination.

Successful applicants may be subjected to a physical examination.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

Persons desiring to take this examination may secure application blanks by applying, in person or by letter, at the office of the Massachusetts civil service commission, Rooms 151-153, State House, Boston, Mass.

Applications may be filed at any time but in order that a person may be entitled to appear at this examination the application blank must be filed out and received to be placed on file in the office of the Massachusetts civil service commission on or before Oct. 16, 1917.

The United States civil service commission announces that in view of the difficulty in securing the needs of the service for stenographers and typewriters, subjects of countries allied with the United States will be admitted to these examinations, provided they have been resident in the United States for a period of at least three years preceding the date of examination. Such persons may not be certified for appointment, however, so long as there are United States citizens on the eligible lists.

An "enemy" or "ally of enemy" doing business with the United States before Nov. 5 may apply for a license to continue to do business in the United States.

The main application of these provisions, the official statement says, "will be to German, or ally-of-German, concerns, which are doing business in the United States through branch houses or agents, such as insurance or reinsurance companies. Such an enemy or ally of enemy may continue to do business within the United States until such applications are acted upon."

The license provisions of the act do not apply to Germans, Austrians, Turks or Bulgarians doing business in the United States and having no business connections with the United States, or to persons in Germany or her allied countries. Thus thousands of alien enemies having small business establishments in the United States need not apply for a license to continue operation unless they have dealings with companies having connections in enemy or ally-of-enemy territory.

The act authorizes the president to declare all these alien enemies subject to license regulations, but he has not extended the provision to these persons by his order.

RECEPTION TO WESTFORD BOYS

The members of Company II, State Guard, and the public safety committee of Westford are giving a reception to the Westford boys who are now serving Uncle Sam in the army or navy next Saturday evening. The affair, which will be conducted in the town hall, will be in the form of a supper, reception and dancing party.

Lemons Do Whiten!

Try This on Face, Neck, Arms, Hands

The lemon juice massage indulged in once or twice each day means a bright, clear, and healthy skin, but what of the splendid results? A skin bleached beautifully white, a complexion with the bloom of a peach, a softening of those lines of care, in fact, a skin eloquent of nature's purity and hands white, soft and full of charm.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and when mixed with cream, or with a little oil, it is a perfect skin bleach. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of cream, and then shake well and use as a whole quarter pint of the cream will remain pure and fresh for months. When massaged daily into the face, neck, and hands it should naturally help to whiten, clear, soothe and beautify the skin.

Any druggist will supply three ounces of cream white at very little cost and the grocer has the lemons.

PRES. WILSON APPEALS FOR LIBERTY LOAN

WASHINGTON, Oct. 15.—The administration appealed to America in a presidential proclamation published today to make the second Liberty loan even a greater success than the first, which was oversubscribed more than 50 per cent. The president's proclamation sets aside Wednesday, Oct. 24, as Liberty day and asks that patriotic celebrations be held everywhere throughout the country in the interests of the loan. A half holiday is to be granted to all employees of the federal government in all parts of the country except those whose services cannot be dispensed with, to participate in the celebrations.

"Let the result be so impressive and emphatic," the president urges, "that it will echo throughout the empire of our enemy as an index of what America intends to do to bring this war to a victorious conclusion." The wage earners of the country are urged in an appeal issued by Secretary of Labor Wilson to do their part in making the loan a success. Subscriptions continue to lag, latest official figures showing a total to date of \$335,654,900. This is only about 8 per cent. of the \$5,000,000,000 hoped for.

An appeal to the "wage-earners of the United States" to invest in the bonds was issued last night by Secretary Wilson of the department of labor. He said:

"The workers have more at stake in this conflict than any other, because it is only in a democracy that the common people can come into their own. The great privilege is not given to all of us to serve our country on the battlefield or in the trenches, but there are other ways in which we can serve and assist those who are privileged to carry our flag on the battlefields of Europe.

The impulse of sacrifice for the common good is leading the youth of our country into the trenches in defense of liberty, humanity and democracy. To those of us who remain at home to till the soil, harvest the crops, man the factories, mines and mills, the way is open for additional service. We, too, must make sacrifices. The men who go forth to do battle in the field must be equipped and sustained. Funds must be forthcoming to furnish the food, the firearms and other supplies for the fighting forces of the nation. Finances for the purchase must be secured immediately from the sale of bonds. The workers can help by contributing their mite."

President Wilson's Proclamation
BY THE PRESIDENT OF THE UNITED STATES OF AMERICA
A PROCLAMATION

"The second Liberty loan gives the people of the United States another opportunity to lend their funds to their government to sustain their country at war. The might of the United States is being mobilized and organized to strike a mortal blow at autocracy in Europe."

THE OLD RELIABLE
BLOOD BUILDER

Still retains its supremacy. People still take blood's Sarsaparilla because it is an old family friend, has proved its merit to three generations—in purified blood, expelled humors, restored appetite, relieved rheumatism, banished neural feelings.

It long ago became recognized as the standard blood purifier and general tonic. It originated in a Boston physician's successful prescription, and comprises medicinal roots, herbs, barks and berries such as are often prescribed for ailments of the blood, stomach, liver and kidneys. Buy it in the same style package your mother bought it in—same fine appearance, same pleasant taste, same certainty of good results.

Chalfoux's
WHY NOT TURN YOUR HOUSE INTO A HOME?
Now that the cool autumn weather is here it suggests many things to the housewife intent upon re-establishing her home for the fall and winter. Now is the time to buy a lamp to add to the cheer of her living room; furniture to replace some that is old and worn; and some upholstery to give a new decorative note to the rooms; pots and pans and other household articles. Now is the time to buy these things. Make your home as comfortable as possible. Undoubtedly someone in your family has left for a training camp or joined some branch of military service. Others will probably go before the war is over. Keep your home comfortable and when the boys go away they will always remember their home as the dearest place on earth.

defense of outraged American rights and of the cause of liberty. Millions of dollars are required to arm, feed and clothe the brave men who are going forth to fight our country's battles and to assist the nations with whom we are making common cause against a common foe. To subscribe to the Liberty loan is to perform a service of patriotism.

"Now, therefore, I, Woodrow Wilson, president of the United States of America, do appoint Wednesday, the 24th day of October, as Liberty day, and urge and advise the people to assemble in their respective communities and pledge to one another and to the government that represents them the fullest measure of financial support."

"On the afternoon of that day I request that patriotic meetings be held in every city, town and hamlet throughout the land, under the general direction of the secretary of the treasury and the immediate direction of the Liberty loan committees which have been organized by the federal reserve banks to witness whereof I herewith set my hand and caused the seal of the United States to be affixed."

"Done in the District of Columbia, this 15th day of October, in the year of Our Lord, one thousand nine hundred seventeen, and of the independence of the United States of America the one hundred and forty-second."

POLO GROUNDS, New York, Oct. 15.—The Chicago American league pennant winners, marched triumphantly off with the World's Series championship today by defeating the New York Giants, 4 to 2. Red Faber pitched a superb game for his Chicago mates. Thirty-three thousand townpeople saw the Giants' defensive blow up in the fifth inning which with a couple of sharp hits put the Sox in the lead and they were never headed. The Giants garnered their two runs on a couple of passes and a three fly punch by Herzog.

A balmy morning turned showery toward game time. A smoky sun was making several brilliant stops and the relay work of Fletcher and Herzog

plined. John Collins up: Judge Hylan, democratic candidate for mayor, threw out the ball. John Collins up: Strike one. Felsch struck out. Fletcher came behind Benton and took Collins' hip and threw him out. McMullen up: Ball one. McMullen sent up a weak shot. Eddie Collins up: Strike one. The stands booed Eddie Collins to the echo. Strike one. Collins singled sharply over second. Jackson up: Foul strike one. Herzog took Jackson's slow roller and tossed him out. No runs, one hit, no errors.

Burns up: Eddie Collins threw out Burns at first. Burns hit the first ball pitched. Herzog up: Strike one. Ball one. Herzog shot a single over McMullen's head, the stands breaking up to a cheer. Kauff up: Foul strike one. Strike two. Ball one. Kauff struck out. Fletcher threw out Kauff on a bunt. Zimmerman up: Ball one. Zimmerman sent a long drive right into Jackson's hands. No runs, one hit, no errors.

Score: Chicago 0, New York 0.

Second Inning
Felsch up: Strike one. Ball one. Ball two. Strike two. Ball three. Felsch struck out, failing to offer at the third strike. Gandil up: Gandil punched a single over the middle bag. Weaver up: Herzog threw out Weaver. Gandil moving to second. Schalk up: Strike one. Zimmerman threw out Schalk on a bunt. A nice play on the Chicago catcher's grounder. No runs, one hit, no errors.

Third Inning
Faber up: Strike one. Ball one. Ball two. Strike two. Ball three. Faber struck out. John Collins up: Foul strike one. John Collins popped to Herzog. McMullen up: Benton was employing a quick drop ball which he kept around the batter's knees. Strike one. Ball one. Strike two. Foul. McMullen cuffed. It was Benton's third strike out and the crowd cheered him. No runs, no hits, no errors.

Fourth Inning
Faber up: Ball one. Ball two. Strike one. Foul strike two. Foul. Faber struck out. John Collins up: Foul strike one. John Collins popped to Herzog. McMullen up: Benton was employing a quick drop ball which he kept around the batter's knees. Strike one. Ball one. Strike two. Foul. McMullen cuffed. It was Benton's third strike out and the crowd cheered him. No runs, no hits, no errors.

Fifth Inning
McMullen up: Ball one. Ball two. Strike one. Ball three. McMullen sent a high fly to John Collins. Felsch up: Felsch got a hit off McMullen's glove. The ball bounced to Weaver, who nearly threw the New York short stop out by a line shot. Felsch struck out. Robertson sent out a long fly to Felsch. No runs, one hit, no errors.

Sixth Inning
Perritt went in the box for New York. Felsch up: Ball one. Ball two. Strike one. Ball three. Felsch walked. Perritt lost his man trying to work the corners of the plate. Gandil up: Strike one. Felsch went out stealing. Rariden to Fletcher. Strike

two. Gandil struck out on three pitched balls. Weaver up: Strike one. Ball one. Ball two. Ball three. Herzog threw out Weaver. No runs, no hits, no errors.

Seventh Inning
Schalk up: Ball one. Strike one. Ball two. Ball three. Schalk worked Perritt for a base on balls. Faber up: Ball one. Foul strike one. Foul strike two. Faber struck out. Leibold up: Foul strike one. Leibold popped to Herzog who dropped the ball and then ran over to first, touching both. Schalk who was standing on the bag and the bag as well. Leibold was declared out and Schalk was ruled as being safe. McMullen up: Ball one. Strike one. Foul strike two. McMullen struck out. No runs, no hits, no errors.

Eighth Inning
It was announced that the official attendance was 33,000. Eddie Collins up: Strike one. Collins went out to Holke unassisted. Jackson up: Foul strike one. Ball one. Jackson sent a hit into right field for a base. Felsch up: Ball one. Strike two. Foul. Felsch struck out. Gandil up: Strike one. Strike two. Foul. Foul. Kauff made a corking catch of Gandil's long fly. No runs, one hit, no errors.

Ninth Inning
Weaver up: Foul strike one. Ball one. Weaver got a single to the left field. Schalk up: Ball one. Ball two. Strike one. Schalk fouled to Zimmerman. Faber up: On the hit and run play, Faber bunted. Weaver going to second. Faber's bunt was a sacrifice, and he was thrown out. Perritt to Holke.

GIVE CUT RATES FOR VERMONT NO SLACKER SOLDIERS' INSURANCE IN ENLISTMENTS

WASHINGTON, Oct. 15.—Samples of the insurance policy which the government will write for its soldiers and sailors were made public last night by the war-risk insurance bureau of the treasury department. Plans for placing the policies into effect immediately will be outlined here next Tuesday at a conference of treasury officials with representatives of the navy and officers and enlisted men at the 32 cantonments.

Details of the policy disclose that risks will be written upon the lives of men and women between the ages of 15 and 55 in all branches of the army, navy, marine corps, coast guard, naval reserve, National Naval Volunteers, nurses, and any other branches of the United States service serving with the army and navy. Announcement was made also that rates at ages higher or lower will be given upon request.

Premiums, computed on a monthly basis, vary between 62 cents per \$100 at age 15 to \$3.85 per \$100 at age 55. Between 21 and 31 years, the following monthly premiums will be charged per \$100 of insurance (the limit being \$10,000):

Between 21 and 25, inclusive, 65 cents; 26 and 27, 66 cents; 28 and 29, 67 cents; 30 and 31, 68 cents; 32 and 33, 69 cents; 34 and 35, 70 cents; 36 and 37, 71 cents; 38 and 39, 72 cents; 40 and 41, 73 cents; 42 and 43, 74 cents; 44 and 45, 75 cents; 46 and 47, 76 cents; 48 and 49, 77 cents; 50 and 51, 78 cents; 52 and 53, 79 cents; 54 and 55, 80 cents.

During periods of total disability the insurance will be paid, not in one lump sum, but monthly for 20 years, should the disability continue for that period. Should death occur before that time, the remainder of the policy will be paid to the beneficiary. At the age of 25, the monthly installment for the 20-year period would be \$5.75 per \$100 of insurance.

Provision is made for family allowances, for re-education of wounded and cripples, for compensation in case of death or injury without cost, and for the additional protection of insurance at very small cost.

In cases of partial disability, the amount of compensation is determined by a schedule to be based upon the extent of the impairment of earning capacity. Total disability payments are to be increased above the figures named in the policy, where the insured has dependents.

Where the injury or disease is caused by the willful misconduct of the man, the policy reads, "compensation will not be paid." The policy also provides for the payment of a bonus of \$500, no policy, however, to be less than \$1000.

Children Like To Take It

Thousands of children have worms and their parents don't know what the trouble is.

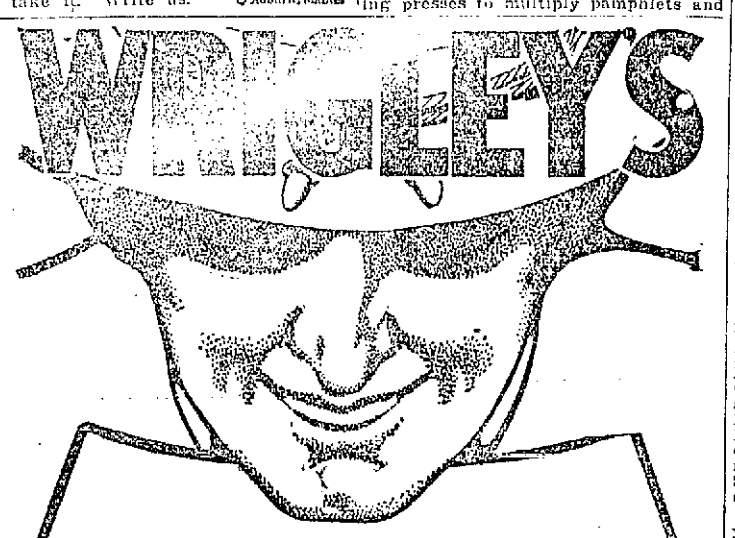

Symptoms of worms are: Deranged stomach, swollen upper lip, sour stomach, offensive breath, hard and full belly with occasional griddings and pains about the navel, pale face, loss of appetite, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red worms sticking out on tongue, starting during sleep, slow fever.

Always keep Dr. Truett's Worm Expeller on hand for such use. It is promptly effective and the nice thing about it is that children like to take it.

Mrs. H. W. Roberts of 202 Acylum Street, Flint, Michigan, wrote to us: "Have used the Expeller and as far as I know my little girl is cured of worms."

"Baby is fine and I think it was your medicine that helped her." Dr. Truett's Expeller, the family laxative and worm expeller, has been on the market more than 60 years and more and more people are using it all the time to expel worms and restore natural action of the bow.

Children like to take it. Write us. Dr. Truett's Expeller, Lowell, Maine.

TO THE GIRL HE LEFT BEHIND:

GERMANY'S PERFDY TO ITALY

In fighting a foe it is just as well to get a perfect picture of what kind of foe he is.

The trickery of Germany is pretty well known to the American people by now. But there are still some who wonder why Italy withdrew from the triple alliance and fought the Teutons, instead of lining up with them.

The fact is, Italian statesmen knew long ago the two Kaiserers were constantly abusing the terms of the alliance and making Italy pay the freight. Recently there has come to light a glaring instance.

Italy declared war on Austria in May, 1915. She did not declare war on Germany until August, 1916. Germany ostensibly took no warlike part against Italy. But early in June, 1915, Italian mine-sweepers near an Italian naval base in the Adriatic found a barrier of 12 mines. They cleared these away. A few days later they found a similar barrier in the same place. These could only have been placed by a submarine, so the Italians decided to set a watch for it.

Finally in March, 1916, an Italian mine sank the hostile submarine in comparatively shallow waters and the Italians decided to fish her up and have a look at her.

They found she was the U. C. 12, built at the Weser yards by the German firm of Dittl-Siemens-Schuckert. Its log revealed some interesting facts.

Said the commander: "After trial trip on the Weser, was towed through Kiel canal May, 1916. At Kiel landed mines to be used in Italian waters. After trials, sent in three pieces by rail to Pola, arriving June 24, 1916. Put together, I exchanged German for Austrian flag."

The log also records that the ship was employed in laying mines in Italian waters, carried rifles to an African port for the rebels against Italy, and cruised near Durazzo, seeking Italian ships. The crew all were German.

Germany at peace with us, plots to have Mexico and Japan make war upon us. Germany at peace with Italy, sends German submarines to lay mines in Italian harbors.

And still there are some pro-Germans in this country who wonder why the allies are determined to put an end to Prussianism.

FEEDING OUR ALLIES

The chances are that many Americans are puzzled every time Food Controller Hoover issues a statement urging us to cut out all waste. People are apt to think with the bountiful crops this year we should have an abundance.

But—one of the vital needs of the time is, that America should help to provision France and England. Even in normal times England does not raise enough food to feed herself. And these are far from normal times. And a large part of the food growing country of France has been temporarily taken away or reduced to a scene of irreparable ruin.

France and England need food and we should furnish it. We can, if we will use our supplies here at home with reasonable prudence.

Why is it our imperative duty to help feed our allies? Because our allies are holding the lines in France and Flanders while we make ready to take up the fight for civilization and for liberty. Only by their work, can we have the necessary time to prepare. Every battle they fight is a battle for America.

We are advancing part of the money they need to supply their armies. We must now give them food to feed both the armies and the folk back home.

The Germans and the Austrians are rapidly approaching empty stomachs. We simply can't afford to let the English and French have any starvation problems on their hands while they are doing such glorious execution on the enemy. If they keep on, there will be nothing left for the United States to do when the spring arrives.

TRANSPORTATION TO AYER

The transportation by trolley between North Chelmsford and Camp Devens is said to be so utterly bad that the Public Service Commission should give it some attention. When men enter the cars through the windows, pile on the fenders, hang from the lower steps, front and rear, and even climb upon the roofs of the cars, it is time that something were done to protect passengers and provide more cars. The Lowell and Fitchburg company is responsible for these conditions and apparently makes no attempt to meet the emergency by increasing the number of cars. It is surprising that no serious accidents have happened as a result of overloading the cars; but some of the passengers have been nearly squeezed to death. While the schedule time between Lowell and Ayer is an hour and ten minutes, it is frequently extended at least an hour, especially on Sundays and Saturdays as a result of overcrowding. This is not surprising when several minutes are necessary to extricate a passenger who wants to get off a crowded car. It is time something were done to remedy this disgraceful state of affairs.

SEC. LANSING'S DISCLOSURES

Secretary Lansing is doing good work in exposing some of the secret plotters who were the tools of Germany in carrying on secret outrages calculated to help Germany and injure England. His disclosures prove that men who were lauded to the sky as patriots were lending their influence and counsel to promote sabotage and worse outrages in the United States. The American people have still to learn the depths of infamy to which German intrigue descended in plotting for the domination of the world. Fortunately the vigilance of the department of justice at Washington penetrated their designs and as a result these were frustrated. In the minds of the German rulers, however, it was all settled that the United States should be paralyzed by secret cabals before the people became aware of Germany's intention. She has not made good her schemes either on this side of the Atlantic or on the other.

RESTRICTIONS ON PROPERTY

Dealers in real estate will be interested in a recent decision of the supreme court of this state which annuls an act of the legislature removing restrictions on property where the environment seemed to make them undesirable or impracticable. A piece of property in the Back Bay was sold under restrictions that forbade its use for stables, apartment houses, manufacturing or foundry purposes. The legislature in 1916 passed an act for the equitable removal of restrictions. The land court then granted a clear title to the property in question and the matter, having been carried to the higher court, elicited the decision that such an act would be a violation of articles 1 and 10 of the bill of rights. Thus restrictions stand in law except under the right of eminent domain.

THE LUSITANIA

It now turns out that German agents had placed no less than nine explosive bombs on board the Lusitania, before she left New York harbor and it's a question whether the notice from the German embassy warning intending passengers not to sail on the vessel, referred to this danger or to that which actually befell her. The bombs were timed to explode and sink the ship somewhere near the Irish coast. Some of them may have exploded and helped to send the vessel to the bottom.

This is another revelation of German treachery carried out under the direction of Count Bernstorff.

THE OPEN SHOP

Interest centres in the demand of the Building Trades union of Boston that the Fore River Shipbuilding Corporation at Squantum shall adopt the closed shop in the construction of its new \$2,000,000 naval plant. There has been considerable squabbling over the matter and now a delegation has gone to Secretary Daniels in reference to it. No government body can legally adopt the closed shop principle. The Fore River company is willing to comply with union wage and hour rules but insists upon the open shop.

NO REFLECTION ON LOWELL

Let it be understood that the precautions taken by Mayor O'Donnell for the protection of the soldiers coming to our city does not in any way reflect upon the morals of our city. Lowell is as clean in this respect as any city in the country and the appointment of a vice squad is simply to prevent the "camp followers" from loitering here. The war department is insistent upon radical measures and the adoption of the precautions suggested is no reflection upon our city or its good name.

If the soldiers have to wait for the knit sweaters a great many of them will feel the chill winds of March without the coveted garments. But why does not the government supply machine made sweaters in the meantime?

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without pain, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound and with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

Much more work might be done in this world if it weren't so easy to lie down and take a nap after dinner, or go to the moving pictures.

Some Cape Cod Names

Young Nicola was a little under the weather while the D'Amascos were summering in Provincetown and Nicola, the papa, was hard put to select a physician for him. The nearest was J. Coffin. A little farther on was J. Fitts. He finally selected P. Cast, hoping the first name wasn't plaster. Let us in passing add an ad. for the town photographer, W. Stiff. Philadelphia Ledger.

Mistakes Officer For a Porter

Resplendent and trim in his uniform, Lieut. Commander J. S. Willis of the navy stopped for a moment in front of the St. Francis hotel in San Francisco. Willis is in time expert for the navy there, having occupied the

same position in civil life for the chamber of commerce before the war. His mind, dwelling on "rates" and "classifications" was brought up with a sudden jerk when a clear voice, saturated with authority, sounded close to his ear:

"Order me a taxi."

Willis turned and saw a vision in white, a dainty miss of 20 or so, and she looked him over coolly.

With just a glimmer of a smile about his lips Willis said: "Certainly, madame," and promptly filled the order.

That and nothing more. Without even thanking Willis, the radiant lassie went her way.

A Private Hermit.
The profession of hermit is profitable. Little Henry Atkins left his parents' home at Thurman park, Everett, two weeks ago and reappeared in Malden square Sunday afternoon with a bicycle. He had no bicycle when he left home.

He was trying to sell it. It was a nice bicycle, but he was not at all a nice little boy. The nickel on the handlebars shone in the sun, but Henry's boots did not. His hair was unkempt, his clothes ragged. The queer

contrasts attracted Deputy Inspector John H. Aylward of the Malden police. "Where did you get that bicycle?"

"Borrowed," said Henry. I'm a hermit."

So to the police station he went. The inspector spent an hour in questioning him, learned his name and his parents' address, and even the location of the hermitage, but failed to discover how Henry came by the bicycle. He took Henry home, the boy admitting that he had no fault to find with his parents or their home, but expressing a preference for hermiting.

There's your nice new suit you want to wear in the street, said the inspector, said Henry.

"In the hermitage," said Henry. He led the officer to a clump of trees and bushes off Lynn street, near Holy Cross cemetery. Brushing aside a heap of grass he disclosed a wooden door, flat on the ground. The officer lifted the door and Henry disappeared into a hole underneath.

First he brought out his new suit and a tarpaulin cover that he had used on rainy days and nights. Then he dived into the hole again and brought out a barrel. On it were painted the words "Keep out, and underneath was a stack of cross-bones. He explained that when he was at home he hoisted the Jolly Roger. For he was a pirate, a hermit.

The hole was too small to hold the officer, but in it Henry had slept for 12 nights. Sunday night he slept in a nice warm bed at his regular home.

He Is Still Teaching.
The question of just how fascinating a music teacher can become to a young girl of 17 was threshed out in Yorkville court, New York, before Magistrate Kotel and may be threshed out somewhere else later if the participants feel each other.

The innocent 17-year-old cause is Miss Emma Garofala, a daughter of the Philip Garofala of No. 413 Fifth street. With her sister she has been taking music lessons from Gaetano Annunzio, the third ingredient in the music lesson of Miss Costa, 31 years old, a tailor, of No. 12 Broome street. Now that they've all made their bows up with the curtain.

Exhibit A—
I know that Mrs. Philippa Garofala sends her daughters to take lessons from a man, which I do not permit. If you do not want to have your face slashed, do not look at this family, not even in the face."

Magistrate Kotel said that since this letter left him small latitude wherein to look while giving lessons to the girls in the light of the fact that he might be able to win his vision legally, or at least to give an injunction against the enforced restriction.

Consequently he had Costa called to court, charging him with writing it. Costa denied the letter, but admitted he loved Emma and had also shared in it. He said Costa also said that Costa loved her, but exhibited little glowing. Costa, she said, had also tried to make her quit taking lessons.

On this and other pertinent facts Magistrate Kotel placed the young couple in the hands of Judge Alexander. Mr. Annunzio is still looking the Garofala girls square in the face as he goes from place to place and once that five-fingered exercise in G flat.

Autumn Leaves.
The autumn leaves are brilliant, now with tints of yellow, brown, and red. The sun gives in splendid show. A leaf of glory overhead. And the leaves are so soft and shy. And the leaves are so soft and shy. And the leaves are so soft and shy.

Has found a way to press the leaves—she is thinking of her belt.

But we shall see the glory fade.

The leaves, all shriveled, dry, and brown.

Will drop their hold upon the trees, and, rustling, softly, flutter down. Will fall and breathe the happiness.

Will that mean all lovers' sleeves, because there is no more chance to give?

Y.M.C.A. WILL BE FLAG TO DENOTE NUMBER OF MEMBERS IN U.S. SERVICE

The Young Men's Catholic Institute will soon purchase a service flag to denote the number of its members who are in the national service. The flag will be hung from the roof of the institute's building in Stockpole street.

This decision was reached at a meeting held yesterday morning, at which a number of other important business matters were transacted. Vice President Carey was in the chair and later the reports were heard from the finance and auditing committees.

A vote was taken to hold the next month in the city of the departed members of the organization. A committee was also elected to draw up a roll of honor of the members of the society who are in the country's service at present and to post in a conspicuous place in the building.

STUDENTS OF PHILLIPS EXETER TO RAISE FUND FOR Y.M.C.A. FUND

Students of Phillips Exeter academy pledged themselves at a meeting last night, to collect from indulging in many luxuries in order to raise \$4000 toward the Young Men's Christian association, they will try to get the money in time for Christmas, when it will be sent to Robert H. Newton, a former member of the faculty who is now serving in the U.S. army in France, and to Andrew L. Cobb, a graduate, who is doing similar work in Mesopotamia.

Frank C. Backford of Chicago, a member of Camp Grant, received \$80,000 from the U.S. government for his part when he enlisted in the army.

BIG DECREASE IN AUTO ACCIDENTS

BOSTON, Oct. 15.—There has been a decrease of 14 per cent in automobile accidents in Massachusetts this year, in spite of the fact that the number of cars registered is 32 per cent greater than last year. During the first eight months of the year, the state highway commission reports, there were 6849 in the accidents, as compared with 8019 in the corresponding period of 1916. The number resulting fatally, however, was greatly in excess of last year, the figures being 23 for 1917 and 38 for 1916. There have been fewer accidents in congested city districts and more in rural sections.

FIREMAN FOUND DEAD ON RAILROAD TRACKS NEAR SCHOOL STREET

Frank Bouvier of Marlboro, a fireman in the employ of the Boston & Maine railroad, was found dead on the railroad tracks near School street, when discovered it was thought that there might be a spark of life left and the ambulance was summoned, but an examination showed that life was extinct and he was removed to the funeral parlors of Undertakers James F. O'Donnell & Sons.

How the man met his death is unknown, but it is thought that while working on one of the engines he fell across one of the rails and the wheels of the train passed over him. The body was practically cut in two and the head was badly injured, so it is believed that death was instantaneous. Mr. Bouvier was the son of Alexander and the late Purshur Cha. Bouvier and had resided with his father in Marlboro. He leaves two brothers, Joseph and Edward Bouvier; four sisters, Mrs. John Bouvier, Mrs. Clinton and the Misses Alexander, Alice and Leonel Bouvier. He was 18 years old.

27 LUMBER JACKS BOUND FROM YARMOUTH, N. S. FOR JACKMAN, ME., DETAINED

ST. JOHN, N. B., Oct. 15.—Twenty-seven lumber jacks bound from Yarmouth, N. S., for Jackman, Me., are detained in this city, Canada, Immigration Agent J. W. GIRL SHOE SHINERS UNDER HAY

BOSTON, Oct. 15.—Mayor Curley considers that danger lurks in the substitution of girls for boys in shoe shining establishments as has been done in several such places in this city since the country entered the war. In a communication made public today which he will submit to the next meeting of the city council, the mayor says that "the usefulness of such an occupation for young girls is hardly open to argument, and it seems unnecessary to enlarge upon the possible dangers, from the standpoint of public morals, of allowing them to be so employed." He has prepared the draft of an ordinance prohibiting the employment as bootblacks of females less than 21 years of age.

HEAVY GUARD FOR STRIKE OF HORSESHOERS SLAYER OF THREE UNION AVERTED

SPRINGFIELD, Oct. 15.—Double guards were placed early yesterday morning in the room in Mercy hospital where Gallant, wanted for three murders, including the killing of his wife, Saturday, when he was surrounded by a posse in Peeling Hills, lies in a serious condition from a bullet wound self-inflicted at the time of his capture.

This precaution followed the indication that the man was trying to fake unconsciousness, which might give him a chance to make away with himself and the finding of a slipper by the hospital stairway. It was feared that the slipper belonged to a patient who left Saturday, but there was considerable uneasiness at the hospital as the attempt he made to rescue him. It was thought at first some prowler had the slipper when frightened away.

Powder marks on the face of Gallant's wife, revealed at the autopsy, clearly developed that she was shot by her husband and not the victim of an stray bullet from the posse. According to the police, Gallant also admits that he killed his wife and did the shooting in the Union street house, Springfield, Thursday, which resulted in the death of his sister-in-law, Della Rose Gallant, and her father, Clement Martin.

Martin's wife, who was also shot Thursday morning, is recovering rapidly in the hospital and will undoubtedly recover. According to the police, in his confession Gallant says he also did the shooting Thursday and that the clothes on the body of Mrs. Gallant, as well as blankets for bedding in the woods, were taken by him from a barn on the Reiney farm Thursday—this without the knowledge of the wife's parents, Mr. and Mrs. Frank Reiney.

The funeral of Mrs. Gallant will be held at Byron's undertaking rooms this city, Tuesday morning. She was 24 years old.

COUNTY COMMISSIONERS

The three county commissioners paid a visit to Lowell this morning for the purpose of conducting a regular meeting at the court house, but there was nothing doing. The commissioners arrived at the court house at 10 o'clock and waited until after 11 o'clock, but their only visitor was a newspaperman. The commission then adjourned to Cambridge without transacting any business.

BILLERICA HUSTLING TO DO ITS BIT ON THE LIBERTY LOAN SUBSCRIPTION

In order for Billerica to do its share in the Liberty loan subscription a minimum of \$110,000 must be subscribed, and accordingly the committee in charge of the campaign in the town is sparing no effort or time to bring its work to a successful end. Subscriptions are not coming in as fast as they ought and the committee fears that unless an effort is made on the part of residents at the close of the campaign Billerica may find itself in a rear row. All residents of the town are earnestly requested to do their "bit" in reaching at least the minimum of \$110,000 in subscriptions.

BRITISH-AMERICAN SOCIAL CLUB

A well attended and thoroughly enjoyable social was held under the auspices of the British-American Social club Saturday night at the home of Mr. and Mrs. George Whalley, 16 Cambridge place. William Dawson, who is about to leave for Canada in the British army, was agreeably surprised upon being presented a purse of money. Mr. Waters made the presentation with a suitable speech and Mr. Dawson thanked the members for their good wishes, after which it was voted that all members present should contribute to the evening's program. A vote of thanks was given to the host and hostess for their kindness and the meeting broke up at a late hour with a finale of "Auld Lang Syne" and "The Star Spangled Banner."

\$4 to \$7.50

BOSTON, Oct. 15.—A strike of Journeymen Horseshoers and a threatened strike of the Union, to enforce their demands for a weekly wage of \$20, was averted by the persuasive powers of its wage committee at a special meeting of the union yesterday, at which it was finally voted to accept a \$2 a week increase offered by the Master Horseshoers' association, which brings the wages of the members to \$24 a week.

The men had already balloted in favor of striking. The wage committee, who have held several conferences with representatives of the Employers' association, finally induced them to accept the compromise offer for the present.

The meeting was held in Wells Memorial building yesterday, following the report of the local wage committee that the employers had been reached by the employers, who refused to recede from their compromise offer on the ground that they could not afford to meet the full demands on account of the present high prices for steel and iron used in the industry.

The local voted to request the mayor of Boston and mayor of Cambridge and the Public Works commission of Boston to advance the wages of members employed in their respective jurisdictions to meet the new scale of \$24 a week, which becomes effective today. A committee was appointed to wait upon the executives of the Metropolitan Coal company, with the object of inducing that concern to advance the wages of horseshoers employed in their shops.

ROOKIES BEAT UP A CORPORAL AT AYER
CAMP DEVENS, Ayer, Oct. 15.—A furious battle between Frank Keegan, a former prize fighter of Bridgeport, Nicholas Costello of Waterbury, privates in H company of the 304th infantry regiment, and the corporal of the interior guard of the regiment, C. E. Grog, former bond salesman of Waterbury, occurred Saturday night and was the first serious breach of camp discipline.

Keegan and Costello face long terms of imprisonment at hard labor at the military prison at Fort Leavenworth and dishonorable discharge at the end of the term if convicted of the violation of articles of war with which they are charged. They will be tried by a general court martial board at which Maj.-Gen. Harry P. Hodges may preside. The two men are in the guard house of the 162nd infantry brigade.

Sunday Crowd Breaks Record

A greater crowd than anybody ever thought could squeeze into this town and an excitement came yesterday, urged on by warm sunshine and dry roads. Automobiles were thicker than in an automobile show. They broke down the schedule of the street railway, which could not operate the cars, with the flood of motors pouring about the Fitchburg road. The best the street cars could do during the hours while the crush continued was to run a few yards at a time, back and forth between Depot square and the main cantonment gate.

Automobile traffic proved the need of another road. It was blocked completely time after time, not a wheel for nearly half a mile moving until a little pressure was relieved from one end or the other of the road. Probably 250,000 persons were here yesterday.

The Liberty loan jumped to \$423,250 with the contributions of Saturday. Col. Maurice left last night for Washington to obtain and bring back with him the war department's detailed plan with regard to such questions as soldiers' insurance, allotment pay for dependents and compulsory savings.

The rejections signed on Friday, which were issued yesterday, total 187 men disqualified for physical imperfections. They include 118 Massachusetts men, 51 from New York, 14 from Connecticut, two from Rhode Island and two from New Hampshire.

Deaths in the Hospital

Walter J. Hensley of Danbury, a member of company I of the 304th infantry, who arrived at the cantonment in poor physical condition, died at the base hospital from pneumonia. Clifford French of Thomaston, Ct., died at the base hospital last night. John J. Grogg, a 11-year-old orphan, who came to camp from Dedham with his uncle, Charles English, a selected man, is the youngest recruit in camp. His uncle is in a serious condition at the base hospital suffering from a ruptured appendix, and his recovery is regarded as problematical.

Members of the 30th infantry, 8th battalion, depot brigade, discovered the little lad in the woods playing on a bugle. He wore a soldier's complete uniform, although of diminutive size, and saluted correctly. They brought him to Capt. Robert J. Cashland, company commander, who fed him and then took him to the brigade adjutant, Maj. Allen M. Pope. He is in turn notified. Brian, William Weigel, who called the boy before him. After the talk young John said: "There's the general." "What's his name?" "Oh, Oh—Oh, Oh," said John. They now read his name at the end of the roll every day. But his instruction is in the 4-er schools and not with his soldier comrades.

SUN BREVITIES

Best Printing: Town's, Asso. Mfg. Dolphie Boyle, employed at the Boston & Maine carshops in Billerica, was taken to St. John's hospital last night about 11 o'clock, suffering from an injured hand sustained in an automobile accident in Central street.

David Le Plant, residing at 162 Smith street, was struck down and injured by an automobile in Merrimack square about 7:15 o'clock last night. He was taken to St. John's hospital, where it was found the bones in the left leg were broken. The automobile which struck Le Plant was owned by a man residing in Bradford, Mass.

Private James Higgs of the MacLean Killies of America on a furlough at his home, 371 Lakeview avenue. He came from Montreal and will return Wednesday evening. He joined the MacLean Killies, June 16, and was working from appearance, agrees with him immensely.

As a result of less than a week's campaigning for funds to buy smoking comforts for America's fighting men about to board transports for "over there," Lowell contributed \$500.45 to the work. The campaign began last Tuesday evening at Keith's theatre, when Mayor O'Donnell made the initial appeal, and ended Saturday evening with Miss Helen Osgood as the solicitor. Saturday evening brought in \$107.24. The money was forwarded today to the Army Girls, a national organization which will distribute the funds among the soldiers. Lowell's showing is considered very good.

TWO DEFENDANTS FOUND NOT GUILTY OF SELLING LIQUOR TO SOLDIERS

SOCIAL AND FRATERNAL

A regular meeting of the Friends of Irish Freedom was held in Hibernian hall last evening with a large attendance of members. Routine business, remarks by several of the members and a pleasant entertainment made the evening a profitable and enjoyable one. Among those who entertained were Miss Maureen Quinn, Miss Mahoney, Miss Delmore, Miss Dever and Miss Russell.

The regular meeting of the Mathew Temperance Institute was held yesterday afternoon, Pres. John J. Townsend occupying the chair. Eight applications for membership were received and one new member was admitted. Financial Secretary Arthur M. Flaherty submitted a report on Wednesday night's banquet, showing that the event had been a success financially as well as socially.

In view of the fact that the game tournaments held last winter with other societies in Lowell and the surrounding towns proved of such interest to the members and helped to encourage a spirit of friendly rivalry among the societies taking part, the Mathews have decided to get an early start this year, thereby enabling themselves to add new societies to their list of opponents. The following members have been appointed to make the necessary arrangements: Arthur M. Flaherty, Fred T. Brown, John E. O'Neill, John Sargent, Thomas J. Tighe, Thos. J. Durkin and John J. Townsend.

The members intend to run a series of ladies' nights in the near future, and the following committee will be in charge: J. Joseph Finnegan, Thos. Clark, Walter Quinn, John E. O'Neill and Thomas J. Tighe.

Industry council will discuss at its next meeting, the proposition to invest \$1000 in Liberty bonds. On Thursday evening, October 8, Grand Regent Fred A. Goodwin and Supreme Vice Regent Franklin Rubright of

Chicago, Ill., will address a union meeting of Lowell Council No. 8.

The regular meeting of Division 11, O. A. H., was held yesterday. There was a large attendance and President John F. McInerney was in the chair. Two new members were initiated and one application was referred to the investigating committee. John J. Kennedy reported that he had attended the county board meeting at South Framingham on Sept. 30. It was recommended that the names of drafted men and all members serving under the Stars and Stripes be kept on the books, and also that the names be forwarded to the county secretary to be kept on the roll of honor. It was

voted that a committee of three be appointed to act in conjunction with a similar committee from the other divisions in regard to a class initiation in the near future. The dance committee reported that it would have a final report at the next meeting. Patrick Hayes spoke under the good and welfare of the order, in regard to increasing membership.

LETTER FROM WAR ZONE

Another letter has reached this city from "somewhere in France," but this time it does not come from Company M. Robert Walsh, son of Mr. and Mrs. Edward Walsh of 1 Madison place, enlisted in the regular army from Lowell about four months ago and was assigned eventually to Co. B of the 23rd Infantry, U.S.A. This regiment comes from New York for the most part.

In a letter which reached his parents Columbus day, after being on the way for four weeks, Private Walsh says that he had just arrived in France. He says that the Americans were received very kindly by the French people and that the young women were not at all backward in throwing their arms around the Sammie's necks.

The boys are all in excellent health and all they wish for now is a chance to get at the Kaiser. Where they are

NURSE HAD POOR HEALTH

Suffered Much Pain, Yet Had to Work. Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Toledo, Ohio.—"I am a widow and go out nursing, and suffered from a female trouble that caused a great deal of soreness across my back, and through my abdomen. Sometimes it would be very painful after a hard day's work. I read about Lydia E. Pinkham's Vegetable Compound and tried it and it has helped me wonderfully, so the soreness is all gone now. I believe Lydia E. Pinkham's Vegetable Compound is just the remedy for female troubles." Mrs. ELIZABETH JOHNS, R. F. D. No. 4, Toledo, Ohio.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today is regarded as the most successful remedy for female ills. There are thousands of voluntary testimonials on file in the Pinkham laboratory to prove this fact.

THE ECONOMICAL USE OF FUEL

WASHINGTON, Oct. 15.—"The householder must realize that what he throws away is a shovelful of anthracite coal into his furnace its value is equivalent to a half a pound of sugar, or half a loaf of bread, or half a pint of milk."

That is the manner in which Van H. Manning, director of the bureau of mines, department of the interior, endeavored to impress the state assessor of the fuel administration with the necessity for the economical use of fuel.

State deputies had been called together in Washington by Dr. H. A. Garfield, the fuel administrator, for a family council concerning the urgent work to be taken up in each state.

"The householder must, therefore, appreciate that it is now worth while to examine his house and to overhaul his heating equipment," continued Mr. Manning. "Weather strips, double windows, pipe coverings, clean flues and chimneys, and tight fittings in ash pits, doors, dampers and furnace parts will all pay. Damper control is one of the chief secrets of economical heating. Clean, heating surfaces are most essential, as soot is a poorer conductor of heat than asbestos. Care, attention, and taking pains will be the greatest factors in saving domestic coal."

Mr. Manning said that about 20 per cent. of the six hundred million tons of coal mined in the United States is used for house heating and that it is shovelled by more than fifteen million people.

"Americans have been as wasteful of coal as of other resources," continued Mr. Manning, "largely because coal has been abundant. To many consumers it has seemed hardly worth while to give time and thought to the saving of coal. Conditions have suddenly changed. Today it is everybody's business to save coal. Coal is the foundation stone of industry. Without it the production of equipment for war must halt. One man's careless and wasteful use may mean an idle factory or a cold house for his neighbor. With the world looking to us largely for its coal supply, with increased demands at home, with a scarcity of available labor, with overtaxed transportation facilities, the consumer of coal must pause and give serious consideration to the problem which confronts the country."

"If the people can be roused to an intelligent consideration of the burning of coal, they can begin to save 10 per cent. of the production, a great many million tons, at once. With more effort, thorough instruction and a moderate remodeling of coal-burning equipment, which could all be accomplished during the war, a further considerable saving could be made."

"The possible saving when present practice is compared with the best ideal practice is very large. If it were possible to turn the need of this country for light, heat and power through the highest type of mechanical devices, and if we could make a skilled user out of the average man, we could probably get along with half as much coal as we are now consuming. This ideal is far beyond present realization. We cannot scrap all out of date power plants. We must start with doing the best with what we have. We must begin saving coal at once."

ENTENTE ALLIES HAVE INCREASED SHIPPING

LONDON, Oct. 15.—The entente allies have increased their shipping allocations to the Allies, through the acquisition of the French, British and Italian lines, and the Lamport & Holt line of the controlling interest in the Argentine Navigation Co., which has a capital of \$10,000,000, and owns more than 300 vessels. The leading French lines and one Italian shipping company, participated in the transaction.

CHINA AND JAPAN SIGN AGREEMENT

PEKING, Oct. 15.—China and Japan have signed an agreement concerning the lease of the Kirin-Chang-Chun railway in Manchuria. Japan will loan China \$500,000 yen five per cent. for a period of ten years. The revenue of the railway will be held as security for the property during the term of the loan. The Kirin-Chang-Chun railway will be under the management of the South Manchuria Railway Co.

RALLY AT THE Y.W.C.A.

A rally for new and old girls of the Y.W.C.A. was held Saturday in the quarters of the organization in Grand avenue. Games, folk-dancing and gymnastics were in order and refreshments were served. Later the girls were divided into groups, according to age and occupation, and each group was invited to meet at a stated time next week to meet with the club leader and the girls' work secretary for definite organization into a club.

located the letter does not state. The writer says that the first lieutenant of the company opens and censors all the letters which the men write. Robert Walsh is one of three brothers, all of whom are serving in the forces of the allies. Benjamin Walsh is with the English forces in the trenches of France. He has been there for three years. In his letter Robert says that the men did not know that they were off to sea. The majority of them were under the impression that they were leaving for a southern training camp. But when they realized what their real destination was a whoop of joy went up.

FRENCH-AMERICAN VOTERS ENDORSE MIGNAULT AND CHARBONNEAU

Dr. Rodrigue Mignault and Lawyer Henri V. Charbonneau were endorsed as candidates for mayor and school committee, respectively, at a meeting of voters held in C.M.A.C. hall yesterday afternoon. The spacious assembly hall was filled to its capacity, and the meeting proved a most harmonious one. Among other business transacted was a change in the by-laws by which a president, a secretary, a treasurer and four directors were elected instead of 15 directors representing all the wards of the city.

In the early part of the afternoon checklists were brought in evidence, and only those whose names appeared on the lists as registered voters were admitted into the hall. The meeting was called to order shortly after 2:30 o'clock by President Joseph Payette and reports of the various officers were read and accepted. The number of directors was reduced from 15 to 7, and it was voted to hold the election of officers on the third Sunday in October instead of the second Sunday in September. Any important question will be submitted to a general meeting, which may be called by 25 registered voters. It was also voted that any member of the committee who desires to become a candidate for any public office shall submit his resignation to the other members of the committee, who will accept it.

The election of officers then took place with the following result: Joseph Payette, president; Arthur Lavoie, secretary; Charles Gagnon, treasurer; Albert Hogue, Arsene Brin, Auguste Gaudet and Alfred Beauchene.

The question of endorsing a city primary was then discussed, and Dr. Rodrigue Mignault was the unanimous choice of the assembly. The doctor addressed the gathering and informed his listeners that he will conduct an energetic campaign, and he asked the co-operation of all present and their friends to carry the campaign to a successful end. Lawyer Henri V. Charbonneau was then unanimously endorsed as a candidate for the school board after it was learned that the present school committee, Wolfred P. Caisse, Jr. would not be a candidate for a third term. Thanking the voters for their endorsement and assured them that he would do all in his power to win the nomination and to carry out the chair, then adjourned to the call of the chair.

PRESS PRAISED FOR WORK IN WAR

BOSTON, Oct. 15.—"Our Patriotic Press" was the subject of a sermon last evening at the First Methodist church, Temple street, by Rev. W. L. Gilbert. "The press of this country," he said, "should receive the unanimous indorsement of the public for its unselfish and loyal patriotism shown in the Liberty bond publicity and in its voluntary censorship based on honor."

"A critic must be ready to applaud as well as knock, and this I desire to applaud. Mothers by the thousands have smiled through their tears and sent their boys to the front with a heroic 'God bless you.' Sons and fathers have volunteered for 'democracy's sake.' But I have heard no one praise the press of America for its part."

"Have you tried to compute the space value of the free advertising of Liberty bonds. It certainly amounts to millions and millions of dollars. No one can deny the service of the press at home. It has not violated the confidence of the government in printing news detrimental to the progress of the war."

"Thousands of wonderful news stories have been killed to avoid exposing troop movements and ship sailings. This voluntary censorship is the finest type of patriotism. Our press deserves the highest recognition. Let us give the merited praise with our vote of thanks."

Cincinnati Man Discovers Drug That Loosens Corns So They Lift Out.

Local druggists are having a tremendous call for freezone, the drug which is said to shivel a corn, root and all, without any pain.

A few drops applied directly upon a tender, aching corn relieves the soreness at once, and shortly the entire corn, root and all, lifts right out with the fingers.

This new drug is being dispensed at small cost in quarter ounce bottles, which is sufficient to take off every hard or soft corn from one's feet. It is a sticky substance which dries at once, and does not irritate or even irritate the surrounding tissue or skin. There is no excuse for anyone suffering from cutting their corns now.

AMERICAN STEAMER SUNK BY SUBMARINE OFF COAST OF FRANCE

NEW YORK, Oct. 15.—News of the sinking of the American steamship Lewis Luckenbach by a German submarine off the coast of France was received here yesterday in a cable message to the shipping firm of Geo. Luckenbach, Inc., from their French agents. Forty-seven of the 56 members of the crew had been landed, the message said, but one boat with nine men was missing.

The Luckenbach was bound for Havre with a general cargo. She was a steel screw vessel of 3000 tons and was built at Camden, N. J., in 1903.

MISS JANTZEN HONORED

Miss Katherine Jantzen, a teacher of the Butler school, received a miscellaneous shower recently from a number of her friends who gathered at the home of Mrs. Leon Mullin, 33 Bourne street. Miss Jantzen received many costly gifts including cut glass pieces and silverware. The gifts were displayed in the dining room of Mrs. Mullin's home which had been beautifully decorated with roses and lilacs of the valley. A dainty luncheon was served by Mrs. Mullin assisted by Misses Tillie and Mollie McKean, Susan and Nodis Donohue, Madeline Cravner, Mrs. Cecil Hosmer and Mrs. Eugene Queenan. Miss Gertrude Mullin honored. The party broke up at a late hour, with everybody wishing Miss Jantzen much happiness in her married life. She is soon to become the bride of Dr. James B. O'Connor.

YESTERDAY'S FIRES

An alarm from box 421 at 3:30 o'clock yesterday afternoon, was for a slight blaze in the collar of a house at 13 Asawan street. The blaze was extinguished before any serious damage was done. A telephone alarm at 4 o'clock yesterday afternoon was for an insig-

ificant blaze in a house at 913 Lakeview avenue.

A needless alarm from box 217 at 9:57 o'clock yesterday morning, was for chimney fires in a house on John street. No damage.

EAT WHAT YOU WANT WHEN YOU WANT IT

People who consistently deny their appetite some particular dish appealing especially to their palate, because indulgence has always meant subsequent suffering, will think this a strong statement. It is a fact, however, that most people can, without fear of distressing consequences, indulge the appetite within reason if the bowls are active and regular.

Heavy dinners and late suppers can be enjoyed with impunity if, before retiring, one will take a small dose of Dr. Caldwell's Syrup Pepsin, a mild combination of simple laxative herbs with pepsin that drags the bowels for fifty cents a bottle. Gentle in action and positive in effect, it regulates the bowels in an easy, natural way, without griping or other discomfort, and is the ideal family laxative. Get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and keep it in the house. Use it occasionally and you will find you can eat almost anything you like without fear of consequences. A trial order can be obtained free of charge by writing to Dr. W. B. Caldwell, 480 Washington St., Monticello, Illinois.

CHARGED WITH SELLING BOOZE TO SOLDIERS

The lid was down pretty tight on illegal sale of liquor to soldiers in uniform in this city Saturday night owing to the activity of Sergt. David Pettie and members of the liquor squad. It is true that for several years past there have been a number of violations of the federal laws, but many a soldier who came down from Camp Devens Saturday night was disappointed at not receiving some Beverage of an intoxicating nature.

Heretofore a number of people who have little regard for law or order have been useful servants in securing liquor for soldiers and navy men, received good fees for their services.

buildings within a radius of five miles or more. Skyscrapers in Philadelphia nearly 20 miles distant, were rocked. Gibbstown is an industrial town 10 miles from Camden, on the Delaware river. It is the scene of intense activity where the Du Ponts manufacture great quantities of war explosives. Woodbury, N. J., 10 miles north of Gibbstown, reported that the explosion was the worst ever felt there. The town has been shaken from the powder magazine of lower New Jersey and Delaware. Hundreds of men employed in the works live at Woodbury and a few telephone messages from workmen who were unhurt were received.

TRIAL OF ALLEGED PLOTTERS OPENS

The defendants were Gustave H. Jacobson, wealthy real estate dealer; J. Edgar Hoover, director of Federal Bureau of Investigation; George Paul Boehm, a mechanical engineer, residents of Chicago and Herman Lal Gupta, a Hindu. A number of others were indicted, including Kurt von Rohlfitz, former negotiating consul for the German empire in Chicago, who is now in Germany; Adolph Sternack, also known as Adolph Sternack, and John J. O'Connell, a Chicagoan, who is now in Germany. The government added to place only the four on trial at this time. Ramifications of the German espionage system will be revealed at the trial, according to the government. The government charges that the government alleges, was hatched in Chicago, took certain men from this city, it is said, to India and during their travels many cities in the Orient were visited.

\$150,000 LIBERTY BONDS FOR MASS. MILLS

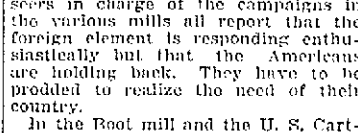

Lowell's liberty bond campaign; workers received a deal of encourage-

Late this afternoon the Appleton bank reported that its total had been increased from \$101,550 to \$146,700 as a result of today's subscriptions. The Okla. Lowell National bank reported \$82,000

It was decided that the million mark would be reached last Saturday but the final tabulation showed the contrary. \$906,650 was the nearest approach to the desideratum.

Where the blame lies it is hard to say. Perhaps the city as a whole is in some of the most desperate straits of belief that the issue will be met somehow. But the stern fact remains that it isn't being met and that Lowell is lagging behind.

A little encouragement came this noon when it was learned that two foreigners in the Saco-Lowell plant had subscribed \$600 apiece for the cause. Other foreigners are coming in by a similar manner. The over-

ing along in good style and results will undoubtedly be forthcoming.

shortly. And "shortly" it must be because the campaign ends October 27.

A meeting of the general Liberty bond campaign committee, which includes the heads of the various banks and industries, will be held at the board of trade rooms tomorrow morning and an attempt will be made to "kick in the pants" the campaign.

TWENTY VILLA FOLLOWERS PUT TO DEATH

JUAREZ, Mex., Oct. 15.—Passengers arriving here last night from the south report seeing the bodies of twenty Mexicans hanging to telegraph poles along the Mexican Central right of way between Tijuana and Chihuahua. Mexican officials say the bodies are those of Villa followers who a few days ago attacked a military train, mistaking it for a passenger train.

MATRIMONIAL

Adelard Lalime and Miss Corinne Martin were married this morning at a nuptial mass celebrated at 7 o'clock at St. Joseph's rectory by Rev. Armand Faron, O.M.I. The witnesses were Beattie Lalime, father of the groom, and J. E. Lambert, brother-in-law of the bride. At the close of the ceremony a wedding breakfast was served at the home of the bride's sister, Mrs. J. E. Lambert, in Gresham avenue, followed by a brief reception. The happy couple, who were the recipients of numerous wedding gifts, left at noon on a honeymoon trip to Boston and New York, and upon their return in a couple of weeks they will make their home at 182 Riverside street.

Carriage-Juarez

Joseph Carrier, a well known business man of this city, and Miss Alphonsine Marie Juras, a prominent young woman of West Centralville and daughter of Mr. and Mrs. Abraham Juras of 208 Cumberland road, were married this morning, the ceremony being performed at a nuptial mass celebrated at 7 o'clock at St. Louis church by the pastor, Rev. J. E. Labossiere. During the mass appropriate hymns were sung by the children of Mary sodality choir, of which the bride was a member. At the offertory Miss Clemence Simard rendered a beautiful Ave Maria. Miss Juras, in a gown of white, was escorted by her father, Abraham Juras, while the groom was attended by his brother-in-law, Louis Carrier. The bride wore a trailing suit of brown, and she carried bridal roses. At the close of the ceremony the bridal party repaired to the home of the

HIGH SCHOOL NEWS

The first debate of the season by the Greenhale Debating society of the Lowell high school will be held Friday afternoon at 3 o'clock in the school hall. The subject of the debate will have to do with prohibition during the present war and an excellent contest is looked for.

The next football game in high school circles will be played next Saturday afternoon at Spaulding park at 2:30 when the Lowell eleven lines up against the Boston high school of commerce. The commercial boys have always given the locals a stiff fight and this year's game will undoubtedly be no exception. Last year the two teams played at Fenway park, and Lowell won by a 21 to 19 score, after a fast game.

5000 BAGS OF FLOUR SHIPPED FOR SERBIANS IN AUSTRIAN PRISON CAMPS

WASHINGTON, Oct. 15.—Shipment of 5000 bags of flour for Serbians in Austrian prison camps, the first of a series of food purchases which the American Red Cross, in co-operation with the Serbian government is making in this country for relief of prisoners, was announced today. The Serbian minister has deposited \$500,000 to the credit of the Red Cross for the purpose.

THE CHATEAU PLESSIER LE ROYE GAPING WITH GERMAN SHELL HOLES

BY HENRY WOOD

WITH THE FRENCH ARMIES AFIELD Sept. (By Mail.)—Plessier de Roze, the famous historic chateau of Princes of Conde close to Lassigny, has gone to join Coucy-le-Chateau. Both attest the destructive instincts of the Germans.

With Pierrefonds and Coucy, Plessier de Roze was one of the three great chateaux of the Oise, set aside by France as historical monuments. Pierrefonds alone has escaped.

Plessier de Roze or what is left of it since its destruction by the Germans, was built by Eleonore de Roze on the site of an old medieval chateau of which only the moats now remain and which was destroyed during the revolt of the Jacques in the thirteenth century. Additions to the new chateau as built by Eleonore de Roze were made under Louis XIII. and Louis XIV., which converted the whole into the architectural jewel that caused it to be set aside as an historical monument.

Unlike Coucy, which the Germans blew up with a single, gigantic charge of 30 tons of explosives, Plessier de Roze suffered the slow, agonizing death of nearly three years of continuous bombardment. The Germans first passed by the chateau Aug. 27, 1914, headed for Paris. They repassed on Sept. 17, following the battle of the Marne, headed for Nancy. The Germans established their lines before Lassigny and the French were forced to lay theirs through the grounds of the famous chateau. It became thus the target for every German gun that could find nothing of a more military nature at which

to shoot.

Nevertheless, the chateau and its inhabitants remained game to the last. Despite the daily bombardment, its present owner, Vicomtesse du Pontavice, refused to abandon it. She played tennis there under the ruin of the German shells with the officers of the various regiments entrenched in the vicinity.

She laid out in the grand court of honor a tennis court for the recreation of the soldiers and sent out invitations to tennis tournaments that bore at the bottom the announcement of "German orchestra." The orchestra referred to was the screech and burst of German shells.

On Christmas night she had the customary midnight mass celebrated by the regimental chaplain, the German guns again supplanting the organ, and on the next day she had the soldiers give theatrical entertainments.

Gradually, however, the chateau became so perforated with German shells that it was no longer habitable and the Vicomtesse du Pontavice was forced to leave.

Gradually, under the steady German bombardment, not only the chateau, but the church and all the houses of the little village that surrounded it, crumbled away into fragments and dust. Deliverance only came when the Germans retreated from Lassigny last March, but by that time they had done their worst.

While the scattered inhabitants of the little village that depended largely on the chateau for its existence are now making their way back and it is doubtful if the chateau itself will ever be restored.

ORDERS STRIKE IN ALL MINES

WAR BEING FOUGHT BY WOMEN, SAYS PERSHING

AMERICAN TRAINING CAMP IN FRANCE, Oct. 15.—The mayor of the town in which the American field headquarters is located presented to Gen. Pershing today a silken American flag, on behalf of the women of the town who made it. The ceremony took place in the hotel de ville, the interior of which was decorated with French and American flags. Many French and American officers, civilian officials and women were present.

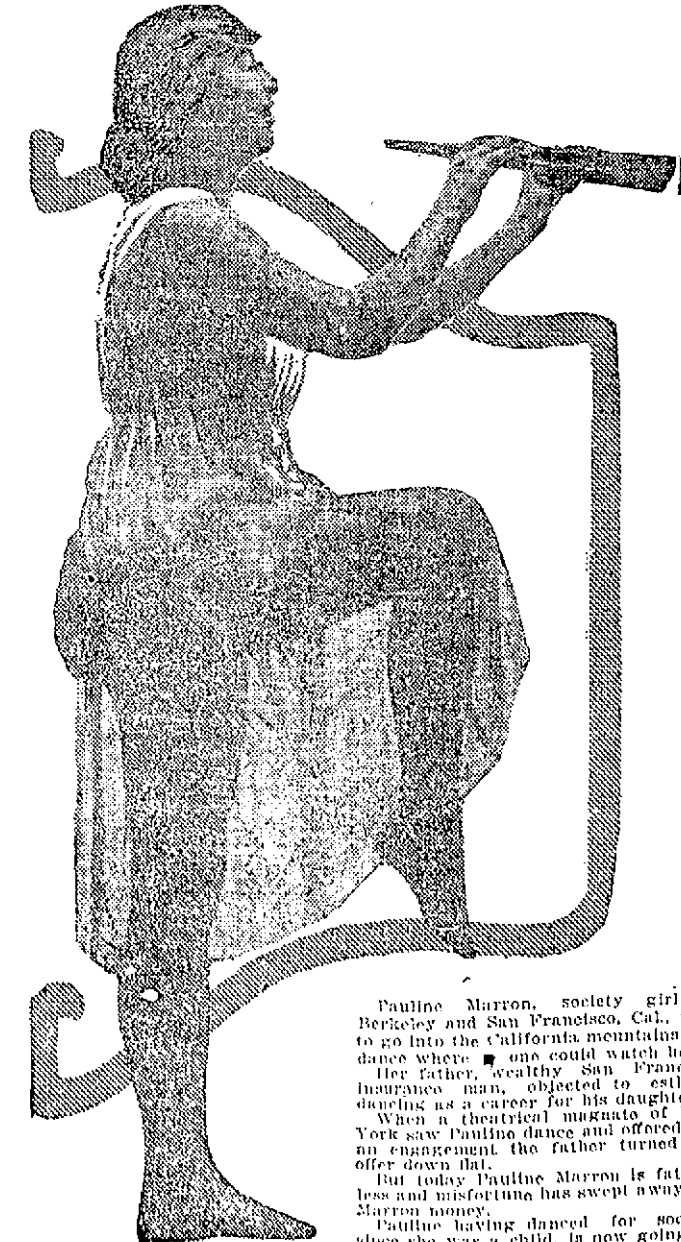

In his presentation speech the mayor referred to the splendid sacrifices of the women of France and America who not only were sending away their sons to fight for democracy but were making the war possible by their energetic work at home. Addressing the flag, Gen. Pershing said:

"This occasion brings home to us the tenderness with which our own women bade us good-bye. This war is being fought by women. It is women who suffer and lend courage to us. Women are the ones to whom honor will be due when the war is over, and they will deserve honor for their aid in establishing democracy." Gen. Pershing thanked many of the women personally before returning to his headquarters.

A granite tablet was placed in the wall of the hotel de ville today, with an inscription in gold letters commemorating the establishment of the American headquarters in the town in September.

Housewives of this city now look forward to Biddy Bye's tips on cooking and culinary art which appear each week in the Sunday Supplement of The Sun, published each Saturday.

THIS IS HER WAY OF EARNING BREAD

Pauline Marron, society girl of Berkeley and San Francisco, Cal., used to go into the California mountains and dance where one could catch her. Her father, wealthy San Francisco insurance man, objected to esthetic dancing as a career for his daughter.

When a theatrical manager of New York saw Pauline dance and offered her an engagement the father turned the offer down flat.

But today Pauline Marron is fatherless and misfortune has swept away the stage to dance a living for herself and mother.

Her mother is going to chaperone her on a countrywide theatrical tour. The young dancer is said to be the most perfectly formed girl in the state.

UNDER WATER GUN MAY SURPASS TORPEDO

SEATTLE, Wash., Oct.—An underwater gun that promises to revolutionize submarine fighting is being perfected here by William J. Pugh, mechanical genius, now employed in a shipbuilding plant.

Pugh recently showed his plans to Rear Admiral Ralph Earle, chief of the navy ordnance department in Washington. Certain improvements were then suggested.

WM. J. PUGH

tested in the type of projectile used in the gun.

Since Pugh returned to Seattle he says he has worked out these suggestions and is now ready to give a demonstration before naval officials just as soon as a battle-size gun can be constructed. Thus far all tests have been made with a miniature model.

The gun is mounted inside a submarine. When in firing position the muzzle projects through an opening in the outer wall of the submersible. A double wall and air chamber prevents flooding the undersea vessel.

A secret device in construction enables firing under water without bursting the weapon and at the same time adds to the penetrating power of the projectile.

A special projectile is used. A rudder and secret propelling contrivance accelerate its speed and holds it true to the course.

"The gun is now effective at a range of 1000 yards, with possibility of an increase," said Pugh.

"Guns can fire it at any depth from a submarine. They could remain entirely out of sight and blow up a whole fleet of warships after once observing the position of the vessels."

A torpedo costs \$900. The projectile used in the new gun can be made for \$50 and is more effective than the torpedo.

8000 APPEAL TO PRES. WILSON FOR EXEMPTION

WASHINGTON, Oct. 15.—Only one in twenty appeals to President Wilson for draft exemption on industrial grounds has been decided in favor of the applicant, it was said today at the provost marshal-general's office. In other cases the president has ratified the judgment of industrial boards that the applicant was not indispensable to a necessary war industry.

About 8000 appeals have been received, but only a small proportion decided. A number of officers in the provost marshal-general's office are assigned to the work of inspecting the documentary evidence submitted by appellants and their recommendations are reviewed by other officers and finally sent to the president.

OFFICERS FACE COURT MARTIAL TO DISCUSS WAR CAMPS ENVIRONMENTS

WASHINGTON, Oct. 15.—Aroused by publication in some parts of the country of private cablegrams announcing arrival of American troops in France, the war and navy departments today took steps to prevent a repetition of the incidents which may result in the court martial of the officers who sent the messages.

In one case a former National Guard officer wired his governor of the arrival of the state's troops, but so far as is known here newspaper in that locality observed the government's voluntary censorship request and did not print the cable.

In the other case, however, a former National Guard officer telegraphed the governor of his state of the arrival of his regiment, with a request that it be given fullest publicity. The governor's office gave out the cablegram and many papers in that state printed the news. This morning other newspapers published the despatch and added the number and designation of the regiment, all in violation of the voluntary censorship. The war department has most urgently requested that nothing whatever be printed about arrivals of troops abroad, promising at the same time to report promptly any casualty. Friends who know troops have sailed and heard nothing further may assume they have arrived safely.

BAR BALL PLAYERS FROM POST-SERIES GAMES

NEW YORK, Oct. 15.—Players participating in the world series will be forbidden to engage in post-series games, it was announced today by the National commission. From each player's share in the world series money the sum of \$1000 is to be retained until Jan. 1 as a means of enforcing the new rule.

Heretofore only the winning players have been barred from playing exhibition ball. The rule was amended today to include the losing players. If none of the men participating in the present series plays in games before Jan. 1, his \$1000 will be refunded in full, together with interest at 6 per cent.

It was said Manager McGraw of the New York Nationals had planned to take a team to Cuba for exhibition games.

It was declared also that Eddie Collins, captain of the Chicago Americans had intended taking a team made up of White Sox players to Upland, a Philadelphia suburb, and that \$10,000 had been guaranteed for their appearance.

VOTE ON PROHIBITION AMENDMENT AT SPECIAL ELECTION IN IOWA

DES MOINES, Ia., Oct. 15.—Iowa voters went to the polls in a special election today to ballot on a constitutional amendment to determine whether or not the manufacture and sale of liquor shall be prohibited. Defeat of the amendment means that, by legislative enactment, the state can again authorize the sale of liquor whenever a "wet" legislature sees fit to do so. Iowa has been dry for two years under statutory provision.

RIGHTS OF ALSACE-LORRAINE AS AN INDEPENDENT NATION TO BE DISCUSSED

NEW YORK, Oct. 15.—The rights of Alsace-Lorraine as an independent nation are to be discussed by Clement Rueff, president of "Les Amis de l'Alsace-Lorraine," at the first congress of the League of Small and Subject Nationalities which begins a three days' convention here on Oct. 29. Twenty of the small nations in whose behalf the world war is being waged will be represented.

GEN. CHABLOVSKY SAYS KORNILOFF NOT GUILTY OF HIGH TREASON

PETROGRAD, Oct. 15.—Gen. Chablovsky, president of the commission of inquiry into the Korniloff affair, has returned to Petrograd and in an interview with local newspapers declared that he did not see in the actions of Gen. Korniloff and the other accused officers any character of high treason. He was proved, he said, that Gen. Korniloff throughout the movement committed no act of a nature to weaken the fighting front. Gen. Chablovsky expressed the opinion that under article 104 of the constitution, which attempts to establish a regime and involving the penalty of life imprisonment.

OFFICERS FACE COURT MARTIAL TO DISCUSS WAR CAMPS ENVIRONMENTS

WASHINGTON, Oct. 15.—An important conference will be held here Oct. 23, at which prominent persons from throughout the country will discuss the problem of war camp environments. It was announced today at the national headquarters of the war camp community recreation service. Preceding the conference the national committee of a nation-wide campaign to raise funds for war camp community war work of which John N. Willys of Toledo is chairman, will meet. President Wilson has been invited to attend. It is expected that both Secretaries Baker and Daniels will make addresses. The conference has been called jointly by Raymond Fosdick, chairman of the war and navy department commissions on training camp activities, and Mr. Willys.

WAR TO BE DECIDED BY NATION'S SPIRIT

BOSTON, Oct. 15.—"Victory is ultimately won, not by bravery on the field but by the spirit of the nation behind it," said Dean Rousmaniere last evening in his sermon on "The Spirit of the Nation" at the Cathedral Church of St. Paul.

Continuing he said: "This is not belittling the bravery of our troops, but the bravery of the troops depends on the spirit we show. The spirit of this nation was read by the French people who thronged the streets of France to greet our boys, who bore for the first time the American flag in a conflict on European soil. The spirit of America is written in every field of that banner.

"Our spirit speaks through the flag, not as a strip of bunting or as a history of the country. Our flag speaks to us plainly of the spirit of that band of patriots who poured their blood on the field that we might enjoy liberty, freedom and justice; that is why our banners are enshrined at our altars.

"Our flag represented to the allies the courage of this peace-loving, war-hating nation, which realized full well the terror and destruction in the wake of war, yet, need determinedly its duty in a crisis.

"It depends on you how our men act at the front; they will be courageous if they can feel your courage in a message of good cheer. Today amid the awful darkness of war our men see the light of victory in the ideals of America, ideals that stand for the eternal principles of liberty, justice and freedom to all.

"The German emperor says that God is on his side. It is not a question which side God is with; our question is, 'Are we on the side of God?' So far as we can see we believe that these principles are the word of God, and we are fighting to uphold it. It is our humble endeavor to keep our eyes open to the eternal will, and walk in obedience to it.

"That is the spirit of this nation, that prompts the message we send to our boys: 'Be ye courageous, keep faith with the Unseen, and cherish a humble reverence and dependence upon God.'"

FAREWELL BANQUET TO FORMER MAN CARL LOVEJOY AT THE WEAVERLY HOTEL

An enjoyable banquet was held at the Weaverly hotel Saturday night, the occasion being the gathering of former employees of the Newton Manufacturing company to bid farewell to former Foreman Carl Lovejoy. The toastmaster of the evening was George Powers.

An excellent menu was discussed after which Toastmaster Powers made a timely address on the reason for the gathering and introduced Mr. Lovejoy, who responded.

An informal musical program was then given, with the following taking part in songs: J. Goggin, E. Cummings, J. Dubee, T. Brennan, J. Neeson and R. Greene, and in recitations, G. Keddler, R. McGill, N. Breton, A. Couture and A. Anderson, and in violin solos, Peter Marchand. The accompanist of the evening was Robert Alexander, and to the strain of "Auld Lang Syne" the party broke up.

TRADING WITH ENEMY ACT PUT INTO FORCE

WASHINGTON, Oct. 15.—Broad war powers conferred upon the president by the trading with the enemy act were put into operation under an executive order issued last night delegating the authority under the law to various government departments and to a newly created war trade board.

This trade board is composed of the members of the exports administrative board, which it will replace, with the addition of a representative of the treasury department.

It will continue to license exports and will exercise a similar control over imports, under authority of the trading with the enemy act, the articles to be so restricted.

Trading or commercial dealings of any nature with any enemy company or agent in this country or abroad is forbidden, except under license of the trade board, which also is authorized to license enemy or "ally of enemy" companies doing business in the United States, excepting insurance companies, whose supervision is entrusted to the treasury.

Censorship Board Created

Censorship of mails, cables, radio and telegraph messages passing out of the United States is placed in the hands of a censorship board, consisting of representatives of the war, navy and post-office departments, the war trade board and of George Creel, chairman of the committee on public information.

To the treasury is assigned the regulation of transactions in foreign exchange and exportation of gold or silver coin under license, and enforcement of the law provision against transmission of the enemy of information by any means other than regular mails.

The treasury also is authorized to license insurance or reinsurance companies of the enemy or ally of the enemy doing business within the United States. Regulation of the use of enemy-owned or controlled patents for the war and of the granting or publication of patents containing information valuable to the enemy, is given to the federal trade commission.

Foreign Language Newspapers

The postmaster general is entrusted with supervision over and licensing of foreign language newspapers. In anticipation of this authority, Postmaster General Burleson has been receiving applications for licenses, and will begin issuing them before Tuesday, Oct. 16, the date the provision of the law becomes effective.

All such papers, except those granted licenses, are required under penalty to file with their local postmasters before the date of publication a statement of all matter relating to the United States government or the governments of any other nations at war. The same section of the law makes it unlawful to circulate in any manner matter made unobtainable by the espionage act.

The president's order defines the powers of the alien property custodian as to act as trustee for all enemy property within the United States, or to issue licenses exempting enemy companies from his supervision. An appointment for this position will be made soon.

The New War Trade Board

The secretary of state is empowered to license the transportation of enemies' goods from the United States through the existing passport laws.

The secretary of commerce will retain his present authority to review the decisions of customs collectors refusing clearances to vessels carrying cargoes to violation of the trading with the enemy act.

The new war trade board is to consist of Vance C. McCormick, chairman, representing the secretary of state; Dr. Alonzo E. Taylor representing the secretary of agriculture; Thomas D. Jones, representing the secretary of commerce; Beaver White, representing the food administrator; Frank C. Munson, representing the shipping board, and a representative of the secretary of the treasury, yet to be named. All but the treasury representatives are members of the experts' administrative board, whose work hereafter will be done by the bureau of exports of the war trade board.

Advisory Council Formed

The name of the present exports council is changed to war trade council, with the secretary of the treasury and Chairman Hurley of the shipping board added to its membership, the secretaries of state, agriculture and commerce, and the food administrator. This body will act in advisory capacity to the president and the war trade board.

The president's order vests in the war trade board license to exchange, directly or indirectly with, to or from, or for, or on account of, or on behalf of, or for the benefit of any person, with knowledge or reasonable cause to believe that such other person is an enemy or ally of enemy, or is conducting or taking part in such trade directly or indirectly for, or on account of, or on behalf of, or for the benefit of, an enemy or ally of enemy.

Only with consent of the board may agents of enemy companies do business in the United States after Oct. 16. For companies also may not change the names they used at the beginning of the war without special license.

Regulation of Financial Matters

Sec. McAdoo is vested by the president with—and is expected to turn over to the federal reserve board—"the executive administration of any investigation, regulation or prohibition of any transaction in foreign exchange, export or re-exportation of gold or silver coin, bullion, currency, transfers of credit in any form (other than credit relating solely to transactions to be executed wholly within the United States) and transfers of evidence of indebtedness, or of the ownership of property between the United States or any foreign country, or between residents of one or more foreign countries, by any person within the United States."

The reserve board already exercises virtual control over gold and silver exports.

The vested authority of the secretary of the treasury to prevent transmission of information to an enemy, either to or from the United States, will be exercised by the secret service. The secretary may permit this transmission when he wishes.

Left to McAdoo's Discretion

"I further authorize the secretary of the treasury," says the president in his order, "to grant a license under such terms and conditions as are not inconsistent with law or to withhold or refuse the same to any company or 'ally of enemy' insurance or reinsurance company doing business within the United States through an agent or branch office or otherwise within 60 days of Oct. 16, 1917" (the date the act was approved).

The censorship board is entrusted with the censorship of communication by mail, cable, radio or other means of transmission passing between enemy United States and any foreign country from time to time specified by the president, or carried by any vessel, or other

MASS. CIVIL SERVICE EXAMINATIONS

A competitive civil service examination for visitors in the service of the state board of charity will be held on Oct. 22, 1917.

The classification of visitors in the service of the state board of charity is as follows:

Class I. Investigators for the department of state minor wards and for the department of the adult poor.

Class II. Visitors for babies and children under self-supporting age.

Class III-A. Visitors for older boys.

Class III-B. Visitors for older girls.

Class IV. Visitors who shall have special knowledge of settlement laws to treat needy families and adults.

Class I. Applicants for this class should be versed in the principles of investigation as they apply to babies, children under self-supporting age, youths and adults, and they should have some knowledge of case work.

Class II. Applicants for this class should have some knowledge of investigation, although they will be examined particularly on the placing out and supervision of babies and children under self-supporting age. Their duties will be largely supervisory. They should have some knowledge of the laws pertaining to minors and their application, as well as a knowledge of child life from the age of 12 years from the physiological, psychological, and moral points of view; also practical experience in case work dealing with children up to 12 years of age, including babies. It is desirable that applicants in Class II, who may be called upon to work with babies, should have had experience as nurses.

Class III-A. Only men are eligible to apply for this division. The requirements are the same as in Class II, except that the practical experience in case work must be with girls from the age of 12 to 21.

Class III-B. Only women are eligible to apply for this division. The requirements are the same as in Class II, except that the practical experience in case work must be with girls from the age of 12 to 21.

Class IV. Applicants should have special knowledge of the settlement laws of Massachusetts, knowledge of case work with needy families and adults, and a knowledge of investigation.

Classes I, II, and IV are open to both men and women.

Applicants are to elect for examination some one of the classes outlined above and will be required to have a knowledge of the chief public and private agencies dealing with the group regarding which they elect to be examined.

The salary for men begins at \$1200; for women at \$800.

The examination will include the following subjects: a sworn statement of education, training and experience; the writing of a letter or report; arithmetic; verbal orders, handwriting and accuracy tests; and special questions chiefly in line of cases and time test, but the applicant's judgment, knowledge of law and procedure, and ability to handle efficiently the phases of the work connected with the class for which she elects to take the examination.

Successful applicants may be subjected to a physical examination.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

Persons desiring to take this examination may secure application blanks by applying, in person or by letter, at the office of the Massachusetts civil service commission, Rooms 151-153, State House, Boston, Mass.

Applications may be filed at any time, but in order that a person may be entitled to appear at this examination the application blank must be filed out and received to be placed on file in the office of the Massachusetts civil service commission on or before Oct. 16, 1917.

The United States civil service commission announces that in view of the difficulty in meeting the needs of the service for stenographers and typewriters, and typewriters, and until further notice, holders of contracts with the United States will be admitted to these examinations, provided they have been resident in the United States for a period of at least three years, preceding the date of examination. Such persons may not be certified for appointment, however, so long as there are United States citizens on the eligible lists.

Stenographer and typewriter examinations for the departmental service in Washington, D. C., are held through

the United States on each Tuesday. Information and application forms may be obtained from the civil service commission, Washington, D. C., and from the secretary of the United States civil service board, postoffice, Boston, Mass. Other announcements for competitive examinations are being made as follows:

Lemons Do Whiten!

Try This on Face, Neck, Arms, Hands

The lemon juice massage indulged in once or twice each day means a little time and trouble, girls, but what of the splendid results? A skin bleached beautifully white, a complexion into the bloom of peach, softening of those lines of care; in fact, a skin eloquent of nature's purity and hands white, soft and full of charm.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes, to bleach the skin, and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small bit of ordinary cold cream. Be sure you strain the lemon juice so no pulp enters the bottle, and then the lotion will remain pure and fresh for months. When massaged daily into the face, neck, arms and hands it should naturally help to whiten, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.
